PASS FARM BILL IN HOUSE; FIGHT IN SENATE SEEN

Vote 315 to 98 on Roosevelt Plan.

Mortgage Plan Ready

The Roosevelt plan to lighten the burden of debt of owners of farms and small homes may be given to congress within a week. It contemplates the reduction of interest rates on farm mortgages by voluntary processes.

(Story on page 9.)

BY JOHN HERRICK.
[Chicago Tribune Press Service.]

Washington, D. C., March 22.—[Special.]—On the senate now depend the fate and the final form of the emergency farm bill demanded of congress by President Roosevelt.

By an overwhelming majority the house today passed the measure virtually in its original form, giving to the secretary of agriculture dictatorial power to regulate farm prices and production and the processing and marketing of basic farm commodities.

The house vote gave President Roosevelt and the farm bill a total of 315 ayes against but 98 noes and a single vote of "present." Only 24 Democrats, and most of these from the industrial states, broke away from the President's leadership, while 272 voted to support him. Of the votes against the bill, 73 were Republican, and 39 Republicans voted in favor of the bill.

Expect Battle in Senate.

With the contest over and the measure now moving to the senate, the prospects are for a far more vigorous offensive against the bill than that raised in the house.

Chairman Ellison D. Smith [Dem., S. C.] of the senate agriculture committee announced that he would take the bill before his committee tomorrow, but that unless it were amended into a far different piece of legislation he would not introduce it on the senate floor.

He declared that he would attempt to have substituted for it a simplified measure calling for the government to lease marginal farm lands and take them out of production, the money to be raised by a processing tax.

The prospects are that many Republicans will join with the chairman, and that, unless the President puts on pressure, many Democrats will be inclined to oppose the bill as it now stands.

Gives Secretary Vast Power.

As passed by the house, the farm bill seeks to give the secretary of agriculture almost unlimited power over the production of the "basic commodies" of wheat, cotton, tobacco, corn, rice, hogs, cattle, sheep, and milk and milk products.

The announced purpose of the bill is to "reëstablish prices to farmers at a level that will give agricultural commodies a purchasing power, with respect to articles that farmers buy, equivalent to the purchasing power of agricultural commodities in the pre-war period, August, 1909, to July, 1914."

As a means of attaining this end the secretary of agriculture is empowered to enter into agreements with farmers to cut their acreage and production, rewarding them at an unstated rate either through rentals or "benefits."

The secretary also is empowered to enter into marketing agreements with processors, associations of producers, or any other agencies handling the basic commodities, regardless of anti-trust laws. In order to carry out such agreements the R. F. C. is to loan any required funds.

Controls All Distribution.

The secretary is given complete authority over all handlers of the basic commodities through a license system, the terms of which he may dictate and which may include at his discretion any agency from the corner grocery to the Chicago Board of Trade. Agencies are to make reports, keep accounts, throw their books open, maintain trade practices as the secretary sees fit.

The money to be given the farmer and to defray the other costs of carrying out the program, such as the cost of meeting the salaries of the large army of federal officers and inspectors which will be required, is to be raised through a tax on millers, packers and other processors.

The tax, to be gradually imposed, will eventually represent the difference between current farm commodity

NAZIS PROCLAIM AUSTRIAN UNION AS THEIR GOAL

Hitler Puts Gag on Political Parties.

Bavaria "Invaded"

[Chicago Tribune Press Service.]

BERLIN, March 22.—Indignation prevailed in Berlin today over the alleged ride of two French cavalry officers into the village of Hilst, near Pirmasens, Bavaria, to inquire whether it were true that Nazi storm troopers are concentrated near by. While the officers were talking to villagers, it is alleged, a machine gun was drawn up on French soil to protect them.

BERLIN, March 22.—(AP)—The aspirations of Chancellor Adolf Hitler's Nazis for a political union of Germany and Austria were emphatically proclaimed today at the opening session of the Prussian diet.

The spokesman for such a union was Wilhelm Kube, the Nazi floor leader. Amidst the greatest enthusiasm he saluted eight Austrian Nazis in the gallery and declared:

"As the leader of the Nazis in this house and on the order of Chancellor Hitler, I, as a Prussian, say that we Prussians are pan-Germans, that we shall continue to be so, and that we shall have obtained our goal only when all Germany, including German Austria, is united with our fatherland in one great state which can then serve Germany's mission in the world."

Fight Over Premiership.

The well oiled Nazi parliamentary machine functioned perfectly, disposing within 43 minutes of a diet program that ordinarily would have necessitated weeks of deliberation.

Tonight the only check restraining the Nazis from overrunning everybody appeared to be the determination of Vice Chancellor Franz von Papen not to let a Hitlerite have the coveted post of Prussian premier. Surprise was occasioned at today's session when Hans Kerrl, who was reelected to the speakership, asked the house to adjourn subject to his call. It had been generally assumed that the election of Hermann Wilhelm Goering, prominent Nazi, as premier would take place tomorrow.

Those on the inside knew, however, that the premiership had not yet been settled. Chancellor Hitler apparently is willing to yield the place to Col. von Papen in recognition of the fact that it was Von Papen who won President von Hindenburg over to appointing him chancellor.

Political Parties Gagged.

Nazi members of the diet, however, seem determined to claim the premiership for Capt. Goering. The political world is following this test of strength within the cabinet with considerable interest.

Tomorrow the chancellor will ask the reichstag to approve an enabling act turning the government of the reich over to the cabinet for four years and in effect putting an end to the republican system by which Germany has been governed since the war.

The Nazis are strong enough to give this blanket power to Chancellor Hitler. Nevertheless, the government's official press department issued a stern warning to the political parties, especially the Centrists and Socialists that if they fail to approve the grant of extraordinary power their action will be tantamount to a declaration of war.

Extend Threat to Voters.

The warning made it clear that not only the parties as organizations would suffer if they stood against the government but also their voters.

"An attitude of opposition toward the new Germany," the announcement said, "would display not only a total lack of understanding of the real situation but also a disregard of the interests of the opposition parties and their followers."

Asserting that the national revolution was mild in contrast to other upheavals, the statement went on to say that the government would "accept the challenge of nonacceptance and the parties can therefore be expected to act with wisdom not only in the national interest but for their own preservation."

Praise Imperial Family.

Nazi members of the diet remained silent in today's session when Friedrich von Winterfeld, the Nationalist floor leader, expressed the hope that

WINS $3,500 IN AUTO INJURY SUIT AGAINST ACTOR

A jury in the courtroom of Superior Judge Harry B. Miller last night returned a verdict of $3,500 against Francis X. Bushman, actor, in a personal injury suit brought by Mrs. Margaret O'Malley Brand, 300 South Hamlin avenue. Mrs. Brand was seeking $50,000. Mrs. Brand, formerly an organist at St. Patrick's church, testified her career was ended through injuries to her hands resulting from an auto collision Dec. 1, 1931, at Homan avenue and Jackson boulevard. The auto in which she was riding was struck by another driven by Bushman's chauffeur. Bushman testified the accident was not caused through any fault of his chauffeur.

GERMANY CLAIMS PACIFIC ISLANDS HELD BY JAPAN

[Chicago Tribune Press Service.]

BERLIN, March 22.—The former German islands in the Pacific, the Marshall, Caroline, Pelew, and Marianne groups, which were mandated to Japan after the world war, will be demanded back by the German government, observers close to the Wilhelmstrasse said today. The German government will take the stand that Japan, in withdrawing from the league of nations, was not empowered to decide for herself to retain these colonial mandates but threw open a fundamental question which must be settled by an international tribunal.

THE WEATHER

THURSDAY, MARCH 23, 1933.

Sunrise, 5:48; sunset, 6:05. Moon rises at 5:25 a. m. tomorrow. Venus and Saturn are morning stars. Mercury is an evening star.

Chicago and vicinity—Mostly cloudy Thursday; Friday generally fair; continued cool; moderate winds mostly northerly.

Illinois — Mostly cloudy, probably showers in south, cooler in extreme south portion Thursday; Friday generally fair.

Board Orders 15% Tax Cut; Jacobs Balks

The board of tax appeals yesterday ordered a 15 per cent reduction in the 1931 assessed valuations on all residences and two and three flat buildings in the county. The order blew into flame a controversy which has smoldered for months between the board members, George F. Nixon and Fred W. Brummel, on one side and County Assessor J. L. Jacobs on the other.

As soon as he heard of the order, which, if it stands, will cut an estimated $9,000,000 from the current tax bills of home owners, Assessor Jacobs marched into the board rooms and told the members that he has no intention of complying with their order. He had been informed by Hayden N. Bell, head of the tax division of the state's attorney's office, that the board's order was illegal.

Crowd of 200 Hears Row.

The conversation, in the presence of some 200 complaining property owners who cheered and booed the speakers, quickly developed into a shouted debate in which Assessor Jacobs termed the action of the board "asinine, illegal and a grand stand play," while Mr. Nixon yelled back the suggestion that the assessor "get out and mind your own business."

The board's order was entered on the petition of a taxpayer, Thomas Harvatt, who filed a complaint on his five room brick bungalow at 6149 Berenice avenue. The order directs the assessor, who has custody of the assessment rolls, to make a 15 per cent cut in the valuations of all single residences, including two and three flat buildings, by 15 per cent.

Apply Only to Buildings.

These reductions would apply to the building value alone, and not to land beneath them. Since the tax rates have already been fixed, the order would result in a reduction of from 10 to 12 per cent of the 1931 tax bills of these classes of property owners. The penalty date on the first installment of these taxes passed on March 15. The reduction would be applied to the second installment payments, and, in the case of property owners who have paid their bills in full, would be deducted from the 1932 bill next year, Mr. Nixon said.

Assessor Jacobs had the light of battle in his eye when he strode into the hearing room, accompanied by Harry S. Cutmore, his first deputy; Walter R. Kuehnle, head of the real estate department of his office, and H. Gordon Bollman, head of the personal property division.

"I have come before the board to tell you that your order is illegal and has no bearing on the 1931 assessments, and is merely a grand stand

(Continued on page 5, column 3.)

A. W. BOOKHAM, OF ACCOUNTANT FIRM, ENDS LIFE

Albert W. Bookham, 37 years old, 823 Grand boulevard, Park Ridge, a member of the firm of Bookham, Janzen & Co., certified public accountants, 10 South La Salle street, ended his life by hanging himself in the garage of his home last night. His body was found by his wife, Mrs. Gladys Bookham, early this morning.

Mrs. Bookham told the police that she heard a noise in the garage shortly after midnight and, looking out, saw a light there. She waited for some time for her husband to come to the house and when he did not do so she investigated. Bookham was hanging from a rafter. He had stood on a box while he adjusted the rope, then kicked the box away. A good-by letter to his wife was found. In it, Chief of Police A. W. Johnson said, Bookham blamed business associates for his suicide.

SENATOR'S WIFE SAVES ON DRESS TO GET COTTAGE

Vienna, Ga., March 22.—(AP)—A little tenant house on a small farm just outside Vienna has been turned into a country home for Georgia's senior senator, Walter F. George, at the expense of his wife's inauguration wardrobe.

It was Mrs. George's idea to give the senator a place to "snatch a little rest" and the family somewhere "to enjoy real home life when we have the chance."

Mrs. George, who has tried living in big houses, small houses, apartments, and hotels, had wanted a "real" home for a long time, and when the inauguration came along she decided to save the money it would cost to attend and establish such a place.

"I call this my five-and-ten house," she said. "It is a real bargain counter production, rugs, draperies, and everything."

LORIMER, FORMER POLITICAL BOSS, IS SERIOUSLY ILL

William Lorimer, the "blond boss" of Illinois politics a quarter of a century ago, is seriously ill of heart disease in his apartment in a west suburban hotel, it was learned yesterday.

Mr. Lorimer, who is 72 years old, has been confined to his bed. He has had several sinking spells recently, but his condition was reported somewhat improved yesterday. Members of his family say his condition is due to overwork. They hope to move him soon to the home of his son, Leonard Lorimer, at Crystal Lake.

"I have been attending Mr. Lorimer for ten or fifteen years and he has great recuperative powers," said Dr. Leo Hardt, his physician. "You know, though, that you can't take an old rubber ball and put new elastic in it."

Nellie T. Ross Slated to Be U.S. Treasurer

BY JOHN BOETTIGER.
[Chicago Tribune Press Service.]

(Pictures on Page 6.)

Washington, D. C., March 22.—[Special.]—A woman is slated to become the treasurer of the United States. She is Nellie Tayloe Ross, former governor of Wyoming and vice chairman of the Democratic national committee. Her appointment as treasurer is expected to be announced by President Roosevelt in a few days.

It also was learned today that another high office of the government will go to one other Democratic woman and herein there is a touch of sentiment, for the selection is Ruth Bryan Owen, and she is scheduled to enter the state department which once under Woodrow Wilson, was the domain of her father, William Jennings Bryan.

Recognition for Women.

In such fashion the Roosevelt régime is recognizing the rights of women to important duties in the government. Already it has the first woman cabinet member, Miss Frances Perkins, secretary of labor.

During the coming years after Mrs. Ross has entered upon the duties of the treasurership her signature will appear on all of the new currency of the nation. She will be in charge of the keeping of the books of the secretary of the treasury showing the movements of billions of dollars, and will prepare his daily, monthly and annual reports.

Mrs. Owen, tall and charming former congresswoman from Florida, defeated in the last campaign, has been a frequent visitor at the White House ever since the Roosevelt inauguration. Reports were that she had set her cap for an assistant secretaryship in the interior department.

Her Goal Is Changed.

The place she coveted required some judicial experience which Mrs. Owen did not possess. That tactfully was pointed out to her by Secretary of the Interior Harold L. Ickes. There were some reports that Mr. Ickes, whose wife, Anna Wilmarth Ickes of Winnetka, Ill., is prominent in Illinois as a welfare worker and a Republican member of the state legislature, was hesitant about selecting a woman for the complicated work of his department.

Mrs. Owen, however, continued to seek an appointment and finally it was decided to offer her instead a post in the state department with Secretary Hull.

Secretary Hull, it is believed, will give her a rank comparable to an assistant secretary of state.

Other appointments soon to be made, according to reports, will include one for Warren Delano Robbins, cousin of the President. He has been serving as chief of protocol at the White House. He probably will be an assistant secretary of state.

Other Places to Fill.

The President is expected tomorrow to send to the senate for confirmation the appointments of James H. Hanley of Nebraska, lawyer and vice chairman of the state Democratic committee, to become a member of the federal radio commission, and former Congressman James W. Collier of Mississippi for membership on the tariff commission.

France to Use Silver Coins for First Time Since War

[Copyright: 1933: By the New York Times.]

PARIS, March 22.—Silver coins will reappear in France toward the end of this month for the first time since the war. One and a half million francs' worth of ten and twenty franc pieces have been minted and now repose in the vaults of the Bank of France. That institution's regents will decide tomorrow the date on which the new money will be put into circulation.

Chicago vs. New York

It's always a battle when America's two leading cities come together on the baseball field or in the boxing ring. There will be no exception when the Golden Glove champions of Chicago and New York match knuckles at the Stadium, March 29. The annual inter city bouts are boxing's biggest treat.

The show always has been a sell-out. Make sure you will not be disappointed at the last minute. Get your tickets now.

The prices are $1.10, $2.20 and $3.30.

Tickets may be purchased at The Tribune Public Service Office, 1 South Dearborn from 9 a. m. to midnight, or at Room 530, Tribune Tower, from 9 a. m. to 5 p. m. Address mail orders to Golden Glove Ticket Manager, Chicago Tribune.

PRESIDENT SIGNS BILL PERMITTING SALE ON APRIL 7

Would Free Many Dry Law Victims.

BY ARTHUR SEARS HENNING.
[Chicago Tribune Press Service.]

(Picture on Back Page.)

Washington, D. C., March 22.—[Special.]—With the beer bill signed by President Roosevelt today, the ancient brew of Gambrinus, after a thirteen years' proscription, will go on sale on April 7 in 23 states. The exact hour for Chicago, due to difference in time, is 11:01 p. m. April 6, a Thursday night.

The bottling of the beverage will begin tomorrow under government supervision in 158 breweries and bottling plants and in such additional plants as procure licenses.

In anticipation of the lifting of the prohibition lid, all of the breweries now operating are stocked to capacity with millions of gallons of aged beer ready for release to consumers. In bottles, mugs, and glasses the new brew of 3.2 per cent alcoholic content by weight [4 per cent alcoholic content by volume], equal in strength to its pre-Volstead prototype, will begin flowing at one minute after midnight of April 6.

May Sell at Groceries.

In most of the 23 states in which the manufacture and sale of beer will be permitted the beverage will be served in hotels, restaurants, and clubs and will be purchasable in bottled form in grocery and drug stores. In some states it also will be dispensed by the glass at soda fountains, beer gardens, and bars, though there is manifest a disposition to forbid the reincarnation of the old time saloon.

Reports reaching the capital from the 23 states now wet and from others that hope to be so within the fortnight indicate that April 7 is going to be a day of celebration of the emancipation of America from the oppression of bone dry bigotry. Hotels and restaurants are preparing for festivals of joy that by comparison will make New Year's eve parties look like sewing circles. In many such places there are going to be watch parties on April 6—watching out the dark era at midnight when the suds will begin to flow.

Chicago has an hour's advantage, but since the brew is not released from the breweries until 11:01 p. m., April 6, it may not reach the consumer until after midnight.

Would Free Law's Victims.

President Roosevelt also has in mind a celebration of the end of the rule of prohibition bigots. He wants to proclaim an amnesty for persons now in prison for what was but is no longer a crime—the manufacture and sale of beer up to 3.2 per cent alcoholic content by weight. He requested Attorney General Homer Cummings today to ascertain the number of such persons now in confinement and to advise him regarding the question of their release from prison, either by pardon or parole.

At the department of justice it was stated that the records do not segregate those convicted of brewing or selling beer from other prohibition offenders and that it will be necessary to obtain such details from the district attorneys. In federal prisons last June 30 there were 4,621, and in state penitentiaries and county jails 8,280 federal prohibition offenders of all classes.

Representative Adolph J. Sabath [Dem., Ill.], who introduced a resolution in the house authorizing the pardon of beer offenders, said he does not propose the release of the big conspirators, such as the members of the Capone and other gangs.

Sorry for Little Fellows.

"I am interested solely in the release of the little fellows who made a little beer and peddled it," he said. "I am hopeful President Roosevelt will free those prisoners convicted of violating a law that congress now has repealed. I do not believe it is fair to keep men in prison for an act now legal. The President has the power to parole or pardon them. If he doesn't wish to act, I shall push my resolution.

"There are thousands of these prisoners in jail. If we free them, we will save the government millions of dollars."

The formality of passage of the beer bill by congress was completed when Vice President Garner affixed his signature to the measure within two minutes after the senate assembled at noon. Then it was rushed to the White House, where the secretariat set the ceremony of signing for 2 o'clock.

Shortly before that hour there ar-

rived at the executive office the wet leaders who piloted the bill through the house—Representatives Thomas H. Cullen, the Tammany brave who is the sponsor of the bill; John W. McCormack [Dem., Mass.], chairman of the subcommittee that drafted it; John J. O'Connor, Tammany's Phi Beta Kappa scholar; Chicago's Sabath, who in pre-Volstead days was chairman of the committee on the alcoholic liquor traffic. In addition there was Representative Claude V. Parsons [Dem., Ill.], chairman of the house committee on enrolled bills. The senate was not represented.

At 2 o'clock the congressmen and the reporters were admitted to the cabinet room which was a forest of Klieg lights for the taking of the moving pictures recording the historic occasion. The President sat at the end of the cabinet table. He was clad in a blue serge suit with a blue cravat showing against the white background of a soft shirt. At the other end of the room was the battery of movie cameramen ready for the word.

Stephen T. Early, one of the secretaries, handed the engrossed bill to the President who had assembled the four pens with which he was to sign. The movie cameras began grinding. Mr. Roosevelt with poised pen scanned the pages of the bill, turning them one after another.

When the President came to the end of the bill he laughed.

"I see the Vice President was so excited that he blotted his signature," Mr. Roosevelt chuckled.

Early Directs Cameramen.

"Cut for signature," commanded Early, who used to be in the moving picture game himself. The cameras stopped and then at Early's signal began grinding again as the President dipped the first pen in the ink and wrote the word "Approved." By the time he had ended his signature he had used the four pens, which he then handed over with the request that they be given to Mr. Cullen, Senator Pat Harrison [Dem., Miss.], who sponsored the bill in the senate, the American Legion and the American Federation of Labor, which were prominently identified with the furtherance of the legislation. It was 2:15 o'clock when the President signed.

The movie cameramen withdrew and the still cameramen advanced.

The congressional delegation was requested to come forward to form the background for the still pictures.

"Well, it's off," laughed the President as he shook hands with Congressman Cullen.

A moment later the President asked whether the legislation applies to the Virgin islands, expressing much solicitude on that point because that group of islands was beggarded by the operation of the prohibition law. Congressman McCormack assured the President that the act applies to the Virgin islands.

Tax Payment Method.

Brewers will have to pay their tax of $5 a barrel in advance, David Burnet, commissioner of internal revenue, announced today after the signing of the bill. Burnet and James M. Doran, commissioner of industrial alcohol, have issued joint instructions to their forces.

Before he begins bottling his beer a brewer will have to estimate the amount in 31 gallon barrels which he expects to bottle. He will deposit sufficient money with the collector of internal revenue to cover the estimated tax. An inspector will be assigned to make daily reports on the bottling and to warn the brewer when his tax credit is near exhaustion.

The tax will be computed as the beer moves from storage to the bottling works. Commissioner Burnet explained. As soon as a permit has been granted and an inspector assigned to the plant bottling may begin, although actual sale must wait until the act signed today becomes effective.

Estimates of the revenue expected from the beer tax vary from 125 to 150 millions of dollars a year.

Near beer breweries, which produced 36 million gallons last year, have been greatly expanded. Some new breweries are ready to operate, but it is apparent that the supply will not be equal to the demand on April 7. The available supply, it is believed, will be consumed at first by the larger cities, and it will be several weeks before smaller communities can be supplied.

One of the new breweries is to be a $2,500,000 plant in Washington. An effort is to be made at once to get a bill through congress authorizing the manufacture and sale of beer in the District of Columbia.

St. Louis Greets Beer as Dawn of New Economic Day

St. Louis, Mo., March 22.—[Special.]—The beer bill was just what the doctor ordered to quicken the economic pulse of St. Louis which has the vastest brewing industry of any city in America.

Breweries and allied industries in the St. Louis industrial district will spend more than $10,000,000 and give employment to more than 5,000 workers in the rennaisance of beer. This is but the starter.

Brewers say both employment and financial outlay will expand beyond present capacity to calculate as production is stepped up following the returning flood tide.

Millions for Equipment.

Anheuser-Busch, Inc., world's largest brewery, is spending $7,000,000 for new equipment and will hire 2,500 additional employés as soon as the law becomes effective. This brewery is prepared to ship from 100 to 150 freight carloads of beer the moment the beer law goes in operation.

Falstaff corporation, another brewery with national distribution before prohibition, is spending $800,000 for equipment, including trucks, bottles, refrigeration, and brewing equipment, and will add 500 or more workers to its pay roll.

The Schorr-Kolkschneider Brewery has ordered 1,000,000 pint bottles, 25,000 wooden cases, 60,000 gross of bottle caps, and is spending $50,000 for plant rehabilitation, and $15,000 for 1933 advertising.

A small brewery at Alton, Ill., is ready to go at once and two other St. Louis breweries are considering reopening.

Thousands of dollars are being spent by St. Louis hotels, restaurants, and catering establishments in preparing to serve the beer trade. Real estate dealers report numerous inquiries for restaurant and beer garden sites.

Glass Factory Expands.

The Owens-Illinois Glass company, which has a mammoth bottle making plant at Alton, Ill., is rushing repairs of three glass furnaces which have long been idle and in two month will be operating at capacity, with nine furnaces going day and night.

BEER SELLING BILL HASTENED FOR MICHIGAN

[Chicago Tribune Press Service.]

Lansing, Mich., March 22.—[Special.]—Definite legislative steps toward preparing Michigan to take advantage of legalized beer on the night of April 6 were taken today. Bills appeared in house and senate, one to modify the prohibition law to allow manufacture and sale of 3.2 beer, the other to repeal the present section of the dry law prohibiting acceptance of liquor advertising, under 3.2 limitation, by newspapers. The entire issue is somewhat tangled with plans for national repeal.

Licenses for handling such beverages could be obtained by application to the clerks of the various governmental units. Sale would be permitted by hotels, restaurants, soda fountains, and other establishments now dispensing food and beverages.

The governor apparently fears political results of legalizing beer before the April 3 election. At that time the issue of ratifying the amendment to repeal the 18th amendment to the United States constitution will be voted on. The governor is anxious that the state ratify repeal.

BRITISH COMMONS TOLD WORLD FOLLOWS LEAD OF ROOSEVELT

LONDON, March 22.—(AP)—"An almost miraculous change" has occurred in the United States since the inauguration of President Roosevelt, Chancellor of the Exchequer Neville Chamberlain said in the house of commons tonight. He referred to economic conditions throughout the world, as well as in the United States, and his remarks were optimistic.

"Looking over the world," he said, "one can see indications that the industrial situation is likely to improve within the next few months." Recent improvement in the United States, he asserted, has been reflected on this side of the ocean.

On the subject of the domestic employment situation, he made this statement: "The policy of aiding unemployment by instituting relief works has been tried, but it failed. We don't intend to resume it."

First Cargo of Lumber Arrives on Waterway

(Picture on back page.)

The first load of lumber to come by way of the newly completed Illinois waterway arrived yesterday at A Century of Progress grounds on a barge from Morris. The cargo of 80,000 square feet of cribbing timber and sheathing will be used in construction of the dance ship to be operated by Dance Ship, Inc., during the World's Fair, and in making an addition to Rutledge tavern, part of the Lincoln group at the fair. The dance ship will be situated on the lake shore, just north of Fort Dearborn.

Executive Indicted by U. S. on Charge of Mail Fraud

John G. Fisher, head of the American Textile Service company, 2649 Sheffield avenue, was indicted yesterday by the federal grand jury on a charge of using the mails to defraud.

BEER TO BECOME LEGAL HERE AT 11 P. M APRIL 6

Celebration May Be Held Following Day.

At 11 o'clock p. m., April 6, the sale of 3.2 beer will be legal in Chicago under a ruling yesterday by E. C. Yellowley, head of the permit section of the prohibition department for this district. The ruling was made after President Roosevelt had signed the beer bill. Mr. Yellowley estimated that at midnight April 6, fifteen days will have elapsed in Washington after the signing of the bill. Midnight in Washington D. C., corresponds to 11 o'clock central standard [Chicago] time, 10 o'clock mountain time and 9 o'clock Pacific coast time.

E. C. YELLOWLEY.

However, the celebration planned in Chicago to welcome the return of beer may not take place until the next day. According to present plans, the demonstration may be a repetition of the Armistice celebration. The delay is likely because of an interpretation of the law that brewers and dealers may not legally make deliveries to homes or retailers before 11 p. m. April 6.

Seven Breweries Ready.

The seven Chicago breweries now in possession of federal permits to make near beer report all is in readiness for fast work from and after that moment. These plants will have their beer properly aged at that second. Other breweries not yet licensed will have newer beer, it was pointed out with the announcement by Mr. Yellowley that from now on new permits would be granted as rapidly as possible. Until the President signed the beer bill all applications had been held up. Temporary permits to make 3.2 beer were issued yesterday upon payment of $1,000.

Proof of good character will be required of the brewers in every instance, Mr. Yellowley said. The government intends to prevent the outlaw brewers and beer runners of the prohibition era from sneaking under the 3.2 fence to respectability, he said, and will do its part in preventing gang domination of the industry.

Twenty-five Steins for Every One.

Joseph Dubin, editor of the Brewery Age, said there is enough beer now in vats and storage to supply every Chicagoan with 25 steins. There may be a shortage after April 7, he said, because it takes sixty days for the proper aging of beer. From other sources, however, it was learned that there is still a plentiful supply of bootleg, or needle, beer and that an attempt will be made to market this along with legal beer.

The brewers are reported to be proceeding cautiously, remembering "there's many a slip 'twixt cup and lip" and having in mind the possibility of a court attack on the new beer. However, they are accepting all orders for home or retail delivery at prices to be established later when all taxes are known.

Coughlin Wants Celebration.

Ald. John J. Coughlin [1st] advised his fellow aldermen at a council meeting yesterday that a celebration was in order. He suggested that the newly elected aldermen who will take their council seats April 5 or 6 be welcomed at a party where two or three barrels would be on tap. Ald. Coughlin also introduced a measure calling for a $500 tax on breweries. This will be considered by the finance committee.

The council took action to make it easy for applicants for beverage licenses to comply with the present requirement of furnishing a bond. Over the objections of Ald. Thomas Terrell [29th], champion of a bonding company, the council directed the city collector and controller to accept real estate bonds instead of surety bonds wherever possible, and indicated that after June 30 the bond requirement would be abandoned.

The question of repeal of the bond requirement was laid on the table because of the conference called for tomorrow by Acting Mayor Corr at which new city ordinances for the regulation of beer sales are to be discussed. Aldermen generally are opposed to a reënactment of the old 1 o'clock closing law and Sunday closing, which were in effect in the old saloon days, it was said.

Favors Sidewalk Cafés.

Ald. John Toman [24th] said he favors an ordinance which would permit an unrestricted view from the street into any drinking establishment. He also favors the authorization of sidewalk cafés, such as are to be found in Europe. Aldermen Clark [30th], Nelson [46th], and Cronson [4th] were others who said they were opposed to any "closed hours" for beer sales. Ald. Henry Sonnenschein said he favors liberal provisions in every respect regarding beer drinking.

WRECKERS BEGIN TO DISMANTLE FAMOUS OLD CHICAGO BREWERY

After working for 50 years for a brewery, Jacob Hery, 64 years old, of 2537 Iowa street, stood with other veteran employés yesterday and watched wreckers begin to dismantle the huge old brewing plant at 27th street and the Illinois Central right of way, just a little more than two weeks before beer again is to be made legally.

When a boy 14 years old, Hery worked washing bottles at the plant, then the old Seipp & Lehmann brewery, said to the second largest in Chicago. Later it was known as the Conrad Seipp brewery, one of the midwest's largest. Later it was sold to British interests and was known as the Chicago Consolidated Brewing and Malting company.

Shortly after prohibition the plant stopped making near beer, and since then has only done a distributing business in near beer. Until the first of the month Hery drove a delivery truck.

INDIANA ADDS MANY RULES TO LEGALIZED BEER

Other States Act on the New Situation.

Indianapolis, Ind., March 22.—(AP)—Hoosiers who drink beer in public places will have to order bologna, rye bread or other food with that beverage.

The law passed by the Indiana general assembly at its recent session to legalize the manufacture and sale of beer surrounded the sale of that beverage with many restrictions, among them one which provides it can be dispensed in public only in connection with the consumption of food.

Only Bottled Beer.

The beer the Hoosiers get will come only in bottles. There will be no keg beer. A case of twenty-four pints may be purchased at one time for home consumption. Despite the congressional removal of the age limit of sixteen years, Indianians under twenty-one years will find they are barred from purchasing the beverage at public eating places.

Beer, under the new state statute, can be served only in restaurants, clubs, dining cars and in dining rooms on boats.

Heavy penalties are provided for public intoxication and for driving an automobile while under influence of liquor.

Vermont for Beer.

Montpelier, Vt., March 22.—(AP)—The lower house of the Vermont general assembly today passed the 3.2 per cent bill for beer and vinous beverages on a roll call vote of 149 to 93. There was no debate. The measure then went to the senate under suspension of rules. Local control of sales is provided for towns and cities. Where towns or cities vote "No" only hotels with 20 per cent or more of "sleeping rooms" may sell. No sales are to be made over a bar or in a place commonly called a "saloon."

40,000 Barrels Ready.

San Francisco, Cal., March 22.—(AP)—With 3.2 per cent beer legally available in the United States at 12:01 a. m., eastern standard time, April 7, San Francisco and perhaps other cities of the Pacific time belt probably will hoist the foaming glass at 9:01 p. m., April 6, on the say so of Federal Judge Frank H. Kerrigan. One San Francisco brewery hopes to put 40,000 barrels of beer into retailers' hands the first day.

Approves Brewery Charters.

Harrisburg, Pa., March 22.—(AP)—Richard J. Beamish, secretary of the commonwealth, is approving charters to brewing companies. About 30 such applications await his approval, he said.

Hold Liberal Views.

Hartford, Conn., March 22.—(AP)—Kenneth Wynne, executive secretary to Gov. Wilbur L. Cross, explained that the state enforcement act still unrepealed only prohibits the sale of liquor held to be intoxicating by federal laws. So the governor, members of the liquor control study commission, and leading lawyers hold 3.2 beer will be legal before repeal of the state act.

North Carolina Delays.

Raleigh, N. C., March 22.—(AP)—The North Carolina senate committee on constitutional amendments today favorably reported a bill calling for a referendum at the general election in 1934 on whether or not the state shall have a convention to consider the Blaine prohibition repeal resolution and for election of delegates.

Saloon à la Baltimore.

Baltimore, Md., March 22.—(AP)—In preparation of a bill revising the city's liquor laws, Baltimore officials speak of "establishments maintained primarily for the sale of beer and other beverages of alcoholic content."

Louisiana House Acts.

Baton Rouge, La., March 22.—(AP)—The Louisiana senate tonight approved a bill repealing the state prohibition law known as the Hood act. The vote was 30 to 7. The bill was sent to the house for concurrence. Action by the house is expected on Friday, which would permit the repeal to become effective on April 13.

Helps Dry Arkansas.

Fayetteville, Ark., March 22.—(AP)—A demand for staves for beer kegs has caused a boom in the timber business in the northwest Arkansas Ozarks and given employment to farmers and mill workers in communities where 70 stave mills virtually are the only active industry. But Arkansas' bone dry law will prevent the manufacture and sale of beer within its borders. The mills can turn out about 234,500 staves a day. Farmers sell stave blocks to the mills at 4½ cents each.

Ask Quick Beer Bill.

Columbus, O., March 22.—(AP)—In a special message to the legislature, Gov. George White today called for emergency action on a bill to legalize the manufacture and sale of 3.2 per cent beer to meet need for increased state revenues, boost business, and aid employment.

But the governor will veto any measure "which does not make ample provision against the return of the oldtime saloon."

The pending measure is before the senate judiciary committee.

Ohioans will choose delegates to the 18th amendment repeal convention at the regular election Nov. 7.

GOV. ROOSEVELT'S SHIP HITS ROCKS OFF PHILIPPINES

MANILA, P. I., March 22.—(AP)—The Manila Bulletin, an American newspaper, said today the government cutter Arayat carrying the party of Theodore Roosevelt, retiring governor general of the Philippines, went aground on the rocks between Cebu and Zamboanga, southern Philippines, but was refloated.

The destroyer Stewart was rushed to the aid of the Arayat but when the latter worked loose from the rocks under her own power on a rising tide, the Stewart started back to Manila.

The Roosevelt party remained in the southern part of the archipelago for fishing until Friday. Mr. and Mrs. Roosevelt sailed from Manila Thursday, starting their return to the United States by way of Europe.

Man experienced in contest promotional selling cosmetics, household preparations and flavoring extracts. Only those who have had experience should reply, giving fullest details.

U. S. INDUSTRY FINDS NEW BEER HAS A REAL KICK

Injects Life Into Many Lines of Trade.

New life is being injected into the nation's industry, from the pretzel business to the railroads, by preparations to supply 75 million persons with legal beer. Such were the reports gathered yesterday by Joseph Dubin, editor of the Brewery Age.

There is a rush of orders, Mr. Dubin said, for hops from Oregon, barley malt and corn from the middle west, rice from Texas, bottles from Illinois, caps from the Atlantic seaboard, seasoned white oak from Arkansas, and brewery machinery from various big cities. This means business for the railroads, he added, and glass lined steel tank cars are already being made to haul the beer under refrigeration from the breweries to distant bottling branches.

Rails Expect 100 Million.

Owen T. Cull, freight agent of the Milwaukee road, has estimated that the railways will receive 30 million of an estimated 300 million dollars to be spent for immediate construction and that the annual revenue from hauling beer and related products will be 100 million dollars.

Mr. Dubin said the nation was confronted with a barrel shortage and that barrels would have to be imported from Germany because of the limited supply of seasoned white oak. It takes six months to get the timber ready to be made into barrel staves.

"I talked with a cooperage concern in St. Louis today," Mr. Dubin said. "They told me they were turning down orders."

Working Day and Night.

Wendnagel & Co. of Chicago and the Dunck Tank Works of Milwaukee, makers of wooden retainers for beer, reported that full crews of men were working day and night. The latter concern has orders totaling half a million dollars.

The breweries are ordering bottles by the millions—a Los Angeles brewery ordered 21 million from a Toledo concern. Brewers expect to sell a larger proportion of bottled beer than they did before prohibition. The largest makers of bottles is the Owens Illinois Glass company, which recently reopened two plants to handle the flood of bottle orders.

Hop Market Is Up.

The hop market has jumped since the passage of the beer bill. The farmers of the nation will have to devote 3,000,000 more acres to barley if the beer consumption reaches what it was in 1915, when 80,000,000 bushels were used. Last year only 23,000,000 bushels were produced in the United States. In the peak beer days the breweries also used 600,000,000 pounds of corn, 40,000,000 pounds of hops and 167,000,000 pounds of rice a year.

Seven breweries in Chicago which have licenses to make near beer are adding new equipment for the manufacture of 3.2 per cent brew. Nineteen other breweries are planning to go into operation. Millions of dollars, it is expected, will be spent in repairs, replacements and additions to the existing breweries and on the new ones, Mr. Dubin estimated.

New Machinery Needed.

Much of the brewery equipment that was installed just before prohibition is still in good shape but will have to be replaced because of new inventions. The old Kesley brewery at 27th street and the Illinois Central tracks is to be torn down, and it is reported that a new one will rise in its place.

According to a survey made by the Milwaukee association the beer bill will result in the employment of 6,100 men in that city's breweries and 21,250 in related occupations, more than 75 per cent of the number of families on the Milwaukee relief rolls. It will mean an outside revenue of $65,000,000 a year to Milwaukee and increase the manufacturing pay rolls by $40,000,000.

Build Glass Lined Cars.

The Union Refrigerator Transit company of Milwaukee is getting 400 cars ready to haul beer and the General American Tank Car corporation is building glass lined steel tank cars, an innovation in this country in beer hauling.

The great pretzel centers of the country are Philadelphia and St. Louis, but Milwaukee makes its own pretzels, both straight and tied, and makers of each variety said they would double their output when beer is back.

100 Women Force Sheriff to Postpone Forced Sale

Madison, Minn., March 22.—(AP)—Preventing the sheriff from leaving his office, one hundred women forced postponement of a mortgage foreclosure sale today. Sheriff A. G. Smaagaard said he was unable to leave his office because the women crowded about him. He telephoned a representative of the insurance company holding the mortgage and then announced definite postponement.

Return of Beer Provides a Spur to Industries

The shops of Wendnagel & Co., manufacturers of tanks and vats used in breweries, which have recalled their full staff of workmen to turn out equipment for brewers who will fill demands for beer.
[TRIBUNE Photo.]

Old Legal Barriers May Limit Sale of Beer on North Shore

North shore residents learned yesterday that old but not forgotten legal barriers may come between them and their beer. Ancient charters, local option territory and military restrictions are looming as obstacles there even as they are in parts of Chicago where annexation guarantees may still be binding as regards "dry" territory.

Evanston officials are on record as opposed to issuing beer licenses. Corporation Counsel William Lister holds that Evanston is still bound by the charter granted Northwestern university in 1851, under which the sale of liquor was forbidden within four miles of the university grounds.

Reaches to Devon Avenue.

The four mile zone reaches to Devon avenue in Chicago on the south, includes Wilmette, No Man's Land, and part of Kenilworth on the north, and may extend far enough west to include some roadhouses in Niles Center and Morton Grove. If the provisions of the charter are still in force a legal problem prevails in that section. The charter contained this prohibition:

"No spirituous, vinous, or fermented liquor shall be sold within four miles of the location of said university [Northwestern] except for medicinal, mechanical, and sacramental purposes, under penalty of $25 for each offense, to be recovered before any justice of the peace of the said county of Cook."

Later it was amended to contain a provision that any portion of the grant might be repealed by subsequent act of the legislature. Because of the fact that there is no mention of "malt liquors" in the Northwestern charter, the question has now been raised whether beer—a malt product—is excluded from the four mile area.

A more pronounced point that may be decisive in all such problems concerns the intent of congress to declare 3.2 beer to be nonintoxicating and not in conflict with the 18th amendment. Some lawyers declare that if 3.2 beer does not traverse the 18th amendment it will not be in conflict with old time prohibitions.

Old Military Bans.

Much the same problem concerns the old prohibition of liquor selling within a mile and an eighth of military and naval encampments. The village of Highwood and a portion of Highland Park may be affected by the mile and an eighth rule regarding Fort Sheridan. Part of the city of North Chicago is within the Great Lakes Naval station radius. Winnetka had been dry through provisions of a charter granted in 1860, which its officials hold is still in force.

Ald. Bert A. Cronson [4th] yesterday asked the corporation counsel's office for an opinion on whether Hyde Park is still dry territory under the terms of its annexation to Chicago, which guaranteed it would be kept dry territory. Assistant Corporation Counsel Joseph Grossman said the guarantee is still binding as to "liquor," but he would not say whether 3.2 beer would be banned. Residents of Englewood and Edgewater have also raised the same question.

Meanwhile city and village officials were awaiting the enactment of a state law covering the subject of sale and consumption of "three point two" beer. It was the consensus that if adequate provisions come from the state legislature the city and village enforcement officials can regard 3.2 beer as something not covered by any existing statutes, charters, ordinances, or annexation agreements.

FRANCE, BRITAIN MAY ACT JOINTLY ON U. S. WAR DEBT

PARIS, March 22.—(AP)—Joint action by France and Great Britain regarding their war debts to the United States is being discussed in chamber of deputies lobbies, Le Matin tonight quoted Finance Minister Georges Bonnet as saying.

The newspaper added that the matter might be considered in the chamber, which is considering a resolution to pay the defaulted $19,261,432 war debt installment defaulted last December.

Earlier in the day Bonnet, who recently discussed plans for the projected world economic conference with statesmen in London, was said to have reported that Great Britain will not demand payment of the war debt installment due from France in June.

The chamber will hear Premier Daladier and Foreign Minister Paul-Boncour before deciding on the resolution for payment.

AIRMEN ARRIVE; AWAIT TAKEOFF ON WORLD FLIGHT

James Mattern and Bennett Griffin, trans-Atlantic speed record holders, arrived at the Chicago airport yesterday in their special plane, the Century of Progress, in which they expect to fly around the world this summer.

The noted flyers made a nonstop flight from Oklahoma City. They flew over the loop and then above the World's Fair grounds, where they dipped their ship in salute to Rufus Dawes, head of the exposition. A few minutes later they landed at the port.

Griffin and Mattern attempted a world flight last year in an effort to beat the record of Post and Gatty. They crashed in a Russian peat bog. Their plane in that flight was also the Century of Progress, and the new ship in which they arrived yesterday was rebuilt from the original. The flyers expect to remain in Chicago until June, when they plan to start their world flight.

Two Air Lines Seek Rights to Launch Ocean Service

[Chicago Tribune Press Service.]

ST. JOHN'S, N. F., March 22.—Rights to establish a trans-Atlantic air transport service and to operate air lines between the United States, Canada, and Newfoundland were asked of the Newfoundland legislature today by Pan-American Airways, Inc., of New York, and Imperial Airways, Ltd., London. The lines would carry passengers, mail, and freight.

Youth Gets 6 Months Jail for Stealing Eight Cents

Morris, Ill., March 22.—[Special.]—John Zick, 17, was sent to jail here today for six months, after pleading guilty to stealing 8 cents from the public library.

BEER DRINKERS TO PAW IN VAIN FOR BRASS RAIL

New 'Bars' Are 'Fixtures' and Very Refined.

BY VIRGINIA GARDNER.

Drinkers of the pre-speakeasy era are due for at least one disappointment. There are no brass rails for the new-fashioned bars over which the 3.2 beer will be served. This was learned yesterday at the display rooms of the Brunswick-Balke-Collender company, 623 South Wabash avenue.

In fact, there are to be no bars, in the old time sense, nor saloons, either. The word "bar," connoting that refuge of masculinity, the old saloon, where a man might grow sentimental over a foaming stein, is not considered refined by those preparing for the new beer.

Ye Bar Is Very Refined.

"Note the complete absence of any touches reminiscent of the old saloon," said a brisk salesman in the Brunswick display rooms, where are shown the first finished products the company is rushing to turn out. "Our bars—pardon, I mean our service fixtures—could not offend anyone."

The salesman waved his hand toward a dainty bar which, he said, would look well in a chain of combination candy stores and tearoom restaurants.

Every feature of the counter, the back counter and the top frame expressed refinement. The "service fixture" measured 12 feet long instead of the customary 24 to 60 feet length of the old fashioned bars. Instead of the usual expanse of mirror, only a small paneled mirror in the center was seen, with adjacent panels of birds-eye maple in walnut finish. Indirect lighting illuminated the mirror.

This number was named the "Empire," and sold for $325, without the new scientific counter washboard and cooler unit. It was difficult to imagine the "Empire" in an old-fashioned saloon whose dark walls were decorated with hunting scenes and pictures of scantily clad maidens seated beside a lake.

And So Very "Moderne."

The art of the "service fixtures" is fittingly modern, even moderne. Over the mirror of one, for instance, was a medallion matching the green gold ornamentation enveloping the miror. It showed a figure and a sunset. A salesman was asked what it represented.

"I think it's a Garden of Eden theme," he said, "but you can see how restrained the tone is. I'm not just sure whether the figure is meant to be Adam, or whether it's meant to be Eve. But it's by a celebrated artist-interior decorator, who had much to do with designing the interior of the Civic Opera building."

Most of the new fixtures have an ebony finish. The "Omar" model, however, has a counter of Honduras mahogany, just as old bars had. No suggestion of a mirror, but a subdued background of Butt walnut with delicate cornices, formed the top frame of the "Omar."

More than 1,500 workmen, the majority skilled craftsmen, have been called to the Muskegon, Mich., plant of the Brunswick-Balke-Collender company for the manufacture and assembly of the new "fixtures."

Farmer Brings 40 Year Old Hoard of $1,300 to Bank

Coldwater, Mich., March 22.—[Special.]—A Branch county farmer approached the cashier's wicket of a local bank today and expressed his desire to deposit a few dollars he laid away "a few years ago." The roll contained $1,300 in currency dating back to the early eighties and nineties.

NOTICE: Not more than one policy will be issued to any one person. Issued Only to Applicants Over 10 and Under 70 Years of Age.

SAYS ILLINOIS MUST FINISH SANITARY WORK

Report to Supreme Court on Canal Job.

[Chicago Tribune Press Service.]

Washington, D. C., March 22.—[Special.]—A Supreme court order directing the state of Illinois to appropriate 140 million dollars over the next four years to complete the Chicago sewage treatment program envisaged by the court in its 1930 decree was recommended today by Special Master Edward F. McClennen of Boston.

The recommendation was one of the highlights of a 50,000 word report on the latest phases of the Chicago water diversion litigation filed with the court today by Master McClennen. The report was ordered by the court for its use in reaching a decision on the application of Wisconsin, Minnesota, Ohio, and Michigan for summary Supreme court action compelling the sanitary district of Chicago to complete the sewage program by Dec. 31, 1938, the date when the court decreed the water diversion should be reduced to 1,500 cubic second feet plus domestic pumpage.

Holds Court Action Vital.

In his conclusions reached after hearings in Chicago, the special master held with the lake states that some sort of court action was necessary if the 140 million dollar remainder of the sewage program was to be completed in time to reduce the diversion in accordance with the court decree. The master disagreed, however, with the contentions of the complainant states that the remedy lay in having the Supreme court set up a dictator or a receiver who, as agent of the court, would levy taxes, collect funds, and prosecute the treatment program.

Opportunity for Hearing.

Before the Supreme court acts on the master's recommendations that Illinois put up the money and supervise the completion of the treatment program both Illinois and the lake states will have further opportunity to be heard. Senator James Hamilton Lewis of Chicago said tonight it was highly possible that Illinois would be able to raise the funds, in event of an adverse decision, by depositing its bonds with the federal government. Legislation will be passed shortly, he said, providing for direct grants or loans to states. By taking advantage of such a law, the senator said, Illinois could borrow the money on its bonds and then repay the government over a long period of years.

35 Millions Annually.

The remedy recommended by the master was for the court to issue an order directing the state of Illinois to appropriate $35,000,000 before July 1, 1933, and a similar amount annually thereafter until the whole treatment program was completed. He held that Illinois was responsible for seeing that the district carried out to the letter the terms of the 1930 decree.

The upshot of his findings was that inasmuch as the sanitary district did not have the necessary funds to finance the treatment program and the construction of controlling works at the mouth of the Chicago river, then that task has to be performed by the state. The court order, he said, would enpower the state to sell bonds without compliance with its constitution.

Bad Faith Charged.

In its original application and before the court the Wisconsin group of lake states charged repeatedly that Illinois, the sanitary district, and Chicago had been guilty of bad faith in their dealings with the Supreme court. They charged, in substance, that the failures on the part of the defendants to carry out portions of the treatment program "were due to an unfaithful effort to delay, avoid, and circumvent the performance of the decree of the court."

The special master in his findings stated flatly that the charges of bad faith were unjustified and untrue. He did, however, denounce the sanitary district for its delay in the construction of the southwest side treatment works and for failure to push the construction of controlling works at the mouth of the Chicago river. He termed the site delay "an inexcusable and planned postponement of the beginning of construction."

The cause of the delay in constructing the controlling works to prevent reversing of the flow in storm periods, he said, was the "total and inexcusable failure of the defendants to make an application to the secretary of war for such approval."

Summarized, the court's conclusions were:

1. That the delay in beginning construction of controlling works at the mouth of the Chicago river was unjustified and that the state of Illinois should be ordered to put up the money and submit control works plans to the war department at once. The order would require completion of the works in two years.

2. That the court direct the state of Illinois to determine upon and secure the site for the southwest side treatment works, if the site is not owned by the sanitary district, and see that the works are completed prior to Dec. 31, 1938.

3. That the state of Illinois be ordered to put up $35,000,000 annually and see it is expended upon the prosecution of the various units of the treatment program. The state would be authorized to sell bonds to finance the program. The effect of this conclusion would be to make the state completely responsible for the completion of the program.

4. That the state could retire the bonds by levying taxes upon taxable property in the sanitary district.

5. That the 1,500 cubic second feet diversion allowed by the court was ample for navigation on the Illinois waterway. That there was no reason why the court should anticipate that congress ever would increase the diversion for navigation purposes. That the secretary of war had no authority under the act of 1930 authorizing the Illinois waterway to increase the diversion.

6. That "in the conditions which now exist, there is no reasonable financial measure which the sanitary district can take which it is failing to take."

The special master was emphatic in asserting Illinois should be held financially responsible for completion of the treatment program. He rode rough shod over the argument that Illinois could not raise the money without a change in its constitution raising its borrowing power, a move which would have to be passed on by state referendum. His position was that the order of the court transcended the state constitution.

Contends Bonds Salable.

Special Master McClennan scouted the contention of Gov. Horner that the state could not raise the funds. His position was that the state's bonds, backed by a court order, would be readily marketable. He said bonds of very few states rated higher than those of Illinois. He asserted the state's financial condition was sound. The master said also that if necessary state expenditures could be cut to raise the funds.

The special master dealt ruthlessly with the complainant's request for a special commissioner.

"The steps so urged," he said, "are so inexpedient if not futile that they should not be taken even if this court has the power. There is no reason to think that a commissioner would be any more effective than an order of this court. The commissioner would be received in Illinois as a carpetbagger. He would need an army of subordinates."

DRIVES HIS AUTO AGAINST TRAIN; DIES OF INJURIES

Edward Schuma, 5754 Bishop street, was fatally injured this morning when, police said, he drove his automobile against the side of a north bound freight train on the Grand Trunk tracks at 55th street and Central avenue. He died at the German Deaconess hospital. Wilfred Chevalier, 3803 West 55th street, the flagman, said he tried to signal Schuma to stop but his signals were unheeded.

Three other deaths raised the Cook county motor toll since Jan. 1 to 180. The victims:

John Golotzske, 56 years old, of 1210 South Morgan street. Died in the county hospital early today of injuries received last night when he walked into the side of a moving automobile at Washington boulevard and Curtis street. The driver was Otto Horjes, 2111 South 56th court, Cicero.

Otto Paul, 40 years old, 138th street and Parnell avenue, Riverdale. Fatally injured last night when he was struck by an automobile driven by Melvin Brochman, 13847 Dearborn street, Riverdale, at 136th and Halsted streets, Riverdale.

Charles Sampson, colored, 43 years old, 6163 South Michigan avenue. Died in the Bridewell hospital of injuries received Saturday when he drove his auto into a parked car in front of 5171 South Michigan avenue.

DAY IN WASHINGTON

[BY THE ASSOCIATED PRESS.]

President Roosevelt signed bill legalizing 3.2 per cent beer and wines.

House passed administration farm relief bill.

Senate confirmed appointment of Robert W. Bingham, Louisville, Ky., as ambassador to Great Britain.

Consideration of President Roosevelt's proposed reforestation unemployment relief legislation was delayed by labor committee's decision to hold hearings, and he called congressional leaders into conference.

STATE TO FIGHT U. S. FINDING IN SANITARY SUIT

Objects to Helping Build Sewage Works.

Officials both of the sanitary district and of the state of Illinois protested yesterday against the recommendation of Special Master in Chancery McClennen in his report made to the United States Supreme court that the state government confribute 35 million dollars a year toward construction of Chicago sewage disposal works.

President Thomas J. Bowler of the sanitary board declared that the assumption of the work by the state was unnecessary. He said the sanitary district could finance the 130 million dollar construction program imposed on it by the Supreme court mandate in the lake diversion case out of its own resources as soon as tax collections in Cook county returned to normal.

Attorney General Otto Kerner said the McClennen findings would compel the state to violate its own constitution and that they would be resisted to the utmost.

Horner Voices Officials' Stand.

The attitude of the state officials, some of them said, was set forth by Gov. Horner in the testimony he gave before Master McClennen when the latter first indicated his intention of requiring the state to assume the burden which the sanitary district is at present unable to carry.

Gov. Horner in his testimony touched first upon the effect which the depression already had had upon tax collections, voicing his belief that it will be impossible to collect any large amount of delinquent taxes or to get normal collection on the 1931 and 1932 levies. While the principal tax delinquencies to date have been in Cook county, he feared that other counties in the state would experience similar difficulties this year, due simply to the inability of taxpayers to meet their bills.

Gov. Horner also touched upon the difficulties of the state in obtaining funds for relief purposes, and stated his conviction that "one of the most important problems we confront was the essential reduction of governmental expense, with an ultimate reduction in taxation."

Unwilling to Assume Burden.

"I feel quite sure," he said, "that the rest of the state will not be willing to assume any of the local burdens of the Cook county or sanitary district government. I have no hesitancy in saying that, unless conditions rapidly and marvelously change for the better, the capacity of our state to find a market during each of the next four years for thirty-five millions of bonds, if such an unusual thing were required by the court, is an impossibility. This would be so even without the other present and future financial necessities of the state.

"May I interpolate here a suggestion that must never be lost sight of in the relation of the federal government and its courts to a sovereign state? At the cost of blood and war, our nation has definitely and forever determined that one state may not destroy the union. It is equally important to the perpetuity of our constitutional form of government that the United States cannot destroy a state. Any action by the court in this case, to destroy Illinois financially, will have that effect. . .We do not consider the obligation of the sanitary district the obligation of the state of Illinois.

Questions Power of Court.

"Frankly, I question the power of the Supreme court to set aside the constitution of the state; or to control the legislative discretion of its general assembly. With this belief, which is shared by our attorney general and our counsel in this case, I would view with grave apprehension any attempt on the part of the court to exercise such a power.

"The state is financially unable to assume this burden of the sanitary district, and, even if it were, it ought not, in justice, to be asked to do it. Those are the facts. Whatever theoretical arguments may be possible to support the theory of the petitioners, so far as the state of Illinois is concerned, practical considerations themselves deny the possibility of such a theory."

Attorney General's View.

"Special Master McClennen now recommends," asserted Attorney General Kerner last night, "that the Supreme court, through the exercise of a power never heretofore asserted by that court, should seek to control the legislative discretion of the Illinois legislature and compel it to authorize an issuance of bonds in very large amounts, and in a way forbidden by the constitution of the state.

"Notwithstanding the difficulties of carrying out any such program, if the state could raise money in this way through a disregard of its own constitution, its moral obligation would be to utilize the money for humanitarian purposes rather than to speed up the sole relief to which our neighboring states are entitled—raising the levels of the great lakes 5 inches by 1943.

"It would almost seem that the mere contrast between the almost inappreciable result so sought to be realized and the very drastic and, as we view it, inhuman character of the measures recommended to accomplish this result would alone demonstrate the error in these recommendations."

Explains Plant's Delay.

In his statement President Bowler explained that delay in acquiring a site for the southwest side treatment plant, which delay is criticized in the report, was caused by protests from the board of education and property owners against use of the proposed site at Lavergne avenue and 51st street. Since then, he said, the sludge burning process developed by the district has made it possible to erect the plant on a much smaller site, and the district already owns a site available for such purposes.

"The district has endeavored at all times to comply with the decree," he said. "It is true that construction work has been stopped temporarily. The sole reason is the lack of funds, due to causes conceded to be beyond the control of the district. I believe that with the resumption of tax payments the district can carry through to completion the sewage treatment construction program without the financial assistance from the state of Illinois recommended by the master."

ONE DEAD, 3 HURT IN BLAZE AND BLAST AT INDIANAPOLIS GARAGE

Indianapolis, Ind., March 22.—[Special.]—Two heavy explosions followed by a two-alarm fire killed at least one man and burned three other persons seriously this afternoon at the Plaza garage in the downtown district. Walls of brick crumpled under the force of the blast, and glass hurled in all directions.

Robert Kennedy, captain of bellboys at the Indianapolis Athletic club, across the street, was burned to death, having arrived at the garage to obtain his car a few moments before the explosion.

Harry Ale, manager of the garage, was rescued from the basement along with two other employes. Three firemen were overcome.

DOWNERS GROVE JUDGE ROBBED ON ROOSEVELT ROAD

Justice of the Peace A. H. Kroencke of Downers Grove township was robbed of $300 yesterday by two men and a woman on Roosevelt road, just west of Wheaton.

The justice had left his home in Hinsdale with the money to deposit in a Geneva bank, and was driving along the highway when a large sedan crept up behind. Justice Kroencke was forced to the shoulder of the 40 foot road. The robbers jumped out of the sedan, leveled guns at him, and took his money.

Sheriff John F. Hesterman of Du Page county was notified.

Cotton Men Ask Congress to Beat Farm Measure

Houston, Tex., March 22.—(AP)—Anderson, Clayton & Co., called the largest firm of cotton factors in the world, has dispatched a lengthy letter to all members of congress attacking the Roosevelt administration's farm relief bill as "a tax on city dwellers" and "tainted with logrolling, a hodgepodge of the various nostrums advocated by professional farm lobbyists."

MISSING PAPERS HALT APPEAL OF T. J. CROWE CASE

Sanitary District Trio Still Out on Bail.

Another delay in sending the appeal of three convicted former officials of the sanitary district to the higher courts was ordered yesterday because the state's bill of exceptions lacked the original copies of two important documents. The former officials—Timothy J. Crowe, who was president; Frank J. Link, a trustee, and John T. Miller, former superintendents of plants and buildings during the "whoopee" era of the canal board, were convicted and sentenced more than a year ago. All are free on bail, and throughout the intervening months the filing of the appeal has been delayed.

Assistant State's Attorney Henry Seyfarth revealed that the two documents were missing from the state's records in the case when he appeared before Judge Harry Fisher, the trial judge, and asked permission to substitute photostatic copies. The request was refused when Attorney John McInerny, representing Crowe, Link and Miller, objected.

Continuance Is Ordered.

Seyfarth then went before Chief Justice Prystalski of the Criminal court, who also refused to allow the substitution, but continued until April 7, the date for filing the bill.

The missing documents are the papers in a $250,000 contract between the sanitary board and the Tully-Costello Contracting company. In the trial the papers were used with other bills as exhibits to show that in addition to paying for the work done by the Tully-Costello company, the canal board had paid for the same work several times over through duplicate bills. The contracting firm, however, was in no way involved in the fraud.

Loan Papers to Contractor.

Prosecutor Seyfarth explained that the original papers had been loaned to John Tully of the contracting firm for use in a civil suit. Mr. Tully is in Florida and is not expected to return to the city before Saturday.

Crowe and the two other officials were prosecuted under a Republican administration in the state's attorney's office. A strenuous effort was made by the outgoing state's attorney, John A. Swanson, to have the case disposed of in the higher courts before the new Democratic administration took office. Crowe and Link were sentenced to from 1 to 5 years in prison and Miller received a six months' jail sentence.

Crystal Lake Legion Commander Ends Life

Lee H. Works, 46 years old, shot and killed himself yesterday at his home in Crystal Lake. He was a commander of the Crystal Lake post of the American Legion and had been employed by a Chicago typewriter concern. A coroner's jury returned a verdict stating that Works committed suicide while despondent. A note read at the inquest stated that he was in financial difficulties.

3 Chosen Tentatively for Jury in Bank Trial

Three jurors were tentatively selected yesterday in the trial of five former officials of the closed City State bank on charges of receiving deposits while the bank was insolvent. The case is being heard in Judge Francis B. Allegretti's court after fifty-three postponements in two years. Selection of the jury will be resumed today. Among those on trial is Seymour Stedman, former Socialist candidate for mayor.

TEACHERS STORM SCHOOL BOARD AND CITY HALL

Invade Council Chambers —Hoot Trustees.

Two hundred teachers carrying banners and loudly voicing their demands for back pay interrupted meetings of the board of education and the city council yesterday afternoon. Attempts of the school trustees and aldermen to explain the situation and outline efforts being made to finance a pay day were met with boos and hisses.

After the school board had adjourned the delegation marched to the city hall and into the council chambers. Miss Marion Hunter, a teacher at the Sheridan Elementary school, leaped over the railing that separates the galleries from the council floor, waving a banner upon which were the words: "Irritable Teachers Are Not Fair to Children!"

William Harrah, sergeant at arms, took Miss Hunter by the arm and led her away while her companions jeered him.

They Shout and Chant.

"We want our pay," a quartet of teachers started shouting and the rest of the group took up the chant. For several minutes Acting Mayor Corr pounded his gavel in vain for silence.

The aldermen then decided to let three of the teachers speak. Miss Hunter and John M. Fawkes and Frederick R. Walters, both teachers at Tilden High school, were selected. They demanded cash from the city's aggregate of funds even though the transaction might prove illegal.

On the motion of Ald. Oscar Nelson [44], Acting Mayor Corr appointed a committee to see Charles S. Dewey, head of the citizens' committee attempting to sell tax anticipation warrants to finance pay days for city and school employés. Mr. Dewey is to be requested to cash in on subscriptions already taken for the warrants.

Two hours earlier when the delegation first descended on the meeting of the board of education in the Builders' building at La Salle street and Wacker drive the room already was packed with 300 teachers and others interested in school board matters.

Board Discusses "Strike Bill."

The trustees at the time were discussing the so-called "teachers' strike bill," or house bill 302, which is pending before the legislature at Springfield. The bill provides that teachers may quit their jobs without endangering pension and tenure rights when salaries are six months in arrears.

"I'm absolutely opposed," asserted Trustee Joseph P. Savage. "It would close the schools, and we have to consider the interest of the public."

An outburst of boos and cat calls interrupted Mr. Savage.

"It will work to the detriment of you teachers, too," shouted Mr. Savage above the hubbub, "if the schools are closed you'll find a lot of people who think they should be opened up again only through the first eight grades. There'll be a hue and cry to close all the senior and junior high schools and the Crane and Normal colleges."

Hemingway Assails Teachers.

Vice President James A. Hemingway, who was presiding in the absence of President Orville J. Taylor, upbraided the teachers for their conduct during the speeches of the trustees.

"If you have no more control over your pupils," said Mr. Hemingway, "than you have over yourselves as exhibited this afternoon I question whether you are worthy of your calling."

During the discussion Trustee Robert Carr revealed that the Dewey committee had a new plan, which involved the presentation of school tax warrants to the banks. Then, under the new banking bill, new government money would be issued against the warrants, considered as good assets. If it proves successful, Mr. Carr said, the committee may abandon its application for a loan of $22,500,000 from the Reconstruction Finance corporation.

BOOKS CLOSED WITH 21,000 CLAIMS AGAINST TWO INSULL TRUSTS

The dead line for filing claims against the bankrupt Insull investment trusts, the Corporation Securities company and the Insull Utility Investments, Inc., was reached at 5 p. m. yesterday.

With 21,000 individual claims filed from all parts of the country, Referee Garfield Charles closed the vault filled with a ton of engraved paper, representing "gold debentures" of the two trusts for which investors paid approximately $88,000,000 at par. Today there is only $460,000 cash behind the paper, of which $450,000 is held by Trustee Harry Bigelow for Insull Utility Investments, and $10,000 by Trustee Sam Howard for the Corporation Securities company.

The trustees, Referee Charles indicated, will use the cash to file suits against the banks for recovery of millions of dollars in collateral of the two trusts which are alleged to have been pledged illegally to the banks for loans to the former Insull management. Aside from the cash, the bank suits are the only assets the two trusts now possess.

Allman Asks Commission for 110 More Policemen

Commissioner of Police Allman yesterday requested the civil service commission to certify to his department 110 more police candidates whose names are on the eligible list that was posted recently. Among those whom he expects to be certified, the commissioner said, is Fred Janks, 4304 West 21st street, who was responsible for giving the police information that led to the capture of a gang that had been preying on doctors. With the certification of the new policemen the department will be up to its strength of 5,300 patrolmen, as provided for in the 1932 budget.

Druggist Charges Fraud by Fake Federal Agents

William Cody, owner of a drug store at 1620 East 53d street, yesterday told the Hyde Park police that he had been defrauded out of $700 by two men who posed as federal secret service agents. Cody was asked to change seven $100 bills for a man he knew as Charles Brown. When he entered Brown's apartment two men, who claimed to be federal agents, arrested Brown as a counterfeiter and Cody as an accomplice. The fake agents took Cody's $700 as bail, he said, after they had taken him to a room in the city hall.

ORDER TAX CUT OF 15% ON HOMES AND SMALL FLATS

Jacobs Shouts Defiance of Board's Edict.

[Continued from first page.]

play on your part," opened Assessor Jacobs.

Mr. Nixon addressed the taxpayers gathered for the hearings, saying: "You'll have to pardon us. The assessor insists on talking to us about the conduct of these hearings."

"Tell 'em what he wants to talk about," broke in Mr. Brummel at his elbow. "Tell 'em what he wants to talk about."

"He wants to protest against the 15 per cent cut which we have just ordered for you," obliged Mr. Nixon. His statement was greeted with cheers and cries of "Take him out."

Explains Basis of Assessments.

Assessor Jacobs then explained that in making the 1931 assessments he first called in some 35 engineers, architects, and real estate men, who with members of his staff worked out a table of unit values for lands and buildings which he termed "a sound piece of work."

"If you are going to make any changes," he went on, "I am going to see that they apply uniformly to all lands and buildings, and not to some, as is contemplated in your present order, which Attorney Bell tells me is illegal. If you desire to break down the assessment all you have to do is to continue what you have been doing during the last few months.

"Your present order was made without consideration of me, or without the decency to notify me that it was contemplated. I call it inconsiderate, asinine, and illegal. The county attorney holds that you can only act upon proper complaints and not give general cuts on the application of one individual."

Points to Changed Conditions.

"Do we understand you to say," asked Mr. Nixon, "that you are opposed to the cut to which these homes are entitled?"

"I'm for every reasonable reduction for taxpayers," replied the assessor, "but you can't apply the conditions of 1932 and 1933 to 1931 assessments. If your board had used ordinary sense in procedure you would have been aware that the assessor took all the facts into consideration in making the original assessments."

Mr. Nixon rose and waved his arms.

"Stop there," he shouted. "You go mind your own business. What's your object here, declaring that we haven't used sense?"

His outburst was answered by a new hullabaloo from the crowd, members of which had pushed forward in a ring around the hearing table. They yelled, "down with Jacobs" and "throw him out."

"You can't make a grandstand play of this," snapped Assessor Jacobs.

"You go mind your own business and we'll mind ours," replied Mr. Nixon.

"You can't talk to me that way," shouted the assessor.

"I'm talking to you that way," retorted Mr. Nixon.

"I'm telling you what I believe——" started Assessor Jacobs.

Denies Jacobs' Authority.

"And I'm telling you," broke in Mr. Nixon. "That's our judgment and you're not in a position to question it. You run along and do what you're told."

"We're interested in presenting our facts," replied the assessor. "Our work was based on careful studies. We'd like to know the petition on which you acted, the commissioners or the committee which advised you, and all the facts which moved you to your decision."

"Our judgment is final," snapped Mr. Nixon. "It's up to you to carry it out."

"Your order has no effect upon the county assessor," replied Mr. Jacobs. "Attorney Bell holds that you can act only on those properties on which individuals have filed complaints."

Gives Notice of Defiance.

"Are you refusing to obey the board of appeals?" demanded Mr. Nixon.

"On advice of the county attorney, we will take no notice of your order," replied Assessor Jacobs.

"That's enough from you," shouted Mr. Nixon. "Let's go on. Let's hear cases."

The two members of the appeals board resumed their hearings as Assessor Jacobs and his assistants left the room.

COUNCIL O. K.'S BAN ON MILK OF DISTANT FARMS

Holds Far Off Inspection Too Expensive.

BY PAUL POTTER.

The city council of Chicago yesterday revised the city's milk ordinance sufficiently to put teeth into the orders issued by the board of health restricting the inspection areas for farms to zones which are close enough to the city to supply milk economically.

At the same time the council exacted a promise from Dr. Herman N. Bundesen, president of the board of health, that dairy farmers within a reasonable distance in Illinois will be given inspections without discrimination.

Council Approval Unanimous.

The health board's added powers are contained in an ordinance introduced by Ald. Terence F. Moran [16th], chairman of the council health committee. After a heated discussion it was passed unanimously. Acting Mayor Corr indicated it would be signed at once.

The necessity for such immediate action was due to the questioning of the legality of the board of health's recent action in zoning the Chicago milk and cream area by which northern Wisconsin farmers were shut off. This order was to have been effective March 20, but the time limit was extended by the board upon request of Federal Judge James H. Wilkerson, in whose court the Wisconsin farmers have brought action. The case will be heard next Monday.

Arvey Insists on Pledge.

Ald. Jacob M. Arvey [24th] insisted that Dr. Bundesen assure the council that inspections of farms would be made in the areas designated by the board upon an equitable basis. Ald. James B. Bowler, John Toman, Henry Sonnenschein, and John S. Clark spoke in turn for the ordinance, declaring that economies in city expense necessitated the action, and that nearby Illinois farmers should be given first opportunities to sell their milk and cream in Chicago.

Dr. Bundesen announced last night that new inspections would be made soon, but warned farmers not to hire lawyers or "pay any one a cent for the filing applications." They can be made directly with the board of health, he stated.

BATTLE POLICE AFTER EVICTIONS; 23 ARE ARRESTED

New York, March 22.—[Special.]—The eviction of the tenants from an apartment house in the Brownsville district of Brooklyn today, caused a clash between sympathizers and police, resulting in the arrest of 23 persons. Police were stationed on the roofs of nearby houses to prevent a recurrence of assaults from the air, a practice peculiar to that neighborhood during former disturbances, when bottles and other missles were hurled at the arresting officers. Among those arrested were four women.

Two Policemen Ordered Dismissed from Force

Two policemen were ordered dismissed from the force yesterday after hearings before the civil service commission. The policemen were Elvis R. Rudd of the Cragin station, who was charged with intoxication, and Herbert H. Barrick of the Gresham station, who was charged with conduct unbecoming a policeman for operating a taxi dance hall in Argo.

RESOLUTIONS FLOOD CITY COUNCIL WITH ALL KINDS OF IDEAS

The session of the city council yesterday was flooded with resolutions dealing with various subjects, many of which were referred to committees for discussion. Among those submitted were:

A proposal by Ald. David L. Sutton [8th] that the aldermen memorialize President Roosevelt and congress to declare a moratorium on the issuance of patents for labor saving devices for the purpose of holding down the numbers of the idle. It was referred to the judiciary committee.

Two resolutions submitted by Ald. John Toman [23d] requested the drafting of bills to give the city authority to establish a municipal savings bank in connection with the office of city treasurer and to provide that all private incomes in excess of $50,000 a year be paid into the federal treasury. Both were referred to the judiciary committee.

A resolution by Ald. John Coughlin [12th] for a prohibition in the building code against the erection of portable steel buildings was sent to the building committee. A resolution by Ald. Sutton seeking the formation of a council license committee was sent to the committee on rules.

Young Slayer Prefers Hanging to Life in Cell

Colfax, Wash., March 22.—(AP)—Renold Brown, 17, of Towner, N. D., pleaded guilty today to a charge of murder for the killing of David Barnum, 70, in a 14 cent holdup and asked that he be hanged instead of sentenced to life imprisonment.

HOSPITALS TOO NUMEROUS, SAYS MEDICAL PAPER

The United States is "vastly overhospitalized," according to the Journal of the American Medical Association.

"There are in the country 6,562 hospitals, with more than a million beds," the Journal says. "More than 200,000 of these beds are unoccupied."

In an editorial in the annual hospital number, just released, the publication relates that many business men have attempted to recoup their fortunes by organizing hospitals and insurance systems of hospitalization, and adds:

"The medical profession hesitates to approve any such plans [of insurance] because these plans fail to provide for complete participation of most of the recognized hospitals in the community. Neither do most of them provide for complete participation of the reputable physicians of the community and, associated with this, free choice of the physician by the patient and free choice of the hospital."

WEDS MAN WHO TOOK HER $10,000; COURT FREES HIM

New York, March 22.—(AP)—Harry Shapiro was alleged to have induced Mrs. Rose Warsaw, a widow, to buy from two friends of his a machine they claimed would turn out money. Mrs. Warsaw bought it for $10,000, she claimed, but it didn't work.

Brought to court today, Shapiro was allowed to plead guilty to petty larceny instead of grand larceny, the original charge, and then Judge Alonzo G. McLaughlin suspended sentence "as a wedding present."

Shapiro and Mrs. Warsaw had been married.

ASSEMBLY HITS DEADLOCK OVER CHICAGO MAYOR

Neither Side Willing to Compromise.

BY PARKE BROWN.

Springfield, Ill., March 22.—[Special.]—Party divisions in both houses today threw the Illinois general assembly into a tight deadlock over the problem of the Chicago mayoralty created by the death of A. J. Cermak.

The situations as they developed in the two chambers were almost identical. In each instance the Democratic majority backed a bill to authorize the Chicago city council to elect a mayor from within or without its own membership with full mayoralty powers. In each chamber the Republican minority proposed amendments to require a popular election and went down to defeat under the strength of the majority.

The Democrats insisted that they were not opposed to the demands for a popular election but that the immediate emergency was the necessity for strengthening the hand of Frank J. Corr, acting mayor by right of his selection by the city council.

Advanced to Final Reading.

After somewhat warm encounters in each chamber, the Democratic bill was advanced to third or final reading on each calendar. As matters stand tonight, leaders say, there is no possibility of either house passing it this week with the two-thirds vote required for immediate effectiveness and the dual battles will be renewed next week.

On today's showing the Democrats are much nearer success in the senate than in the house. In the upper chamber the Republican organization amendment, offered there by Senator Arthur A. Huebsch of Brookfield, Cook county, was tabled by a vote of 30 to 16. To pass as an emergency measure the bill would require 34 votes.

In the house, the prospect was less heartening to the Democrats. There, following a Republican gesture demanding the clearing of the floor of all outsiders, the first test came on a motion of Benjamin S. Adamowski that the house hear from William H. Sexton, corporation counsel of Chicago, who has been carrying the burden of steering the city through the present troubled waters.

On this motion the Democrats won by 74 to 63, but because of Republican protests made during the debate, Adamowski withdrew his motion and Mr. Sexton was not heard.

Speaking on this subject, Adamowski protested there had been "misstatements" in connection with the Democratic position. He said emphatically that the party organization and its leaders do not oppose the demand for a mayoralty primary and election next year, as proposed by the Republicans, or the suggestion that the mayoralty vacancy be filled at the judicial election next June.

Amendments Voted Down.

In the house the Republican amendment had been offered by the minority leader, Elmer J. Schnackenberg, Chicago. Adamowski moved that it be tabled and the roll call, supplemented by the call of the absentees and by verification, showed the Democrats winners by 79 to 67. The amendment was tabled. Another by Charles J. Jenkins was withdrawn and a third one by Harry W. McCaskrin of Rock Island was tabled by a vote of 73 to 53.

In connection with the last of these, which would limit the city council to electing a mayor from among its own number, Democrats said the Republicans—or at least 52 of them—had made themselves "ridiculous" by demanding that a Democratic council be limited to its own membership in selecting a new mayor.

A. J. Horan and other Chicagoans here said that, in effect, the Republicans were insisting on a Democratic mayor.

N. W. HARRIS SUED FOR $300,000 IN FEDERAL COURT

A suit for $300,000 damages against Norman W. Harris, son of Albert W. Harris, chairman of the board of the Harris Trust and Savings bank, was filed in the United States District court yesterday on behalf of James G. Clark of Westchester county, New York. Clark charges that Harris alienated the affections of his former wife, Dorothy Funk Clark.

A suit based on similar grounds was filed in the Circuit court several months ago, but was dismissed after a partial hearing by Judge John R. Caverly, who held that Clark and his wife "operated a badger game." An appeal has been taken from this decision by Clark.

The latest bill of complaint, filed by Attorney Lloyd Whitman, contains a claim that the diversity of citizenship justifies the invoking of federal jurisdiction.

Gov. Horner Will Speak at Army Day Celebration

Maj. Gen. Frank Parker, commanding the sixth army corps area, comprising Illinois, Michigan, and Wisconsin, has invited the governors of the three states to be guests of honor at the annual Army day celebration on April 6 in the Stevens hotel. Gov. Henry Horner will be the principal speaker. Other speakers will be Edmund K. Hogan, general vice president of the Brotherhood of Railway Carmen of America, and Gen. Parker.

BURNS ECONOMY BILL ADVANCING AT SPRINGFIELD

Opposition in House Seems Weaker.

BY PERCY WOOD.

[Chicago Tribune Press Service.]

Springfield, Ill., March 22.—[Special.]—New optimism was voiced by opponents of the tax eaters today following a change of front in the house toward the Burns economy plan.

Two essential planks of this program were advanced at a late session in a burst of spirit which surprised Representative James T. Burns [Dem., Kankakee]. While he had to fight, the opposition was not as solid as it seemed yesterday.

The bills advanced would reduce the salaries of elected state officers from $10,000 to $7,500; cut the lieutenant governor from $5,000 to $2,500; slice the state's share of the pay of Circuit and Superior court judges from $8,000 to $6,600, and reduce the pay of justices of the Supreme court from $15,000 to $12,000.

Yesterday the house refused to approve its own amendment cutting the Supreme court justices to $10,000. Today, former Judge Burns raised the figure to $12,000—where he had originally placed it—and the opposition was fairly docile.

Called Happy Medium.

The only delay in the advancement to third reading came when Representative Gus J. Johnson [Rep., Paxton] moved to set the state's pay to circuit and superior judges at $7,200. He described that as "a happy medium" between Burns' proposal and the present rate of $8,000. Mr. Burns promptly moved to table the Johnson amendment and upon this, the roll was called.

Roll call provided the opportunity for numerous explanations. Mr. Burns took occasion to remind his colleagues, who protested at the reduction, that they were "making special pleadings on behalf of your friends on the bench."

Wins Against Opposition.

Whatever the effect of this chiding, the vote to table the Johnson amendment was 62 to 43.

Burns then asked approval of the $6,600 amendment and it was adopted by a viva voce vote. Opponents tried to shout down the Burns' supporters, but they were vocally outnumbered and Speaker Roe's gavel cut them short.

The Supreme court bill was called next. Burns asked and was granted leave to recall it to second reading for amendments and jumped the pay from $10,000 to $12,000. A majority of voices supported him in another viva voce vote and the bill went back to third reading.

Both measures may be called for passage tomorrow.

"I have high hopes now," Mr. Burns said, "that I can push through most of my program. The members seem to realize that the only sure way of cutting expenses is to eliminate jobs, commissions, and bureaus, and reduce salaries. President Roosevelt has the gratitude of the entire country for his drastic cuts. What applies to the federal government is equally true of the states. We must cut down."

If enacted, the Burns program will reduce the costs of state government 15 million dollars.

BUY SOMETHING OR DO ANYTHING TO AID BUSINESS, APPEAL

West Orange, N. J., March 22.—(AP)—A large corporation circularized its employes today with an exhortation to do their bit in bringing back normalcy. "President Roosevelt has done his part, now you do something. Buy something, buy anything, anywhere. Paint your kitchen. Send a telegram. Give a party. Get a haircut. See a show. Build a house. Take a trip. Sing a song. Get married. It doesn't matter what you do, only get going and keep going. This old world is starting to move."

Horner to Visit Capital Over the Week-End

Springfield, Ill., March 22.—[Special.]—Gov. Henry Horner told a late afternoon press conference today he would leave the Illinois capital at midnight bound for Washington, where he expects to spend the week-end.

"Just say," he said, "there were some matters of importance to the state which I had expected to take up during my last visit during the conference of governors, and that they were left uncared for by the unexpected interruption due to the tragedy of Mayor Cermak's death."

COURT HOLDS CORR IS LEGALLY ACTING MAYOR

Superior Judge Joseph B. David yesterday issued the first court decision upholding the authority of Acting Mayor Corr. The order was entered in an action to compel city officials to grant a license to the Jeffery Tavern, a café at 8301 South Chicago avenue.

The mandamus petition in behalf of the tavern was opposed by Assistant Corporation Counsel Otto Weiner on the opinion delivered by Corporation Counsel Sexton, which held the city council had no authority to elect an acting mayor. Attorney John Johntry, representing John Moroney, owner of the café, held the city officials had no reason for denying a license.

"Before a mandamus can be issued it must have some one upon which it is effective," the judge said. "Since city government must function and a way has been found to carry on, the court holds Frank J. Corr is legally acting mayor of Chicago. Let the mandamus issue."

GOVERNOR SIGNS SALES TAX BILL; SEE COURT TEST

Merchants Organize to Oppose Law.

[Chicago Tribune Press Service.]

Springfield, Ill., March 22.—[Special.]—Gov. Henry Horner signed the sales tax bill today and on April 1 retailers throughout the state will begin collection of the 2 per cent levy on all sales. Regulations are now being formulated by Director of Finance Rice, which will be announced within a few days.

The ink on the bill had hardly dried before a group of about 150 determined merchants, most of them from towns and cities on the state border, met in a local hotel and decided to fight hard in the courts against collection of the tax.

Plan to Seek Injunction.

They incorporated themselves as the Council of Illinois Merchants, Inc., and elected Irving Winter of Alton temporary president. C. C. Simpson of Danville was made temporary secretary.

The group intends to seek an injunction restraining Rice from collecting the relief impost while they fight the constitutionality of the law in the courts. Many of the members came from East St. Louis, Belleville, Danville, and Alton.

Funds for this struggle will be solicited from the merchants of the state.

Approve Driver's License Bill.

Before it adjourned for the week in order to attend the funeral of its late sergeant at arms, T. E. Scouten, in Chicago tomorrow, the senate approved the driver's license bill introduced by Edward P. O'Grady [Dem., Chicago].

If the measure goes through the house and is signed by Gov. Horner all persons driving automobiles in Illinois would be required to obtain licenses by Sept. 1. Driver's licenses would not be issued to persons younger than 15 years of age and chauffeur's licenses to no one less than 18 years of age.

An operator's license fee, or its renewal, was set at 50 cents, and the license would run for three years.

The joint senate and house committee on congressional reapportionment met this morning, and its downstate majority exhibited tendencies which made Chicagoans believe that Cook county will be denied an increase of four seats in the national house of representatives.

Senator Harold G. Ward [Dem., Chicago] moved that Chicago's ten seats be increased to fourteen and that thirteen seats be given downstate. Senator Richard J. Barr [Rep., Joliet] moved to table this and his motion prevailed.

The talk then turned to a compromise proposition wherein Cook and downstate would each be allotted thirteen districts and the remaining one split so as to include portions of Cook, Du Page, and Will counties. No action had been taken on this suggestion at the time of adjournment.

LABOR LEADER HURT BY BOMB EXPLOSION IN HIS AUTOMOBILE

New York, March 22.—[Special.]—Morris Langer, labor union leader and congressional candidate of the communist party at the last election, was critically injured today when a bomb exploded under the hood of his automobile at Chatham, N. J.

The automobile was in the garage of Langer's home when the explosion took place.

The bomb exploded as he turned on the ignition switch and the blast wrecked the engine of the automobile, tore a hole in the side of the garage, and hurled Langer from the car through the hole.

His wife dragged him from the garage, and Langer was taken to Overlook hospital at Summit. Mrs. Langer said she knew of no reason why an attempt should be made on her husband's life.

RELIEF OFFICIAL TO URGE ANOTHER LOAN FROM R. F. C.

Charles B. Goodspeed, assistant to Edward L. Ryerson Jr., chairman of the Illinois Emergency Relief commission, left for Washington yesterday to urge federal legislation permitting the Reconstruction Finance corporation to extend further loans to Illinois for the relief of the idle next month, or until revenue from the state sales tax is available.

Mr. Goodspeed declared that the commission estimates Cook county would need $5,196,275 next month and that sixty-five downstate counties would need a total of $1,100,000. All sources of revenue now in sight, including a possible loan of $4,743,000 from the R. F. C. on Cook county relief bonds, will amount only to $5,332,379, he said.

WESTERN CHEFS PROPOSE WINE LIST FOR 1933

San Francisco, Cal., March 22.—(AP)—The Chefs de Cuisine club, composed of nearly 100 leading chefs of far western states, has proposed a 1933 wine service made up, they said, of American grown table wines and excluding fortified wines.

Whites wines such as chablis, riesling and sauterne were suggested for the earlier courses, claret for the entree and sparkling burgundy for the roast.

A moderately sweet champagne, or perhaps a haut sauterne, was offered for the pastry and cheese and a sparkling moscato for the fruit. A light wine cocktail was suggested to replace the aperetifs of pre-prohibition days.

SENTENCED 11 MONTHS AGO, BUT STILL AT LARGE

Politician "Somehow" Keeps Out of Bridewell.

Sam Koppel is a Democratic precinct captain on the west side, who according to reports worked diligently at the recent elections, but neither the police, the sheriff, nor the state's attorney's detectives have been able to arrest and jail him on a conspiracy charge on which he was convicted and sentenced on April 14, 1932.

The Chicago Crime commission was apprised yesterday of the apparent inability of the law enforcing officials to carry out the sentence of one year in the Bridewell imposed by Judge George Fred Rush. Henry Barrett Chamberlin, operating director, said the commission would see what it could "do about it." He admitted that recently letters had been received by the commission saying that Koppel was seen frequently on the streets of the west side and had many times passed policemen.

Forfeits $1,500 Bond.

Koppel, in lieu of the sentence, forfeited a $1,500 cash bond, which was put up pending an appeal of his case. This bond was forfeited and the money paid over to the state. The crime commission officials believe that in view of the payment of the bond forfeiture some of the law enforcing officials are willing to call off the sentence.

At the branch of the sheriff's office in the Criminal court it was reported that a deputy made regular trips to two addresses, which had been supplied for Koppel. He was never at home to receive the deputy, the sheriff's assistants reported. Koppel is supposed to live at 1416 South Springfield avenue or 1332 South Harding avenue, the sheriff said.

Koppel was convicted of conspiracy to obstruct justice by trying to frighten or buy off witnesses in a robbery case against Charles Lefkowitz, 22 years old, reported to be a political follower of Koppel. Lefkowitz was caught in the act of attempting the robbery on Dec. 11, 1931, of a store owned by Morris Kaufman, 3112 West Division street. Kaufman failed to appear in court for the Lefkowitz trial, and when he was brought in he told of Koppel's attempts to bribe and frighten him.

Defended by Eller.

Koppel and Lefkowitz were then indicted for conspiracy to obstruct justice. Attorney Emanuel Eller, west side Republican leader and former judge of the Superior court, appeared in Koppel's behalf. The case was continued four times, with the consent of the prosecution.

Finally Koppel and Lefkowitz were convicted in a bench trial by Judge Rush on April 14, 1932. Koppel was granted 30 days to file an appeal. This time was extended twice and finally on Nov. 26, 1932, Chief Justice John Prystalski ordered the bond forfeited when he learned that no efforts had been made to perfect the appeal. Even despite the fact that Koppel was not apprehended, an effort was made to have the bail bond cash returned to the bondsman on Dec. 14, 1932, but the chief justice refused to listen to such a plea.

Lefkowitz is serving his sentence in the Bridewell.

IDLE NAME TEN MEN THEY'D PAY MOST IN WORLD

New York, March 22.—(AP)—What 10 men in the world deserve the highest salaries?

The question was put to 1,171 men who earn nothing—homeless men taken care of by the Salvation Army at Gold Dust lodge.

These 10 got the greatest number of votes:

Any President of the United States, Babe Ruth, Al Smith, Jack Dempsey, Franklin D. Roosevelt, Henry Ford, Charles M. Schwab, Herbert Hoover, Joe E. Brown, movie comedian, and Joseph V. McKee, who was acting mayor of New York City for a few months after James J. Walker resigned.

Although 572 of the men said no one was worth a salary of $80,000 a year, the rest said the men they selected should receive such a stipend.

Some of the "voters" would give that salary to:

"Heads of countries."

"A good President."

"Any person capable of drawing $1,000,000 worth of business a year."

"Any man who can get it."

The average former salary of those voting was $49 a week, while one claimed to have earned $75,000 a year.

700 MINERS END HUNGER STRIKE; PROMISED HELP

WARSAW, March 22.—(AP)—More than 700 miners who have been on hunger strike since Saturday in mine shafts at Klimontow accepted food for the first time tonight when they learned that the government had promised to intervene in their behalf.

They refused to come to the surface, however. They delegated representatives to present their case to officials in Warsaw.

When the hunger strike started at the close of work Saturday the miners said they preferred to die underground than to starve to death slowly because of idleness.

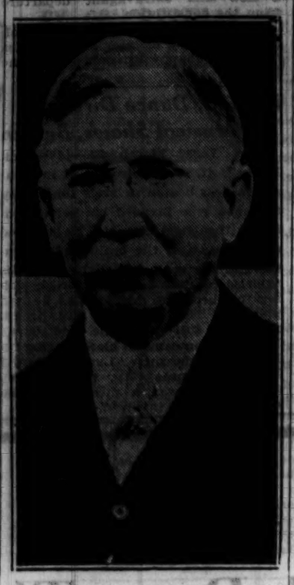
Sued for $12,600,000



E. L. DOHENY.
[Acme Photo.]

Los Angeles, Cal., March 22.—(AP)—A $12,600,000 damage suit filed in the United States District court today echoed the Albert B. Fall bribery case.

The defendant in the suit is E. L. Doheny, multimillionaire California oil man who allegedly offered a $100,000 bribe to Fall, then secretary of the interior, to obtain valuable oil leases in the Elk Hills naval petroleum reserve in Kern county, Cal.

The suit charges that Fall and Doheny "combined, confederated, and conspired to defraud the United States to bring about leases for the private gain of Fall and Doheny."

William C. McDuffie, receiver in equity for the Pan-American Petroleum company, of which Doheny was former head, filed the suit in behalf of stockholders. The Pan-American company recently was ordered to pay the government $9,277,566 as a result of the alleged Doheny-Fall conspiracy.

McDuffie seeks the amount from Doheny, plus the value of the leases themselves and the value of oil and petroleum products taken from them.

Peoria Plans to Cut Pay of City Workers 5 to 25%

Peoria, Ill., March 22.—[Special.]—Salary cuts from 5 to 25 per cent for all city employés were recommended by the city council finance committee in its report on the city budget for 1933. The mayor's salary would be cut from $6,000 to $4,500 and city clerk's from $3,000 to $2,400. All city employés will be affected by the plan.

GRAND JURY GETS MITCHELL TAX EVASION DATA

Friends Defend Ex-Banker; Inquiry Secret.

[Chicago Tribune Press Service.]

New York, March 22.—[Special.]—The case of the United States government against Charles E. Mitchell, former chairman of the National City bank, on the charge of income tax evasion was presented to the federal grand jury today.

United States Attorney George Z. Medalie and two assistants placed the evidence before the grand jury. Three witnesses were examined, and a number of exhibits, including Mr. Mitchell's income tax return for 1929 and his bank records, were placed in evidence.

Keeps Proceedings Secret.

Mr. Medalie refused to identify the witnesses or to comment on the proceedings. His promptness in presenting the evidence was in line with the statement issued in Washington on Monday night to the effect that President Roosevelt knew of and approved the prosecution.

Mrs. Mitchell has been questioned by Chief Assistant United States Attorney Dewey, but she will not appear before the grand jury, as she cannot be compelled to testify against her husband.

Friends Defend Mitchell.

While Mitchell refused to make a statement, friends said only part of the story dealing with his 1929 income tax had become public. When the whole story is known, they added, it will put an entirely different light on the case, and will prove an "amazing" revelation to the public.

It was understood at the United States attorney's offices that any other prosecutions in similar cases as a result of testimony given at the bank hearings in Washington will be decided upon by the authorities there.

Henry Sturgis Morgan, a son of J. P. Morgan and a partner in the banking firm of J. P. Morgan & Co., recorded in the register's office today a $500,000 mortgage given to him by Mr. and Mrs. Mitchell two years ago on their residence at 934 Fifth avenue.

State Sues Berwyn Clerk for $900 in License Fees

An action to recover $900 due the state on fishing and hunting licenses has been filed in the Circuit court by the attorney general against George J. Mlady, city clerk of Berwyn, and the Public Indemnity company, which bonded him, it was revealed yesterday. The action alleges that Mlady withheld the funds and seeks a judgment for the amount due.

Flying Forecast

Special flying route forecasts for the period from 11 p. m. March 22 to noon March 23:

ENDS LIFE WITH GAS IN HOME.

Stephen Kudela, 41 years old, 2311 North Mason avenue, was found dead yesterday in the basement of his home. He had inhaled gas through a rubber hose.

CHILE REQUIRES EMPLOYERS USE 95% HOME LABOR

[Chicago Tribune Press Service.]

SANTIAGO, Chile, March 22.—The government has stiffened its social legislation by ordering that 95 per cent of the employés of any company or business organization must be Chileans. The order was justified on the ground that other countries were pushing their nationalist policy to extremes and that it was unjust that foreigners should hold jobs that could be filled by nationals.

In the future foreign corporations employing more than 5 per cent non-Chileans on their staffs must account for such action to a special labor tribunal, which is empowered to grant exceptions only to the following groups:

1. When a foreigners has lived more than 10 years in the country he will rank as a Chilean.
2. If married to a Chilean woman he will also count as a national.
3. If it is satisfactorily proved that a foreigner is performing work which no Chilean is able to perform.

The government stated that exemptions under the third clause should be few, as it was convinced that Chileans were sufficient skilled in every department of trading and production to be on a par with imported labor.

Kansas Governor to Sign State Income Tax Law

Topeka, Kas., March 22.—(AP)—Gov. Alf. M. Landon's signature was all that was needed today to give Kansas a state income tax law, which provides for a graduated tax on personal incomes and a flat rate of 2 per cent on corporation incomes. The governor has announced he will sign the bill.

BURGLARS ROB CHURCH SAFE.

Burglars early yesterday entered the Kenwood church, 4605 Greenwood avenue, and took $26 from the church safe.

Sacked House Collapses; Police Hunt for Victims

An occupied one story house at 1605 South Canal street, weakened by the removal of lumber from the floors and walls, collapsed last evening. Police squads were sent to the scene. Several youths had been seen in the building shortly before it fell and it was feared some of them might have been buried in the debris. Examination convinced the police, however, that no one had been injured. The building was abandoned about six months ago and residents of the neighborhood, it was said, had been taking firewood from it.

HASSEL'S
SHOES FOR MEN
$3

THE "VARSITY" $3
50 additional styles at $3

Now thousands of thrifty men are coming to Hassel's for these wonderful $3 shoes. We made the greatest effort of our 57 years in the shoe business to produce the best popular priced shoes in the United States and you'll agree that we succeeded when you see the fifty ultra smart $3 styles displayed in our show windows. They're made from finest genuine calfskin leathers with long wearing real oak tanned soles. These $3 shoes really measure up to $5 shoes in every detail. And remember—there is a money back guarantee of satisfaction on every pair of Hassel's Shoes.

Other Quality Shoes *now* $4, $5.85, $6.85

Dearborn & Van Buren—N-W-Car.

There is only one authentic ready-for-service drape suit

The New Spring Deerpaths are Now Ready

Way back in 1931 The Store for Men introduced the ready-for-service drape suit. Practically single-handed it has established a style that is accepted the country over today. And we feel that the Deerpath Drape, because it was the first suit of this character, is still the outstanding drape style today.

Where else, outside of strictly custom-tailored clothing, will you find the softness and suppleness so apparent in the Deerpath? Where else, too, will you find fabrics as fine as the ones we've put into our Deerpaths? Where will you find comparable tailoring—where, in a word, will you find the *style* and *ease* the Deerpath has?

The new 1933 Deerpaths offer a more thorough selection than in any season past. Fully one-half of our stock for young men is made up of Deerpath Drape models. Every shade and all the smart patterns, including authentic Glenurquhart plaids and pencil stripes, are here in abundance. Prices this season are $45 and $55 with an important selection at $35

CARSON PIRIE SCOTT & CO

2 COMMITTEES HEAR PRESIDENT ON RELIEF PLAN

He Explains Provisions to Senate, House Groups.

[Chicago Tribune Press Service.]

Washington, D. C., March 22.—[Special.]—President Roosevelt and four members of his cabinet tonight lectured the puzzled members of the senate and house committees on labor concerning what the administration hopes to accomplish with its idle relief bill.

When the lesson had been given it seemed to have served well, for the congressmen came out of the White House voicing enthusiasm for the bill and predicting its passage by substantial majorities in both houses of congress.

Most of the congressmen had been unable to understand how the President expected to operate his plan to send 250,000 jobless men into army camps under an enlistment of one year at $1 a day. Some of them, including William P. Connery Jr. [Dem., Mass.], chairman of the house labor committee, were outspokenly antagonistic on the ground that the project attacked the principles of the American labor system. William Green, president of the American Federation of Labor, has announced opposition to the bill.

Cabinet Members Present.

So at the suggestion of Senator David I. Walsh [Dem., Mass.], chairman of the senate group, the President invited the members of both committees to the White House tonight and there he brought his secretaries of interior, labor, agriculture, and war to school the congressmen on what it was all about.

The President turned out to be the school master, however, and explained that the bill's provisions for mobilization of the idle in camps did not mean complete military control.

Although a man has to sign up for a year under the proposed regulations, he will be allowed to leave the camp at any time if he shows he has another job, or a sick wife, or a similar good reason.

Labor's objection that sending men into camps from which they will go out to work in national and state forests at $1 a day and board and clothing will interfere with regular labor activities is not sound, the President declared.

Aids Men in Slums.

The unfortunate fellows who are picked from the streets and slums and shelter houses to join the forestry armies would never have any jobs at all unless these prescribed in the bill are offered, it was stated.

On the meagerness of the wage offered the position of the administration was that the inclusion of board and clothing would raise the daily fee per man to $2, which was declared to be as much or more than the average wages paid in many places in the country today for similar work.

If any skilled labor is needed on the projects it would be paid the normal rate, according to the administration spokesmen.

One main hope is that many of the homeless youths who are constantly roving the highways and streets may be recruited into the camps and given substantial shelter as well as healthy employment.

How House Voted on Roosevelt Farm Bill

PASS FARM BILL IN HOUSE; FIGHT IN SENATE SEEN

[Continued from first page.]

prices and prices estimated to restore the buying power of the commodity to pre-war level.

60 Cents on Wheat.

On the basis of present farm prices the approximate full tax on wheat will be 60 cents per bushel, or nearly twice the present farm price; that on cotton will be 7½ cents per pound; that on hogs, $4.80 per hundred; on butter, 8 cents per pound; on milk, 14 cents per hundred; beef cattle, $2.10 per hundred; lambs, $1.95 per hundred.

The length of time the emergency law is to be in effect is left in the hands of the President, and the determination of what basic crops shall come under the act, what shall be left out, what the tax shall be, when it shall be terminated, are left in the hands of the secretary of agriculture and the President.

A special section incorporating the Smith cotton pool plan is intended to help cotton and get the cotton cooperatives out from under the huge burden of debt imposed on them during th. farm board's stabilization operations.

Made Patronage Glory.

In addition to these provisions, thanks to the action of the house, an amendment was made permitting the large number of officers and employes which will be required to be appointed on a patronage basis and without regard to civil service laws.

Representatives James M. Beck [Rep., Pa.], known as a constitutional authority, protested against the bill as a new and extravagant departure from the constitution.

"It makes the secretary of agriculture a Stalin, a dictator such as rules over the unhappy Russian people," he said.

Haskell, Dance Director of Musical Shows, Beaten

New York, March 22.—(AP)—Jack Haskell, 42, dance director of musical shows, was beaten severely tonight by two men who invaded his hotel room in the theatrical district. He suffered a concussion of the brain and lacerations of the scalp and right eye. His injuries compelled him to forego sailing to Europe at midnight as he had planned. Haskell came into prominence in 1930 when he and Oscar Hammerstein came to blows during rehearsals of the show "Luana." Harold Rand of Kansas City, whose sister, Sally Rand, was a member of the cast, also was involved.

HEARING ON NOEL BANK ATTORNEYS' FEES CONTINUED

Circuit Judge Joseph Burke yesterday continued to March 31 a hearing on the fees asked by attorneys for the Noel State bank after indicating that he might take the hearing out of the hands of Master in Chancery George E. Gorman because of the voluminous evidence offered before the master.

The master in chancery cannot limit the evidence offered by attorneys, while the judge can, Judge Burke pointed out as the reason for his contemplated step. He made the statement after a conference with Assistant Attorney James G. Skinner, who asserted to the judge that the bank's assets were being dissipated by the protracted hearings.

The attorneys—Judah, Reichmann, Trumbull & Cox—have submitted a bill for $105,000 in fees, of which they already have been paid $65,000.

Chicago Nurse Loses Fat, 40 Pounds Go

With New Battle Creek Reducing Treatment

Now Her Fat Patients Reduce This Safe, Pleasant Way

"Other remedies had failed to reduce me, but BonKora took off 40 lbs. in 6 weeks. I am now the correct weight for my height. BonKora made me stronger too; ended digestive troubles. I look years younger. I am a Registered Nurse and always recommend BonKora to my patients if they are stout."—Mrs. Francis Rudolph, Registered Nurse, 4527 Lake Park Ave., Chicago, Ill.

Eat Big Meals Fat Goes Quick—or No Cost

1st STAGE 2nd STAGE 3rd STAGE

BonKora takes off fat new 3 stage way. Triple action; triple speed. • *Nothing is so attractive as a slender figure and dainty curves. Take BonKora.* • *Don't be fat any longer. Start BonKora Battle Creek Reducing Treatment today.*

How Many Pounds Would You Like to Lose Next Week?

How many pounds would you like to lose altogether? 10 lbs.? 30 lbs.? 50 lbs.? 100 lbs.?

Then take BonKora, the new Battle Creek Reducing Treatment as Mrs. Rudolph, the trained nurse did. It has taken fat off people who had tried other methods in vain. It has reduced heavy waists, hips, shoulders, chins and bust and given bodies, once fat, the daintiest, feminine curves.

It has enabled these delighted women to wear dresses several sizes smaller, and to look well in chic, youthful styles. It has made them *feel* and *look* years younger.

BonKora reduces new "3 stage" way. Triple action; triple speed. Just take a little BonKora daily to help body function properly; to remove heavy wastes, and moisture from fatty tissues. EAT BIG MEALS of foods you like as explained in BonKora package. Stop reducing when you reach normal, healthy weight. Then *hold* your new slender figure.

No dangerous drugs in BonKora. In fact, BonKora Treatment *builds health* while reducing fat the *quickest way.*

Try It on Money-Back Offer

You don't want to be fat any longer. So get a bottle of BonKora from Walgreen's today. If not delighted with slenderer figure, daintier curves, new health and younger looks, the manufacturers refund the money you paid for this bottle. *You don't risk a penny.*

Big Bottle of BonKora only 98c at all

Mrs. Francis Rudolph, Trained Nurse

Remember—BonKora reduced fat without starvation diet or strenuous exercise. It is harmless. It is pleasant tasting. Results are GUARANTEED or your money back.

People Everywhere Praise BonKora

What BonKora has done for these people it should do for you. These testimonials are genuine. They were written in gratitude by users of BonKora, delighted at quickly losing their ugly fat.

Loses 33 Lbs.—Gains Strength

"I have tried many things for reducing, but never found anything to equal BonKora. I didn't starve, either. BonKora took off 33 pounds in 4 weeks. Got rid of headaches and blood pressure spells. It relieved my rheumatism. Now I can do all my housework once more."—Mrs. Katherine Lukas, 7449 Parnell Ave., Chicago, Ill.

Loses 61 Lbs.—Reduced Bust, Waist, Hips

"I weighed 200 lbs. before taking BonKora. Now weigh 139. Lost 61 lbs. in 10 weeks. Reduced bust 6 inches, hips 9 inches, waist 13½ inches. Used to wear 44 dresses. Now wear 18. Headaches and indigestion all vanished."—Miss Lillian Kahn, 3004 Roosevelt Rd., Chicago, Ill.

Nurse Loses 33 Lbs.

"I have lost 33 lbs. in 8 weeks taking BonKora. I also find four of my friends are taking it since they saw how I reduced. I am a trained nurse, and I always recommend BonKora to my patients if they are stout as a safe, harmless way to take off fat."—Mrs. Ramona Kirk, Trained Nurse, 3924 Pitkin Ave., Brooklyn, N. Y.

ROOSEVELT PLAN ON MORTGAGE AID IS NEARLY READY

May Go Before Congress Within Week.

BY JOHN BOETTIGER.
[Chicago Tribune Press Service.]

Washington, D. C., March 22.—[Special.]—The Roosevelt plan for taking the burden of debt from millions of owners of farms and small homes was revealed in tentative form today.

The plan is scheduled to go before congress within a week, and contemplates bringing the interest rate down from 6 and 7 per cent to perhaps 3 per cent on both farm and home mortgages.

It was made plain that there will be no attempt to enforce acceptance of the lower rate on any private holders of mortgages, but the government expects many thousands of holders will be most happy to exchange their present "frozen paper" for more liquid government securities.

Distant Maturity Planned.

The form which the plan is expected to take is for the government to issue a bond to the holder in exchange for his mortgage. The farmer or home owner will then make interest and principal payments to the government. The maturity date of the bonds has not been decided, but may fluctuate between, 20, 30, or even 40 years.

It will be necessary for the government to engage a great army of appraisers and agents, collectors, and bookkeepers to administer the plan before any transfer of a mortgage can be made to the government, as an official appraisal must be made and the value of the land under mortgage ascertained.

May Have to Take Loss.

Some estimates as to the risks the government might assume in underwriting mortgages ran as high as 75 per cent. After the valuation has been made the government's risk acceptance may be lower than the face value of the mortgage, in which event the holders would be required to accept the loss or hold on to the mortgage.

Estimates as to the amount of farm mortgages in the country run as high as 9½ billion dollars. There are 6 million such mortgages in existence, according to the estimates.

The Roosevelt plan is to first submit the scheme for adjusting farm mortgages, and then, by the same type of legislation, apply the same method to lowering interest rates on home mortgages.

All will be done, it was indicated, under the direction of Henry Morgenthau Jr., chairman of the federal farm board, who will be chief of a new board which is to embrace a consolidation of eight agencies which at present handle various farm and home credit operations of the government.

Senator George W. Norris [Rad., Neb.], who is deeply interested in the farm credit relief situation, conferred with President Roosevelt today but declared his conversation concerned only his bill for having the government operate Muscle Shoals.

Robbed of Employer's $700, Girl Tells Police

Miss Lillibell Bastille, 20 years old, of Lisle, Ill., employed as secretary by Attorney Oliver J. Chambers at 221 North La Salle street, told the police yesterday that she had been robbed of $700 belonging to her employer by two men at Jefferson street and Washington boulevard when she stopped her car for a traffic light.

1st Drum Corps Registers for Legion Convention

The drum and bugle corps of American Legion post, No. 52, at Coldwater, Mich., composed of 50 men, has the distinction of being the first musical organization to register for the Legion national convention to be held in Chicago next fall. It is expected that more than 500 bands and bugle corps will take part in the convention.

DAUGHTER OF ADKINS, EX-CONGRESSMAN, IS VICTIM OF KIDNAPERS

Decatur, Ill., March 22.—[Special.]—Miss Martha Adkins, 22 year old daughter of former Congressman Charles Adkins, who was kidnaped and beaten by two men last night, today was taken home from the hospital where she received treatment.

Miss Adkins was seized, she said, by a man as she was crossing the street to her home at 1361 West Wood street. Her captor forced her into an automobile, which contained another man, and they took her to an undeveloped subdivision on the western outskirts of the city. There, according to her story, they attempted to rape her, tore off her clothes, and beat her.

The kidnapers then put Miss Adkins out of their car on the lawn of John Valentine, a neighbor, and she was found there, virtually nude and hysterical.

Miss Adkins said she believed she could identify one of the men, because he had red hair. They were between 20 and 30 years of age and both were drunk, she said.

CHICAGOAN HELD AS SUSPECT IN $72,000 HOLDUP

Des Moines, Ia., March 22.—(AP)—Two men whom Beloit, Wis., police believe may be connected with the $72,000 robbery of the Second National bank there last August were being held here tonight.

They are Archie Brown, 26, Chicago, and Ted Patterson, 28, Springfield, Ill. Both were arrested in a raid here.

The men told police they were at liberty under bond in connection with a bank robbery in Rochester, Ill., in 1930. Brown said his bond was $25,000 and Patterson said his was $23,000.

In Beloit Police Chief Dietz said he has "strong reasons" to believe the men are connected with the robbery there.

Suspect in Kidnapings.

Sterling, Ill., March 22.—(AP)—Sergt. O. W. Kempster of the Illinois highway police said tonight that Archie Brown, arrested in Des Moines tonight, had been identified through a photograph as one of the participants in the $72,000 robbery of the Second National bank in Beloit, Wis., last August.

Kempster said he and Policeman Hal Roberts of the state force also wanted Brown for questioning in their investigation of the kidnapings of Adhemer Huughe of East Moline last October and of Fred Di Fillippi, Spring Valley merchant, last December.

Kempster said Roberts visited Beloit last fall and obtained the tentative identification of Brown as a member of the robber gang.

Patterson, arrested with Brown in Des Moines, was seized in Chicago last month in the home of a suspected kidnaper, but released when he proved an alibi in the Huughe and Di Fillippi cases.

EVIDENCE BEGINS IN THREE POLICE SLAYING TRIALS

Taking of evidence in three trials of men alleged to have slain policemen was started yesterday. It is the first time, court veterans said, that three such trials have been in progress at the same time. The state is asking the death penalty in each case.

In the trial of Jerry Kane, who is charged with killing Policeman Frank J. Cunningham, the prosecution received a setback at the outset when two witnesses to the shooting said they could not identify the defendant as one of three robbers who were surprised by Cunningham and other policemen during a restaurant holdup.

The prosecution was more fortunate in the trial of Henry Severino, who is charged with slaying Policeman Martin Knudson during a holdup. Judge James F. Fardy allowed the prosecutor to introduce Severino's confession into evidence.

The third trial is that of Arthur Lavac, who is charged with the murder of Policeman Frank Svec of Berwyn on Dec. 12, 1932. Lavac killed Svec when the policeman tried to serve a warrant on him for failure to send his children to school.

PUBLIC WASTE CONTINUES HERE, SAYS MERRIAM

Outlines Plan to Save Millions.

BY ARTHUR EVANS.

Illinois is lagging behind in the battle to cut costs of government, Prof. Charles E. Merriam of the University of Chicago, yesterday warned the Chicago Association of Commerce at its weekly luncheon at Hotel La Salle.

CHAS. E. MERRIAM.
[De Haven Photo.]

While President Roosevelt is performing prodigies at Washington and the half billion dollar economy bill has been signed within a fortnight of his inauguration, the legislature is slow in getting into action on a reorganization of Cook county's overlapping governments, and the political scientist declared that unless the overburdened taxpayers stir themselves little may be done this session.

Cites Action of Roosevelt.

"In America and Chicago," he said, "we must face the problem of a government with power to act and of individuals who are able and willing to use the power they have when the public interest requires it—'taking a chance,' as the older Roosevelt said, and as the latest Roosevelt has done."

Prof. Merriam, as a beginning for local governmental economy, discussed his plan for a board of budgetary control of governments in Chicago—the city, the board of education, the public library board, the three park boards, the sanitary district, and Cook county. It would be composed of three persons, the mayor, the president of the county board, and a third to be appointed by these two, presumably an expert well qualified in local finances.

The plan, which was approved by the late Mayor Cermak, it is estimated, would save many millions of dollars annually.

Outlines Powers of Board.

As outlined by Prof. Merriam, the board, which is to be considered at Springfield as a legislative proposal, would have the following powers:

1. To consider all of the proposed budgets of these bodies as a whole and to fix the maximum amount of expenditure for each of these governments. It would not make up the budgets but would fix the amounts to be spent.

2. To examine and report on all bond issues proposed by these bodies and aid in the preparation of a unified debt program. It would not have a veto power, but would be able to let the taxpayers know.

3. To pass upon all proposals for legislative action in financial matters coming from any of these governments.

4. To initiate ways and means of getting rid of duplication in governmental services, as for example legal and engineering services; or to initiate methods of unified purchase of supplies and materials, such as coal.

5. To take the initiative in such other steps as may tend to bring about a more unified governmental system within the city.

Not Fearful of Consolidation.

"There are those," said Prof. Merriam, "who shrink from consolidation because of the power it gives to a few men over large affairs. For myself I do not shudder at the thought of power, if it is clear cut and openly responsible. I tremble when I think of the impotence of divided authority in the presence of emergency—a dozen generals commanding one army.

"However, the weeks and months are slipping by and little progress is being made in the direction of a unified Chicago.

"Much of this is due to the tragic death of Mayor Cermak, but beyond this there is great indifference on the part of citizens and taxpayers who lament the burdens of government in general but stop with lamentations.

"Unless there is evidence of a more unified purpose on the part of Chicago and of sterner determination to bring about results the legislature may adjourn and leave us exactly where we are.

Multiple Taxing Bodies.

"The City of Chicago contains in its limits no less than 27 independent taxing bodies, including the greater part of three large agencies, the sanitary district, Cook county, and the forest preserve.

"The government of the inner Chicago is a combination of seven main agencies—the city, board of education, 3 park boards, sanitary district, and Cook county—each of which raises and spends money. All these agencies distribute and divide the central functions of government among them. If we ask what mind thought out this masterpiece of divided power and responsibility the only answer I know is that it just grew and grew. The only unified government we have, curiously enough, is the party organization. The machine distributes jobs and rewards and penalties without regard to local governments. As a beginning I have proposed the plan for a board of budgetary control."

136 WOMEN ESCAPE BURNING INFIRMARY IN CLEVELAND, OHIO

Cleveland, O., March 22.—(AP)—Flames which spread rapidly through a three story women's dormitory at the Cleveland infirmary in suburban Warrensville tonight destroyed that part of the institution and threatened the lives of 136 occupants. Infirmary officials, however, said all of the 136 were saved.

Several hours later firemen said the fire was under control and that there was little danger the flames would spread to connecting units of the infirmary. They estimated the damage at $30,000.

All of the women were led or carried to safety by volunteers working under the direction of J. J. Sullivan, superintendent, and Miss Agnes Schultz, head matron.

Police aided firemen in directing the fight against the flames as all available apparatus in the southeastern section of Cleveland was rushed to the scene. The cause of the fire was not determined.

FINGERPRINTS CLEW TO ARGO BANK ROBBERS

Cracksmen Miss $45,000 in Strong Boxes.

Three finger prints and the labels of a Hammond store on material left behind by the six cracksmen who looted the vault of the Argo State bank, 6252 Archer avenue, were being investigated by the police last night as clews to the identity of the robbers. In their raid early yesterday the robbers obtained $3,000 belonging to the bank, $8,000 dollars worth of stamps from the safety deposit box of the Argo postoffice and perhaps that much more in currency and jewelry from other safety boxes.

The robbers fled without opening a bank strong box containing $25,000 in cash and also missed a safety box containing another $20,000 in currency. The interruption which frightened the burglars away was the arrival at the front door of the bank of two friends of the bank janitor, Beryl Clear, who was held a prisoner by the robbers for more than an hour.

S. M. Frankland, president of the bank, expressed the opinion that the robbers had expected to find an $80,000 pay roll of the Argo Corn Products company in the bank vault. However, this money had not yet been delivered. No accurate estimate of the amount of loot obtained from 45 safe deposit boxes broken open can be made for several day, he said.

R. C. Saunder, head of the crime prevention department of the Illinois Bankers' association, obtained the finger prints in the vault and turned them over to the bureau of identification.

Hammond police were asked to help because the labels of a Hammond hardware store were found on a box of percussion caps left behind by the robbers.

AL SMITH WITNESS AT FILM COMPANY MAIL FRAUD TRIAL

New York, March 22.—[Special.]—Alfred E. Smith was called as a government witness today in the case against the National Diversified corporation, Otto E. Goebel and eight others charged with mail fraud in connection with the promotion and sale of some $3,000,000 worth of stock to the public.

Mr. Smith denied he had ever owned stock in, heard of, or aided in any way the National Diversified corporation. The corporation was organized ostensibly for the purpose of producing clean motion pictures with an appeal to members of the Catholic faith. One of the first pictures produced was "Rainbow Man," starring Eddie Dowling.

Mr. Smith admitted that he attended the opening of this picture as a friend of Mr. Dowling and made a short talk congratulating him on the picture, but he denied that he knew it was produced by National Diversified. He said he had never authorized the use of his name in the promotion literature and did not know until the indictment that it was being used.

Spain Arrests Maker of Blue Shirts for Fascists

BILBAO, Spain, March 22.—(AP)—D. Nestor Manzanos, a merchant, was arrested today on charges of manufacturing blue shirts which he supplied to Fascists. In Almeria Dr. José Alvinana, known as the first Fascist in Spain, was sentenced to 41 days in jail and fined 125 pesetas ($11.15) for writing a newspaper article attacking the government.

BERLIN WORRIED, BY U. S. REACTION TO WAR ON JEWS

Appeals for "Good Will" of Foreign Nations.

[Copyright: 1933: By the New York Times.]

BERLIN, March 22.—The United States embassy emphasized today that it had not protested to the German foreign office against anti-Semitic attacks, but had merely received instructions from the state department at Washington to place special emphasis in its regular reports upon the matter of persecutions of Jews.

German newspapers, especially of the right, today emphasized that of all the foreign comment on events in Germany that of American papers is the most unfriendly. Political quarters appear worried about what has come to be called "anti-German agitation in the United States."

One spokesman said the government has no way of checking the spreading of rumors and can, therefore, only appeal to the good will of foreign nations. He said untrue reports could only be denied and denials did not seem to be believed.

It ought to be appreciated, the spokesman said, that, despite strong anti-Semitic feeling among the German people, Chancellor Hitler has strictly ordered his followers to abstain from any violence.

Jews Keep Under Cover.

[Copyright: 1933: By the New York Times.]

PARIS, March 22.—Such private information as has trickled through to Paris from Germany in the last two days has brought no reports of fresh racial persecutions there, and it is hoped that such restraint as Chancellor Hitler is still able to impose on his followers is operating more efficaciously.

There has been an appreciable diminution also in the Jewish exodus from Germany. Those victims of Hitlerite persecution who have been able to do so have apparently departed, and those who remain because they must are keeping as much as possible under cover.

Dr. Theodor Wolff, editor of the newspaper Tageblatt, on returning to Berlin was met at the railway station by friends with the warning that the police were seeking him. Wolff took another train back and is now said to be safe outside of Germany.

Otto Braun and Carl Severing, former Prussian ministers, are in Switzerland.

Fate of Red Chief Uncertain.

There is, however, no news whatever about Ernst Thaelmann, communist leader, who received 7,000,000 votes when he ran against Von Hindenburg for the presidency. Thaelmann is said to be in jail with the other eighty elected communist deputies, but no one has seen him. One story that he had been strangled in his cell has been officially denied. Another report is that he has been so frightfully beaten he cannot be produced.

It is notable that the Nazi assaults and persecutions have not included a single citizen of France. If that had not been the case there might have been a different ending. Nor have any British subjects been molested.

From authoritative Jewish sources it was learned today that so far the exodus from Germany had not been so large as to become embarrassing to Jewish organizations in France. The Jews who have been able to leave Germany are those who have been prepared to do so, financially and otherwise. Once outside, there are few who need assistance, and the few who need it have been provided for.

Most of those leaving Germany are French, Polish, British, Dutch, or American citizens, and their passports permit them to leave. Germans of the Jewish faith cannot leave because the Nazi government refuses to recognize them as German citizens and will not issue passports to them.

Novelist Charges Pogrom.

[Copyright: 1933: By the New York Times.]

LONDON, March 22.—"Pogroms such as Germany has not seen since the 14th century" are occurring under the Nazi régime in Germany, according to Lion Feuchtwanger, novelist, whose home was raided by Nazi storm troopers last week. Writing from Switzerland to the Evening Standard, Feuchtwanger protests bitterly against the atrocities described to him by "reliable refugees" and predicts a "civil war such as the world has never seen" unless the storm troopers' excesses are checked.

He tells of Jews thrown from moving underground trains; of women and children dragged from automobiles and beaten because they were thought to be Jews; of women seeing their husbands assaulted and kidnaped without hearing from them again.

"We shall never know how many people were killed in these days simply because they looked like Jews or bore Jewish names or how many were shot while trying to escape," he says. "The Red Cross is not allowed to attend people who have been ill treated and information about many who have disappeared is refused."

CHICAGO JEWS PLAN ACTION ON HITLER TONIGHT

Plans for a formal protest against the treatment of Jews by the Hitler government in Germany will be made tonight at a meeting of representative Jewish organizations in Chicago at the Hotel La Salle. Rabbi Solomon Goldman will preside and various delegates will express their sentiments as to what should be done. An appeal to the league of nations is the method suggested by Louis Lipsky, chairman of the American Palestine campaign. At the same time a group called by Dr. Horace J. Bridges, head of the Chicago Ethical society, will consider action by organizations that are not Jewish. It was suggested that ministers of all denominations devote a Sunday in April to this discussion.

GERMAN RABBIS APPEAL TO JEWS TO REMAIN LOYAL

BERLIN, March 22.—(AP)—The council of rabbis, which has watched with concern evidences of anti-Semitic sentiment, today issued the following statement:

"The true spirit of our religion is an answer to any one who is willing to listen.

"Our history is ample proof of the spirit which lives within us. We know what the German fatherland means to us. Since time immemorial our religion has taught us loyalty to the state.

"We appeal to our brethren: do not lose your loyalty and faith; preserve your pride and strength! Remain true to your fathers!"

NAZIS PROCLAIM AUSTRIAN UNION AS THEIR GOAL

Hitler Decrees Gag on Political Parties.

[Continued from first page.]

some day he would see a Hohenzollern back on the throne.

This monarchical sentiment was emphasized again in a speech made by Friedrich Everling, a leading Nationalist member of the reichstag, at the statue of Wilhelm I. in the lobby of the reichstag. Today was the anniversary of Wilhelm's birth and the Nationalist leader placed a wreath at the statue, which is in a section of the building not damaged by the recent fire.

"Parliamentarism is burned out, but our old kaiser has remained," Everling said. "He always has been on our minds and he is especially now when we are approaching a new black, white, and red kaiser reich."

Hold Memorial Exercises.

The birthday of the former kaiser's grandfather was the occasion for monarchial commemoration exercises at his tomb at the Charlottenburg mausoleum and elsewhere.

The League of the Upright issued a manifesto expressing gratification at Chancellor Hitler's speech yesterday at Potsdam, in which the chancellor invoked the spirit of Frederick the Great and asserted that it was a lie to hold Germany guilty of the war.

"The nation," the manifesto continued, "must receive farsighted enlightenment so that when the time is ripe the hallowed leadership shall crown a new Germany."

Action in what Nazis call the municipal "cleanup" campaign was first reported from Prenzlauer berg, a laboring section of Berlin, where, upon orders from the Nazi commissary burgomaster, kindergartens and music schools headed by Jews were closed and Socialists and communists were barred from municipal clubhouses and athletic fields.

At Gelsenkirchen a communist leader was slain by a storm trooper who said he acted in self-defense.

Tighten Gag on Criticism.

President von Hindenburg today signed two emergency decrees prepared by the government. They provide for imprisonment at hard labor for malicious dissemination of reports damaging to the prestige of the nation, the government, or the political parties supporting the government.

Imprisonment at hard labor, and in extreme cases death, is provided for the wearing or possession of uniforms or insignia of the government parties without proper qualification, or for the commission of illegal acts with the intention of terrorizing the people or of causing difficulties with foreign governments.

One of the decrees grants amnesty to persons imprisoned "for past excesses committed in the heat of the battle for national resurgence," but warns that no further clemency will be extended.

Frederic M. Sackett, retiring American ambassador, and Mrs. Sackett left today for home by way of France. Representatives of the government and the diplomatic corps bade them farewell at the station.

Treaty of Versailles Must Be Revised, Europe Agrees

BY JOHN STEELE.

[Chicago Tribune Press Service.]

LONDON, March 22.—Early revision of the Versailles treaty may be an outstanding result of the European jaunt of Prime Minister MacDonald and Foreign Secretary Sir John Simon, which ended today with the return to London from Paris of the two British statesmen.

Tomorrow MacDonald will make a statement to parliament on his conversations with Premier Mussolini of Italy and Premier Daladier of France, but it is understood that he will disclose very little. This correspondent's information, however, is that MacDonald and Sir John think they have set in motion a course of events which may bring about a settlement of the unrest in Europe.

Three Phases Come Up.

MacDonald first laid his disarmament plan before the league of nations at Geneva. Then he took it to Rome, where Mussolini laid down before him another plan. Then he took both plans to Paris, where the French criticized some of the details, but did not turn them down altogether. Out of these three-cornered conversations, which have yet to be completed by talks with Germany, three phases emerge:

First—Adoption of some real measure of disarmament, probably based on the MacDonald plan, for five years or more. Mussolini suggested two ten year periods.

Second—This is to be accomplished through the machinery of the league of nations. The four great powers, Great Britain, Italy, Germany and France, which, now that Japan has withdrawn, are the only permanent members of the league council, should take the lead. Persons close to MacDonald insist that this must not be understood as an imposition by the great powers of their will on the small nations. It simply means that some one must take the lead and that some one is naturally the great powers.

Agree on Treaty Revision.

Third—And most important of all—revision of the Versailles treaty. Statesmen in Europe, this correspondent is informed, are now agreed that the treaty is a cancer eating away the health of Europe and must be cut out before permanent health can be restored.

Just how far this revision may go no one has yet suggested. Mussolini is credited with plumping for the return of certain colonies to Germany, but British information is that this is a canard started by certain French interests close to the international armaments ring.

Other suggestions are that Germany be allowed to rearm to equality with the other great powers. The British, however, would rather have the great powers disarm to Germany's level. This, of course, would include disarmament of the so-called small powers which are satellites of France and which in combination could show a formidable strength.

Insist on Maintaining League.

The main insistence throughout, however, by all three powers is that the machinery of the league of nations be used for any revision, thus giving it the imprint of legality and at the same time increasing the prestige of the league, which, it is felt, has suffered in public opinion by its spectacular failures.

Whatever happens as a result of MacDonald's trip, it has been successful in obtaining a better and more hopeful: ental attitude in Europe. A fortnight ago all statesmen were talking in whispers about war. Now they are talking about various schemes for establishing peace and at the very lowest estimate invaluable time has been gained during which a basis for permanent peace may be worked out.

French Premier May Visit Italy.

[Chicago Tribune Press Service.]

PARIS, March 22.—A meeting in Italy between Premier Daladier of France and Premier Mussolini appeared probable tonight, when it became clear that the European peace plan concocted by Prime Minister MacDonald and Il duce would stand or fall on a Franco-Italian agreement.

The projected meeting depends, it is understood, on Mussolini's reaction to the French attitude on the peace plan, which was broached to Premier Daladier by MacDonald yesterday.

Revision of the Versailles treaty looms as a rock upon which the peace plan may break unless some adroit steering is done.

Mussolini Wants Revision.

Mussolini ardently desires revision. France, it is believed, will be extremely careful just what kind of revision is intended. If the French give in at all on this point, it is pretty certain they will demand liberal concessions elsewhere.

French leaders also are desirous of incorporating any plan which may eventually be agreed upon within the framework of the league of nations. They argue that this would give the smaller powers access to any benefits from the scheme. Incidentally, neutral observers point out, it would give France opportunity to keep the situation in hand by wielding the powerful French influence resting in the league.

Before he left here for London today MacDonald indicated that any agreement reached by the Italians and French would be all right with the British. He said that so long as European peace is furthered the British policy will be to push no special views for one side or another.

BEG YOUR PARDON

An account of the suicide Tuesday of Philip Grandpre, 24 years old, 6409 Langley avenue, a Negro, identified him as being a student of the University of Chicago. Officials of the university stated yesterday that Grandpre was never enrolled at the institution.

MAN ACCUSED AS SPY TO APPEAR IN OWN DEFENSE

Detail Extra Police Guard to Hold Crowd.

[Chicago Tribune Press Service.]

LONDON, March 22.—Lieut. Norman Baillie-Stewart of the Seaforth Highlanders' regiment will tell his own story tomorrow to the court martial which is trying him on a charge of selling military secrets to a foreign agent. Extra police will be detailed to prevent disturbances in the large crowd that is expected to attend. A short morning session will be held in secret.

Military authorities charge that the lieutenant sold or attempted to sell information to foreign agents in Berlin. He has admitted receiving $450 from a mysterious "Marie Louise" of Berlin, but claims that the money was pay "for services rendered" after a romantic incident in a park.

Warns Officer's Friend.

Lieut. L. Cromwell testified that Lieut. Baillie-Stewart tried to make up a party of fellow officers for a trip to Berlin, but it fell through and he went alone. After his return he discussed his vacation, but did not mention a liaison with any woman. Cromwell expressed surprise that serious charges had been brought against his friend.

After the accused was arrested, Lieut. Cromwell asked Lieut. Col. Frederick Syms whether he might see Baillie-Stewart, whereupon Lieut. Col. Syms answered:

"Well, you have your future career to consider. I advise you not see him."

"Did he say anything to you of what the accused had been doing?" Norman Parkes, defense counsel, asked.

"He insinuated that the accused had been bragging to an officer who was looking after him about his associations with women," Lieut. Cromwell replied.

Charge Misuse of Army Books.

Other officers testified that Baillie-Stewart was an industrious officer striving for promotion.

Brevet Lieut. Col. H. P. Raymond, who was Lieut. Baillie-Stewart's instructor in courses required for promotion, declared that "Modern Formations," one of the books mentioned in the charges, would be helpful to a young officer seeking a higher rank, but that "Tactical Handling of Tank Battalions" would not. This book he is accused of misusing.

MONDAY SET ASIDE BY JEWS TO PROTEST AGAINST PERSECUTION

New York, March 22.—[Special.]—The three orthodox rabbinical associations of America today proclaimed Monday a day of fasting in protest against the persecution of Jews in Germany.

The proclamation was issued jointly by the Agudath Harabbonim, the Degel Harabbonim, and the Vaad Harabbonim.

The fast is to be in preparation for a massmeeting in Madison Square Garden Monday evening, at which Rabbi Stephen S. Wise, Bishop William T. Manning and other prominent Jews and Christians will speak in protest over a nation-wide radio hookup.

Similar meetings will be held in other cities, it was announced by Abraham H. Cohen, executive director of the American Jewish congress, to give the protest a national character.

5 Reported Named in True Bills in Killing of Doctor

Joseph Borowy, 17 years old, confessed slayer of Dr. B. F. Garnitz, 5159 South Damen avenue, was reported to have been named, with two youthful companions, by the grand jury yesterday in murder true bills. The others are Matt Novak, 19 years old, and Charles Kubala, 20 years old. Mildred Rundle, 19 years old, and Blanche Chevetal, 18 years old, are said to have been named in true bills as accessories. Police assert that all were present on the night of Feb. 24 when Dr. Garnitz was shot by Borowy after being summoned from his home by the slayer.

Sample Shirts

If you are having any difficulty in obtaining satisfactory shirts to measure let us make you a sample shirt. Our way of fitting and making shirts and collars is a revelation to new customers. They always appreciate our skill in taking proper measurements and our study of individual requirements so as to assure utmost comfort and personal becomingness.

While we do not claim to be the only house that makes good shirts, we do wish to emphasize the fact that with us you have the advantage of experts throughout every step of production and boundless varieties of the most distinctive shirtings from which to choose. A sample shirt will give you the advantage of judging both our materials and workmanship and we will have an opportunity to demonstrate our ability. We invite you to visit any of our four shops — New York, Chicago, London, Paris.

You'll do it better on DATED coffee

Science recognizes the stimulating, heartening effect of coffee. Says it puts new courage and life into you. But says also—remember to avoid *stale* coffee.

THERE'S a last ounce of energy needed to compete successfully in business . . . in sports. And thousands of men and women get it out of coffee.

But how about the others who say—we wish we could, but coffee makes our heads ache, gives us indigestion!

What are the facts? Science says the answer lies in whether the coffee you drink is fresh or stale.

Stale coffee develops a rancid oil. Nearly half a cup to a pound. And much *stale* coffee may definitely cause distress.

But *fresh* coffee is safe, as well as a delicious stimulant. If you are a normal healthy grown-up you can easily drink as many as 5 cups a day.

So, to *insure freshness* for all coffee-lovers, Chase & Sanborn instituted *Dated* Coffee. An expiration date is printed on every pound. And no can is allowed to stay on your grocer's shelf after its date has expired.

Dated Coffee is the only way to be sure of drinking absolutely *fresh*, delicious, full-flavored coffee. Take advantage of it. Order Chase & Sanborn's tomorrow.

JEWISH COLONY IN RUSSIA FAILS; U. S. MONEY LOST

$250,000 Donations from America Squandered.

BY DONALD DAY.
[Chicago Tribune Press Service.]

RIGA, Latvia, March 22.—The projected autonomous Jewish socialistic soviet republic of Biro Bidjan, in Siberia, has proved a failure, and the thousands of American Jews who have contributed more than $250,000 to its support during the past four years have been duped, according to Leon Bloom, a Newark plumber and steamfitter, who went to Biro Bidjan in September, 1931, to see how the bolshevik plan was progressing.

Bloom, who admits that his political opinions had a dark red tinge when he left the United States, claims that his fourteen months' visit to Russia has bleached them white. When he called at the American consulate in Riga to obtain his visa back to America he said the first thing he was going to do when he arrived home was to apologize to all his former political opponents and admit that he was "just another sucker."

Aided by American Jews.

"When the soviet government in 1924 decreed the death sentence for all persons involved in instigating pogroms in Russia it made many friends among the American Jews," Bloom said. "In 1928, when Moscow announced the five year plan and we heard it included a project to establish an autonomous Jewish republic in Biro Bidjan, we organized the EKOR—Society to Promote Jewish Colonization in Russia.

"Between 1929 and 1932 we forwarded to Biro Bidjan eleven tractors with accessories, 28 machines for a wood working factory, 6 auto trucks, 3 automobiles, and 10 motorcycles, 2 complete electric power plants, and 26 machines comprising a complete metallurgical plant.

"Several groups of enthusiasts also left America to settle in the colony. During 1931 reports began to arrive in New York that the colony was in difficulties. I decided to visit Biro Bidjan and see what had happened to our comrades and to the machinery.

Finds Machinery Is Junk.

"Back in New York we had been informed by soviet publications that Biro Bidjan had been connected with the railroad station by a beautiful boulevard ten miles in length. Instead of boarding one of the automobiles we had sent over at the station I loaded my baggage on a peasant's cart and the undernourished horse was panting and covered with foam when we arrived at Biro Bidjan, almost three hours later after traversing a swampy road where the axles were rarely out of the mud.

"The railroad station prepared me for the sights I was to see later, for on the platform I saw the remains of the shipments of the various machines we had sent from New York. The metal working plant had been converted into a pile of junk. The two electrical plants were ruined. For one of them we had paid $100,000.

"The six auto trucks were junked. Only one auto remained and this could be used only in midsummer when the road had dried up. The motorcycles had just disappeared and nobody knew where they went to. Most of the woodworking machinery had not been used. Many parts were missing. In a big shed four of the machines were turning out six dozen kitchen chairs a month. Soviet publications had informed us they were producing six dozen chairs a day.

Jews Desert Colony.

"But the greatest surprise was Biro Bidjan itself. This overgrown village, with its single muddy road and its log houses and stables, is the capitol of a district inhabited by 20,000 Koreans, Mongols, Gulds and Cossacks. The original inhabitants also included 250 Jewish families. During the last three years, from 1930 to 1932, the soviet government sent 80,000 settlers to Biro Bidjan. Believing bolshevik propaganda, little groups of Jews from all over the world went there, bringing with them contributions of machinery and money to help in the foundation of a Jewish republic.

"When I arrived the number of Jews there totaled less than 6,000 and scores were deserting every month. Unable to return to their homes because of immigration restrictions, the colonists from abroad had followed the example of the colonists from Russia and the Ukraine. They slowly bummed their way across Siberia and returned to their native villages. I met many of the American colonists in Moscow.

U. S. Money Thrown Away.

"The money which American Jews contributed to Biro Bidjan has been thrown away. There is no pioneer spirit and every Jew in the colony would be glad to escape if the road was open. All of the inhabitants have been enslaved and their taskmaster is the Gay Pay Ou, which is using them to exploit the tremendous forests in this region.

"Biro Bidjan is a district the size of New Jersey and contains natural resources in timber, coal and metals. According to Moscow's propaganda, this wealth is being exploited, but I only found a few timber camps where the workers were being fed on thin soup and one pound of bread a day if they accomplished the work assigned to them."

CANADIAN HOUSE BACKS PREMIER'S 'DICTATOR' BILL

[Chicago Tribune Press Service.]

OTTAWA, Ont., March 22.—The Bennett government today won the first round of its fight to secure virtual dictatorial powers. Its relief bill, with dictatorship powers included, was given first reading in parliament with the united opposition registering dissent but without forcing a recorded vote.

The effect of the so-called dictatorial powers is to vest with Canada's seventeen cabinet ministers authority to make or unmake any law for the "peace, order and good government of Canada" when parliament is not in session. The same law was used by the Bennett cabinet two years ago to prevent gold export and bolster up one or two shaky Canadian financial institutions.

Prime Minister Bennett in introducing the bill called it an emergency measure, but he intimated that he expected no particular national crisis. While he mentioned the wisdom of preparedness to head off "chaos and anarchy," it is understood that he had financial rather than social difficulties in mind.

WIDOW HOLDS UP FUNERAL TO END HER DIVORCE SUIT

Burial services for Matthew Stuk, 58 years old, 2029 Laramie avenue, were halted yesterday while his widow, Mrs. Elizabeth Stuk, 3307 Hirsch street, appeared before Superior Judge Joseph Sabath to dismiss the divorce action she had brought against him. Forty mourners waited beside an empty grave in Mount Olivet cemetery as she made her plea.

Mrs. Stuk, attired in widow's weeds and carrying a large funeral wreath, entered the courtroom with her attorney, Charles Frolich. She told the judge she could not attend the funeral of her husband, who died Monday, with the thought that the divorce case was pending. The judge granted her request. She left immediately for the services at the grave.

The Stuks were married Feb. 18, 1932, and separated the following June 12. She brought her action on charges of cruelty.

COLDS GO THROUGH 3 STAGES!

And They Are Far Easier Stopped in the First Than in the Second or Third!

A cold ordinarily passes through three stages—the Dry Stage, the first 24 hours; the Watery Secretion Stage, from 1 to 3 days; and the Mucous Secretion Stage. Relief is twice as easy in the first stage.

For prompt relief take a couple of Grove's Laxative Bromo Quinine immediately upon catching cold. This will usually expel the cold overnight and thus prevent the spread of the infection within your system.

Grove's Laxative Bromo Quinine is effective because it does the four things necessary. It opens the bowels. Kills the cold germs and fever in the system. Relieves the headache and grippy feeling. Tones the entire system and fortifies against further attack.

Grove's Laxative Bromo Quinine contains nothing harmful. May be safely taken by young and old and whether you stay indoors or go out. There is absolutely no penalty attached to its use. For more than 40 years it has been the standard cold and grippe tablet of the world, the formula keeping pace with Modern Medicine. Grove's Laxative Bromo Quinine now comes in two sizes—30c and 50c. Get yourself a package today and be ready for any cold that may come along. Say "NO" to a substitute!

SLEEP GOOD EVERY NIGHT

—Make This 25c Test—

Don't wake up for bladder relief. Physic the bladder as you would the bowels. Drive out impurities and excessive acids which cause the irritation resulting in wakeful nights, leg pains, backache, burning and frequent desire. BUKETS, the bladder physic, made from buchu, juniper oil, etc., works effectively on the bladder as castor oil on the bowels. Get a regular 25c box and after four days if not relieved of setting up nights your druggist will return your money. Make this test. You are bound to feel better after this cleansing and you get your regular sleep. Sold by

BARES CUBAN TAX BOYCOTT PLOT TO WRECK MACHADO

Chief of Police Accuses Havana Business Men.

[Chicago Tribune Press Service.]

HAVANA, Cuba, March 22.—An estimated 78 per cent of Havana's business men have signed pledges to refuse to pay their city, provincial, and national taxes in an effort to embarrass President Machado's government, Chief of Police Anciart declared today.

Anciart asserted the plot was hatched by the "A. B. C.," an opposition organization, to foster discontent and bring the economic crisis and with it the government to the breaking point. Several scores of business men were arrested, charged with furthering the conspiracy.

Police raided about one-third of the city's business houses and confiscated 462 faked tax receipts and 328 faked operating licenses. Documents were found revealing that many business men had pledged 2 per cent of their net profits to support the opposition's financial boycott scheme.

Stores Not to Be Bombed.

In return it is alleged that the A. B. C. promised not to bomb the stores of merchants who donated when the revolution broke out. According to a tally of the confiscated receipts merchants have contributed $365,000 to the opposition. Investigation today also revealed that ten large Havana hardware stores have furnished large amounts of dynamite for the manufacture of bombs, police said.

Meanwhile the advisability of requesting the United States to annex Cuba economically by a customs union that would eliminate tariff duties in both countries for the next five years is being considered by President Machado.

Economic annexation is considered the only hope for Cuba's recovery from its economic and financial crisis.

Secretary of State Orestes Ferrara expects to start formal negotiations with the United States embassy here for the materialization of the proposed union as soon as the President appoints a new ambassador.

Has Second Plan.

Economic annexation would in no way handicap Cuba's sovereignty, as the proposed union is free from any political change, it is pointed out.

Although some government experts brand the project as Utopian, Secretary Ferrara believes it a sound proposition. Should negotiations for the union prove impracticable, however, the government is ready to offer a "second choice." This would consist of the abrogation of the reciprocity treaty of 1901 by virtue of which both countries enjoy a 20 per cent preferential in their respective tariffs.

Secretary Ferrara will propose to replace this 1901 treaty, considered in Cuba as disadvantageous to both republics, with a new pact carrying at least a 10 per cent increase in the existing preferential concessions.

N. Y. PHYSICIAN ARRAIGNED AS COUNTERFEITER

Dr. Valentine Gregory Burtain, New York physician, was arraigned yesterday before Federal Judge Charles E. Woodward on charges of conspiring with Henry Dechow, alias Count von Buelow, to dispose of $40,000 in counterfeit $100 bills. He entered a plea of not guilty and the case was set for trial March 29. Dechow will be placed on trial at the same time.

Four Negroes, charged with passing twelve counterfeit $100 bills, were held to the grand jury by United States Commissioner Walker. They are Howard Higgins, Eugene Cummings, Bert Samuels, and Jack Rodgers. Three women, arrested with a number of the bills in their possession, were not held.

According to Assistant United States Attorney James C. Leaton, Higgins said he found 49 of the bills in a package in his barn at 1840 Lake street. He gave the bills to the other defendants, he said, because they were "good friends" and needed money.

AN ADDRESS OF PRESTIGE
at Economy Rentals

Enjoy the advantages of this smart residence . . . charmingly furnished apartments at new economy rentals. Just near enough—and just far enough—from the loop! Treat yourself to freedom from servant problems, taxes and all household bills. One low rental fee covers everything! No extra charge for room service. Maid service daily; 24 hour telephone service.

CHEVROLET
A GENERAL MOTORS VALUE

WORLD'S LOWEST PRICED FULL SIZE SIX CYLINDER CLOSED CARS

COUPE
$445

Coach, $455 . . . Coupe with rumble seat, $475 . . . All prices f. o. b. Flint, Michigan. Special equipment extra. Low delivered prices and easy G. M. A. C. terms.

offering all the quality, dependability, performance and comfort you'd expect from the world's largest builder of automobiles

A NEW AND ADDITIONAL LINE OF CHEVROLET SIXES

Now—for the first time in motor car history, you can buy a full-size six-cylinder coupe for as little as $445! Now—you can also get a big, 5-passenger Chevrolet coach for as little as $455! *The leader has broken all precedent by introducing an additional line of automobiles, the completely new Chevrolet Standard Six: world's lowest priced full-size six-cylinder closed car!*

This new automobile costs considerably less than any other six of its type on the market. Yet it's a *Chevrolet* . . . with everything the name stands for: style . . . comfort . . . reliability . . . performance . . . value . . . leadership! And it sets a new world's record for gas and oil economy.

Like its companion car, the popular Chevrolet Master Six—the new Standard Six has Fisher coachwork . . . Fisher combination wood-and-steel body construction . . . Safety plate glass in the windshield and window ventilators . . . A smooth, spirited, six-cylinder engine . . . A silent second transmission . . . An Octane Selector . . . A rugged, full-size chassis . . . And modern streamlined styling that instantly tells the world: "*This* is a fine, quality automobile."

And indeed it is—every inch and every ounce of it. A *Chevrolet* in basic goodness. A *Chevrolet* in dependability. A *Chevrolet* in engineering and craftsmanship and style! In fact, the *very same factories build the Standard Six that build the Master Six.* The very same machines, too. The same skilled workmen.

Have you seen this new Chevrolet Standard Six? Have you sat in it—driven it—compared the prices? Unless you do these things, you can't possibly appreciate what a wonderful value $445 buys today. A Fisher Body car, a full-size, fast-stepping six—completely worthy of the greatest name in low-price transportation—*CHEVROLET!*

"The newspaper is an institution developed by modern civilization to present the news of the day, to foster commerce and industry, to inform and mold public opinion, and to furnish that check upon government which no constitution has ever been able to provide."

RETRENCHMENT AT SPRINGFIELD.

In the assembly resistance to measures of economy calls for immediate attention from the press and public. There is danger that the economy program will be defeated or frittered away through amendments and delays. Representative Burns' well considered bill for salary reductions which would save the state fifteen million dollars was held up for further consideration by a vote of 71 to 61, in which Republicans and Democrats united. Judge Burns remarks that the motion came from those who stand against any kind of economy and is a hypocritical attempt to prevent a vote.

The exhibition of callous disregard of the taxpayers' plight in the last session of congress created a revolt which ought to be a warning for this legislature. Apparently it is ignored. The press and public of Illinois should make it plain at once that economy is a demand of the people that must be obeyed.

Another important economy bill is presumably also in danger from the tax eaters. It is Senator Graham's bill, senate number 211, which authorizes the governor, members of the cabinet, and elected executives broad powers of reduction in expenses. It would empower them to cut salaries or wages of their staffs without going to the legislature for permission. For example, an administrative official under its provisions could reduce the salary of certain clerks, stenographers, or other help whose pay had been fixed in past appropriations at a certain sum.

This measure is sound in principle. The legislative branch of government may properly fix limits of expenditure, but executive or administrative officials should be always free to reduce expenditure. The system which has grown up in the American states and the federal government is upside down and should be set right now while government extravagance threatens to wreck the country.

Most of the present employés have signed waivers permitting their superiors to reduce their compensations. This is creditable of them, but results in injustice so long as others stand out. In any case the system is wrong and should be righted permanently. Senator Graham's bill will do it and public opinion should not and, we are confident, will not tolerate the evasion or postponement of this urgently needed and entirely sound reform.

Gov. Horner, Representative Burns, Senator Graham, and other members of the assembly who are fighting to relieve the people of Illinois should have the same militant support that President Roosevelt has had and will continue to have for his effort to reduce federal expenditures. They are making a strong fight for the state and the people.

TO SAVE GOOD JUDGES.

Two bills have been introduced in the state house of representatives by Mr. Stuttle and Mr. Adamowski which provide that in elections for Circuit and Superior court judges and Supreme court justices nominees may run on more than one ticket. That is, when a candidate is nominated by more than one party or group his name will appear in each of the columns assigned to the parties or independents which named him.

At present the law forbids the appearance of a name in more than one column and the candidates nominated must elect which nomination to accept. This rule is an obstruction to nonpartisan judicial selection and sometimes endangers the election of desirable men. When the Thompson-Lundin machine attempted to capture the judiciary in Cook, Republican judges out of favor with it were obliged to elect to run in the Democratic column, the Democratic organization with admirable public spirit having nominated them. By coalition of the best elements in both parties good men can sometimes be saved, but it is a complicated method, not as reliable as might be.

The provision in the new bills seems preferable. It will permit parties and independent groups to approve and give their aggregate votes to men who ought to be elected or reelected and diminish if not abolish the danger of their defeat through the mere operation of party voting. There have been too many good candidates, including judges who have proved their fitness by service on the bench, who were swept away by party landslides. Judicial election is not or ought not to be a partisan matter and, until we put it on a nonpartisan basis, permitting candidates to run on more than one ticket seems a step in the right direction.

In the coming election this problem is presented conspicuously. A number of able judges are Republicans and may be defeated if the election goes heavily Democratic. This is far from certain, for our voters in several recent elections have shown a gratifying willingness to vote with discrimination regardless of party columns. Certainly the faithful and competent judges will have strong support by the press, the bar, and the people without respect to party affiliation. But the danger of a party sweep should be eliminated or reduced to a minimum. The simplest means is to pass one of the bills referred to with the emergency clause so that the judges deserving reelection and approved candidates can be nominated by both parties, if both are disposed to do so, and by independent groups, and thus receive all possible votes.

But this should be taken merely as emergency action. As a permanent reform we suggest the law provide that sitting judges running for reelection shall be placed on a special ticket, so designated, the names of incumbents appearing in order of seniority in service. It should also be provided that other nominations, whether by party or independent petition, specify against which incumbent the nomination is made. Thus the opportunity to reward merit would be offered by not opposing fit judges while enabling voters to retire the unfit.

THE NEW FARM RELIEF.

Farmers are in difficulties, as more of them are coming to see every day, largely because of saber-tooth taxation. The low prices which prevail are in part the result of a rate of taxation on farms which has forced the farmers to strain every nerve to grow as much as possible in order to meet their tax bills. Overproduction on the farms, induced by high taxes, has been accompanied by reduced buying power in the cities as the result of industrial stagnation. Here, again, ruinous taxation has been at work with its characteristic results.

The farm bill now pending in congress makes no frontal attack upon this basic cause of the farmers' difficulties. The farmers' taxes will be no less as a result of the passage of the bill and neither will the purchasing power of the cities be increased. The bill will raise the price of foodstuffs by taxing consumers and may be expected to result, therefore, in lessened consumption.

After taxation the chief enemy of farm prosperity has been the farm board. From the day early in 1930 when the farm board started buying wheat at $1.35 a bushel the trend of prices has been steadily downward. The farm board has squandered 350 million dollars of its half billion dollar fund, according to the latest report issued by the new chairman of the board, and the more money it has thrown away the lower prices have fallen.

Now the country is asked to undertake a new plan of farm relief, sponsored by much the same people who expected the farm board plan to work, reinforced with admirers of the soviet régime if not of the new serfdom it has created. Under these circumstances the prospect for the farmers can hardly be regarded as brilliant. A farm plan which ignores and even aggravates the basic causes of the present difficulties of the farmer can hardly prove his salvation. The sharp decline in wheat which has followed the publication of the bill is ominous.

Some hope for the farmer is to be found in the provision permitting the government to lease lands held out of production. A more substantial hope lies in the pledge of the President to regard the new farm bill as an experiment to be discontinued if it fails to work satisfactorily. If that common sense attitude had been adopted toward the farm board 350 million dollars would have been saved to the taxpayers and a lot of grief would have been avoided by the farmers.

NAVY SUBSIDIES TO POLITICS.

Mr. Jahnke, retiring assistant secretary of the navy, as a parting shot recommends the closing of all but five navy yards, three on the east coast and two on the west. He repeats the criticism that the other yards merely subsidize local trade and are used to keep alive various charming communities which have virtually passed out of the economic life of the country. This is not true of Boston. It probably can survive if it loses its navy yard, although the question of whether its continuance is necessary to the well-being of the country can be passed by in silence.

No doubt in both the army and navy the responsible authorities would be very glad to be rid of expenses which bring them criticism, weigh down their budgets, and do no good to the services. It is also true that the existence of these subsidized stations and posts keeps alive a congressional clique which can be manipulated for defense purposes at the price of buying government groceries in the government supported localities. Thus there is a pro-defense party which gets its pay and takes its percentage out of the appropriations for the army and navy department. It's a costly and in the end detrimental support.

Such navy station towns as Portsmouth in New Hampshire and New London in Connecticut are delightful places and the navy appropriations are their life's blood. But as elements in the American navy scheme they and their kind are wasteful nuisances, weighting down the navy budget with unjustifiable expenses. It is difficult enough in these times to support the defense establishment if it is pared down to the indispensable necessities.

The Other Side

A WISCONSIN ENEMY OF THE MISSISSIPPI VALLEY.

[Milwaukee Journal.]

Chicago recently "opened" the lakes-to-gulf canal. It sent the Sea King, a "motor ship"—get the "ship"—down the waterway along with the sewage. This Sea King carried "the first passengers, the first cargo," for delivery to various town bands that came tooting to the banks.

The Sea King, as we see it pictured in the public prints, is about the size of one of those motor boats the children of Wisconsin play with in summer on our inland lakes. At that, it probably is a fair measure of this "seaway's" real commercial significance. The ultimate passenger traffic on this canal is, we think, correctly prognosticated by the three or four men who crowded into the little Sea King. And future cargoes may perhaps be reasonably presaged by the half dozen packages, about the size of cigar boxes, that were "freighted" down the waterway by the Sea King.

All in all, that craft and its trip was something of a mockery as well as a revelation. Is this the concept of the waterway's importance as measured by Chicago? It probably is. Chicago has been under no illusion—it never has been interested in water transportation. It has wanted from the beginning a flow from Lake Michigan to make power for Chicago. It foresaw the end of that flow, if abstracted solely on the claim that it was needed to wash the city's sewage down the Illinois river. It saw the end of Chicago's levying of tolls on all the midwest if the St. Lawrence were opened and the railroad bottleneck at Chicago broken.

So Chicago began to shout: "Waterway!" It began to beat the tom-toms for a "great water route from the lakes to the gulf"; a "great artery to carry the water borne commerce of the inland seas to the port of New Orleans." And now the mighty Sea King wends its way down the frog ditch, distributing boxes of cigars to the yokels who fell for Chicago's propaganda.

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

BEER will be back April 7 and the awful dry nightmare will be over. Thirteen years it lasted! Why did we do it? Nobody knows exactly. There's no particular lesson to be drawn from it. About all we can say is that it proves that nations can be silly at times, even as you and I.

—‡—

THE DRY REIGN OF TERROR will come to an end, but it will be a long time before we get used to the new order of things. Even if the burglars should start a regular fusillade with their guns downstairs we won't call up the police or pay the slightest attention to the terrible tumult—we'll think it's the home brew blowing up again.

—‡—

AND WHEN the hostess brings out real beer at the tea party—it's going to be quite smart to serve real beer instead of tea at the tea parties—you'll forget how things have changed and you'll envy her and start telling how lucky she is to get such nice beer when your bootlegger is always getting into one jail after another.

—‡—

LA BLAGUE MODERNE.

'Tis just as well to dine at home
As 'neath Venetian moons,
So still the feet that learned to roam—
With patriotic tunes.

And wear your fifteen dollar frock—
Let Chanel go unmourned.
'Tis only sinful pride would mock
At beauty unadorned.

Go forth in happy service bound.
Take buses in the rain.
True joy in simple pleasures found—
Tune in Ed Wynn again.

An end to greed and lust of power!
My dear, these charming lies
Will break no bones but bridge the hour
We wait for stocks to rise.

JUDY SHEA.

—‡—

"DICTATOR RULES; Republic Dies in Germany."—Headline. And if you listen intently you will hear a strange, grating, nerve-racking sound in the air. No, it is not static; it is the sound of one laughing long and raucously, and it seems to come from the direction of a secluded neighborhood in Holland where a Mr. William Hohenzollern is industriously sawing wood.

—‡—

A REPUBLIC—such as ours—is not just exactly the form of government Herr Hitler wants right at this time. Herr Hitler's idea of arguing with those who do not see things just as he does is to chuck 'em into jail. In a republic the method of convincing the opposition of the error of its ways is to make speeches at 'em—and yet we admit quite candidly that nobody is ever convinced by argument. It is characteristic of humans that once having taken a position on any subject they can never make themselves admit they were wrong—funny creatures, these humans. So Herr Hitler has apparently decided not to waste time trying.

—‡—

GOOD OLD ENGLISH!

We are apparently beginning to write the native tongue as sloppily as we speak it. I read in one of the local blatts this ingenious little statement:

"The Sumptuous Silk Stocking company has adopted an excellent expedient for the maintenance of employment." Well, that's swell. And maybe it augurs better times . . . but why did the estimable Sumptuous sock people have to adopt an expedient? Couldn't they try a plan, perhaps? Or was it an eleemosynary touch, their going to some institution for illegitimate and foundling expedients, and—maugre the bar sinister—adopting it and taking it into the Sumptuous family as one of their very own? Or is our language as inept as our thinking?

DIEGO ARBORS.

—‡—

WE WONDERED when we read that, if our old favorite S. S. Van Dine—who kept most of us guessing who killed the old man, the beautiful society debutante, the kind hearted family doctor and the plumber until the very last page of the very last chapter—isn't something of a philosopher as well as a thriller writer. In his introduction to a new book, "The Mystery Puzzle Book," he says: "It [the new book] has helped me to forget *pro tempore* the vicissitudes of the present great epochal world change which we euphemistically call a 'depression.'" We rather think after reading that sentence that Mr. Van Dine might spend his time to his and our advantage by giving us some meditations on this "great epochal world change" instead of making us think for twenty chapters that it was the janitor who committed the murder when it was in reality the maiden aunt.

MY CITY.

(Dedicated to Miss Jane Addams.)

They say my City is a den of lies,
A haunt of sin, of greed-born poverty;
But I who by my dreams am foolish-wise
Know that they lie—who blinded, do not see
The visions that enchant the hearts of men
Who daily walk these streets; the dream, of good
That lure; the hopes—that fade, to flame again;
The steadfast will-to-do; the brotherhood
Of mind and heart that waxes with the years
Of this our Town. Let them who will despair;
Let them be cynic-wise. I flout their fears
With prophet-visions of a City Fair
That yet shall be; a City that shall shine
Around the world—a great and noble Shrine.

THOMAS CURTIS CLARK.

A PROFESSOR at Columbia university says mankind will be completely bald by the time it gets to the year 2500 unless it quits getting its hair cut. For haircutting weakens the scalp and causes the hair to fall out. But no matter. A lot of us are going to be bald long before 2500 if they don't stop this jigsaw puzzle game pretty soon.

R. H. L.

How to Keep Well By Dr. W. A. Evans

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when return stamped envelope is inclosed. Dr. Evans will not make diagnoses or prescribe for individual disease.

LEG CRAMPS.

ONE of the most frequent complaints registered by old people in winter is leg cramps. While it is regarded as an old people's winter complaint, it is encountered by many who do not regard themselves as senile. And some have it when the weather is not so very cold.

This form of cramps in the legs is a distant relation to intermittent claudication and Buerger's disease. In the more serious members of the family proper examination shows that the blood vessels below the knees are not carrying as much blood as the muscles require. In some cases this is because the vessels have very much thickened walls and the carrying capacity is reduced. In other cases there is a contraction of the muscles of the small vessel walls due to some vasomotor disturbance, and, by reason of this contraction, the vessels are incapable of carrying all the blood needed.

There are tests by which it can be decided whether the shortage of blood in a given case is due to one cause or to the other. It is not customary to make these tests in leg cramps. The disorder may be very uncomfortable and disturbing, but it is not advisable to take it too seriously. Were tests made they would doubtless show that in leg cramps an unsatisfactory amount of blood is flowing to the feet and legs. The muscles know that the well known remedy for chilblains is shivering. Shivering is caused by muscular contraction. It burns up a lot of sugar and other stored material, makes a lot of heat, and then distributes it all over the body. Leg cramps is a cousin to shivering. In shivering the muscles rapidly alternate between contraction and relaxation. In leg cramps they contract and hold on.

When the feet get cold, especially in bed at night, the leg muscles decide to apply the shivering, or rather the cramp cure.

There is a multitude of leg cramp cures, each attested by the experience of honest people. As a rule, the simplest and the best cure is to take precautions to keep the feet warm at night. This can be done by wearing flannelette pajamas and warm night socks. A good sleeping bag will do. There are pajamas made with a foot piece. Of course, patients have long recognized the advantages of such night wear for children. Adults subject to leg cramps at night will do well to adopt the children's style of night wear.

In many cases an extra blanket on the bed suffices. Sometimes it is advisable to sleep in a buttoned-in bed. The use of foot warmers, electric heating pads, hot bricks, hot water bottles is advisable if we can be certain they will keep warm through the night.

When an attack wakes one relief generally comes on getting out of bed and standing or walking around a little.

CRAMPS IN LEGS.

J. B. H. writes: What is the cause of leg cramps at night? I am 65 years old and sleep fairly well at night, but about 2 a. m. I have an attack of cramps in the legs and feet to such an extent that I have to get up and walk around for about ten minutes. Why is this?

REPLY.

Since nearly every one of your age has leg cramps I thank you for an opportunity for a collective answer.

The ultimate cause is a thickening and stiffening of the walls of the blood vessels of the legs. The exciting cause is cold feet.

The remedy is to "sleep warmer." Warm bedding, especially on your feet and legs, should prove helpful.

For immediate relief get out of bed and walk around a little. Or simply stand for a few minutes.

CAUSE OF SCURVY.

E. I. F. writes: Will you please write o the subject of scurvy, its cause and treatment? Is it caused by sluggish liver, acid stomach, or constipation?

REPLY.

Scurvy is due to a deficiency of vitamin C in the food. This vitamin is most abundant in fresh fruits and fresh, young vegetables. This is the scurvy season. It can be prevented now by a diet rich in fruits and vegetables. Presently nature will supply an abundance of the best scurvy cure—early spring garden stuff.

Constipation, sluggish liver, and acid stomach may contribute to scurvy but no more than indirectly.

SULPHUR OINTMENT.

Mrs. M. G. writes: What is the cure for scabies?

REPLY.

Sulphur ointment. The penetrating varieties are best. Half way measures are apt to fail.

BOND FOR CONSERVATRIX.

Chicago, March 19.—[Legal Friend of the People.]—When one is appointed conservatrix of the estate and personal belongings, such as a bank account, of an incompetent party, when placed under bond [1] should this bond include the real estate or only the personal belongings? The real estate in question is very small and has an income of only $18 per month. The bond costs almost twice this amount each year, which, with the repairs and taxes on this property, leaves very little income for the support of the incompetent party. 2. Your advice would be greatly appreciated. A. E.

1. The statute specifies that the bond shall be double the personal estate and six times the annual income of the real estate. 2. See 1.

TRIBUNE LAW DEPARTMENT.

EXECUTRIX OF ESTATE.

Chicago, March 19.—[Legal Friend of the People.]—A father of a family died, leaving his entire estate to his wife, the head of a large family. The mother died and in her will made her oldest daughter executrix of [1] the estate. The oldest daughter died and [2] made her oldest sister executrix. That was twenty years ago. Despite the protests of the other members of the family the executrix charges 5½ per cent for handling all the money derived from the estate and dividing it pro rata among the other members of the family. 3. Does the appointment of an executrix in a will mean a lifetime job or is there a time limit prescribed by law? J. E. N.

1. We assume that you mean executrix of the mother's estate.

2. She would have no power to specify who should be her successor as executrix of her mother's estate, but she could name an executrix for her own estate, including what she had inherited.

3. We cannot construe the will without having its wording before us. In general, if the will merely provides for an executrix as distinguished from a trustee then the matter should be closed in about a year.

TRIBUNE LAW DEPARTMENT.

FROM THE TRIBUNE'S COLUMNS

16 YEARS AGO TODAY

MARCH 23, 1917.

LONDON.—The American steamer Healdton was sunk on March 21 without warning by a German submarine and twenty-one of the crew perished. The attack occurred off Terschelling, Holland, and seventeen of the survivors have been landed on the Dutch coast. The news of this latest disaster to American shipping was sent here from Amsterdam to the Central News and later was verified in a report from American Consul Muchie at Amsterdam, who sent an official report to Ambassador Page to be transmitted to Washington. Following so closely on the sinking of the three American ships, the Vigilancia, the City of Memphis, and the Illinois, the opinion is freely expressed here that Germany intends to make no distinction between neutral and belligerent ships sighted traversing either the open or forbidden zones. In political quarters it is declared that the "overt act" which the United States has been expecting and for which it has been preparing has come to pass.

WASHINGTON, D. C.—After declaring that mediation of the dispute with Germany would not be entertained unless the Berlin government first abandons ruthless submarine warfare, the administration took further steps in preparation for war. Secretary of War Baker issued a call for a joint meeting of the council of national defense and its advisory committee. Telegrams were sent to Julius Rosenwald and Dr. Franklin H. Martin of Chicago, members of the advisory commission, urging them to be present for the consideration of plans of the utmost importance. From official sources the information is obtained that the President has instructed Secretary Baker, chairman of the council of national defense, to initiate action by the joint bodies on plans for the production of arms and equipment for an army of 500,000 men.

LONDON.—While the French and the British forces in France made considerable progress along the front from Arras to the Aisne, it is evident from all reports that the Germans are now standing on the Hindenburg line with every intention of holding it. From the region of St. Quentin to the Oise the French encountered marked resistance and were able to press forward only after spirited engagements. North of Tergnier the French troops enlarged their positions east of the St. Quentin canal, driving the enemy from several important defensive positions. North of Soissons they occupied several villages in the face of strong opposition.

OTHER WAR NEWS.—Berlin claims and Petrograd admits the success of a German advance in the Beresina river region, east of Lida. Russian troops continued to advance against the Turks in Persia, Petrograd reports. Britain is to take further drastic action to conserve food; "meatless" days in hotels and restaurants are provided.

NEW YORK.—Fifteen thousand people, pledging in favor of America entering the war against Germany, cheered their way with passionate enthusiasm tonight through a "defy no more" massmeeting held in Madison Square Garden, under the auspices of forty-two patriotic and civic organizations and college clubs. Throughout addresses by former Senator Elihu Root, President John Grier Hibben of Princeton, Charles H. Fairchild secretary of the treasury under Cleveland; George Wharton Pepper of Philadelphia, and Mayor Mitchel, four declarations were reiterated and greeted each time with a higher pitch of approval. These were the declarations That war is now being waged against the United States. That the United States should wage war against Germany in return. A war should be waged on the side of the allies. That American soldiers should be sent "to the Von Hindenburg line in France."

JOURNEY'S END

[Glasgow Record.]

Our ambassador in Washington, Sir Ronald Lindsay, believes that debt difficulties between Britain and America can be overcome by proceeding "straight down the middle of the road."

VOICE OF THE PEOPLE

Writers should confine themselves to 200 or 300 words. Give full names and addresses. No manuscripts can be returned. Address Voice of the People, The Tribune.

THE SALOON.

Chicago, March 19.—It is a rather widespread conception that the saloon shall or should not come back and a saloon is conceived always as a public place where beer is dispensed. A respectably conducted public beer dispensary has in America always been called a "saloon"; in England it is called a tavern or inn; in Germany it is a wirthschaft or kneipe or even rathskeller. Why then should not the saloon come back if it is conducted in a dignified and respectable manner inviting to social gatherings?

It is true the old time saloon had its abuses which will in future not be permitted, but why do away with the time honored name "saloon"? Does the name sound obnoxious to the ocean voyager who finds on every liner the designation "saloon" as the one public place designated for the passengers to gather? Why should it then be an obnoxious term when applied to the American tavern or inn? Is not the French "salon" from which "saloon" is derived the social gathering place of the intellectual élite?

Let us by all means have the courage to call a spade a spade, a saloon a saloon, a brewery a brewery, and not be so hypocritical about it as to try to invent meaningless names for any of these such as, for instance, beverage fountain, beverage dispensary, and what not. Let us with the oncoming real beer get back to normal.

Recently it was reported that the graduating class of brewers of the Wahl-Henius institute were told by its president that the saloon must not come back, that Chicago has 20,000 places where beer can be sold: groceries, drug stores, beverage fountains, restaurants, etc., and that the saloon would be unnecessary and unwelcome as a beer dispensary. Is it then that these places shall be considered as having importance simply because they offer the opportunity of obtaining beer or drinking it on the premises? What a mistaken idea. The saloon, tavern, inn, ratskeller, beer-hall are, like the ocean liner saloon or the French salon, meeting places for innocent amusement and social enjoyment with oftentimes the main object of offering the milieu or atmosphere for a circle of congenial people to meet. It is in the furtherance of sociability with its concomitant furtherance of the spirit of "good will to all and malice to none." That is the importance of these places, not the consumption of beer or the facility of dispensing beer.

No, I am not connected any more with the Wahl-Henius institute. If I were, such addresses to parting graduates certainly would not be sanctioned or permitted by me as founder and as president of the Wahl-Henius institute from 1886 to 1918. DR. ROBERT WAHL.

AN EARLY ADJOURNMENT.

Peoria, Ill., March 13.—For some weeks past the Illinois legislators have been in session, and during their tenure have performed the two constructive public services that are necessary for present conditions. They have repealed the search and seizure act and they have indorsed a program of economy that gives the governor a splendid opportunity to place the cost of state government at a figure that will effect a saving to Illinois taxpayers.

Would it not be well to adjourn the legislature now? L. E. ROARK.
Secretary, Peoria Manufacturers and Merchants' Association.

COMMENTS ON A CONGRESSMAN.

Joliet, Ill., March 16.—Just how long are the people of the 11th congressional district, Will, Du Page, Kane, and McHenry counties, going to put up with that counterfeit congressman, Frank R. Reid of Aurora, as the representative [so-called] of this district at Washington?

Despite the fact that he has been elected at least three times from this district I contend that since he went to Washington the majority of the people of this great district have had no representative there. He has been a puppet of organized and oftentimes dangerous minorities. He has voted the dictates, in most instances when he has voted at all, of organizations like the W. C. T. U., the Anti-Saloon league, and their ilk. He has played politics with the happiness and well-being of the people of this district and this nation.

Before the last election his opponent pointed out in advertisements in the newspapers that Mr. Reid had voted on less than half of the bills that had been presented at the previous session of congress, and, to my knowledge, Mr. Reid never denied this and had the effrontery not even to make any explanation. The last "lame duck" session and the present emergency session of congress are glowing examples of the ineptness, incompetence, double dealing, and shameful misrepresenation that have characterized Mr. Reid's congressional incumbency. Still he draws $10,000 a year to be our representative, submits nice, fat expense statements in addition, and is alleged to have a son and daughter attending the University of Illinois on the federal pay roll.

Let us not forget Mr. Reid the next time he comes before the voters of this district—that is, if he has the temerity and gall to come again before us.

JAMES C. BELL.

GAS BILLS.

Chicago, March 16.—Every time I get a gas bill I think of those wonderful headlines about a year ago: "Gas Company to Reduce Rates," "Millions to Be Saved by the Consumer."

My bills have gone up since the rates were reduced. What is the matter with our Illinois commerce commission? Why have they not spoken?

WALTER KLEIN.

MORE SERIOUS INJURY.

Chicago, March 20.—The farm board bill went through without any particular opposition because the people did not know much about it. It did fail to relieve the farmers and did relieve the taxpayers of about half a billion dollars, besides damaging farm markets. The farmers lost over a billion dollars in decreased prices of farm commodities.

If this new bill, drawn by an apostle of soviet Russia, goes through we will suffer even more serious injury.

WAYNE DINSMORE,
Secretary, Horse Association of America.

MUSIC FOR ST. PATRICK'S DAY.

Chicago, March 19.—Please accept the sincere thanks of an agreeably surprised radio listener who found such delightful Celtic music pouring forth from W-G-N on St. Patrick's day, putting to shame the puny efforts of countless other stations, one in raucous voice particularly, whose best performances consisted of tin pan alley bleatings. Congratulations!

JOHN J. DUFFY.

Orchid Hunter Bares Thrills Met in Jungle

Tells of $10,000 Received for One Specimen.

New York, March 22.—(AP)—The crowds at the flower show cluster around the orchids and exclaim over their beauty but they overlook a gentle old man of 71 who sits in a nearby wicker chair and placidly smokes a pipe.

How should they know John E. Lager of Summit, N. J., for a mighty orchid hunter who has faced death and tropic terrors to gather the exhibit which won first prize?

No one would fancy that once, in a South American jungle, he looked into an orchid plant in his hand and saw the beady eyes of a deadly red coral snake.

The plant was a marvelous specimen which had just been handed to him by a native who carried it on his bare back three toilsome days through the jungle.

The natives climbed trees while Lager teased the snake out and killed him to retrieve the plant.

Lager made three expeditions to South America and stayed three years on one of them.

"I took my first stage of the journey on the back of a native," he reminisced. "I built rafts for the rivers, built my shelters near the streams and established my base just like any other explorer. At times the Indians shot at us with poison arrows."

But one day Lager was rewarded. In the foothills of the Andes he found an orchid he couldn't classify. He dried it, brought it back to Summit, nailed it on a board and watered and tended it. In time it flowered into a "gigas alba," the rarest white orchid. Lager sold it to an international commercial grower in Europe for $10,000.

The collector said the greatest sight he ever saw was at La Vega when he came upon a number of treeless grassy hills completely covered with the "sobralia violacea" in full bloom.

"The show began at sunrise," he said, "and lasted throughout the day. At sunset the flowers had withered and drooped. Next morning the display was renewed."

Mrs. Sarah Falter Is 90; Anxious to Enjoy World's Fair

Life begins at 90 as far as Mrs. Sarah Falter is concerned. Mrs. Falter, who lives at the Fairfax hotel, celebrated her 90th birthday yesterday as just one more event in a busy life.

Friends and relatives gathered at an informal open house last evening and listened again to her tales of civil war days when she organized a company of volunteers in New York, when a regiment of federal troops serenaded her with "The Star Spangled Banner," and when she was introduced to Abraham Lincoln just before he was President. She also told of her presence at President McKinley's assassination and her audience with Mrs. Theodore Roosevelt.

Mrs. Falter thinks she is going to have an unusually good time this summer attending A Century of Progress. She wants to see, too, how it compares with other fairs for she has visited every one since the Centennial at Philadelphia in 1876.

Mrs. Mathilda Alteimer, who also lives in the Fairfax, observed her 90th birthday last Sunday. She speaks several languages and a year ago published a volume of her own poems.

French Actor Has Difficulty with a Song

BY GEORGE SHAFFER.

[Chicago Tribune Press Service.]

Hollywood, Cal., March 22.—[Special.]—It took diplomacy and psychology to get a sound recording of Henri Garat's first song in English. Now the Fox studio hopes it will prove a high spot in the Garat-Janet Gaynor picture, "Adorable."

The French romantic actor still speaks English with an accent. When assigned the love song to sing to Janet he approached the scene with trepidation, being afraid his tongue would trip and make a laugh out of a tender sequence.

Accordingly Garat, a piano player, and Richard Whiting, the composer, went through the song three times until it seemed perfect.

Then came the big scene, with Janet, an orchestra of sixty pieces massed behind Musical Director Louis de Francesco, dozens of spotlights, and half a dozen sound cameras ready to go. Perspiration stood on the actor's forehead. They rehearsed it three times. On the third, unknown to Garat, the cameras ground. Then William Dieterle, the director, had it played back.

"Gee," said Garat, who learns Hollywood English fast, "that's lousy."

Whiting, Dieterle, and De Francesco looked sad and said yes.

"Well, I do it again," said the Frenchman. "This time I make it a good one. If I can't sing any better than that I should go home." He sang it again. This time the young Frenchman's personality flavored the song and the grips and camera men and prop boys liked it enough to give him a hand clap. "Pooh," said Henri, "that's nothing. I sing it again." He did and the studio now knows it was good. The name of the song number is "My First Love Go Last."

Ricardo Cortez, who was withdrawn from "Dead on Arrival," because of a relapse from flu, starts April 10 with Stu Erwin and Carole Lombard in "Gambling Ship."

Jimmy Cagney is taking singing lessons. Not because he wants to be a singer, but for voice culture, to help get away from his run of tough mugg rôles.

Booklet Helps Parents Answer Child's Queries

Gives Practical Reading References.

BY GLADYS HUNTINGTON BEVANS.

Are these some of the questions you are asking yourself or would like to ask me? I receive so many of them that I know there are at least as many that never get written down and put into an envelope and mailed.

How shall I answer my little boy's questions about where babies come from?

How shall I gradually meet in a satisfactory way the questions my little girl asks me about the puppies and kittens our neighbors' animals have just had?

Our group had a discussion for and against early sex education in the home. Have you any reading suggestions that would help to clarify our ideas? . .

My nieces [or my grandchildren] are staying with me. They are 10 and 12 years old and know nothing they should know about the reproduction of human life. They know about seeds and flowers and some of the lower forms. I think they should know the whole story even including the parts parents find difficult to explain. Is there any book we could read together?

Is there anything on sex education for the older adolescent whose education has been neglected in this direction?

These are typical of the questions that arise every day in one family or another. They are answered in our "Sex Education" booklet, which will be sent on receipt of a stamped, self-addressed envelope.

As I have not time to write full booklets like the "Obedience" booklet on each of these subjects, I have had to meet these requests for help in a different way. First, I collected a mass of brief authoritative literature on sex education. From this I selected the best on each phase of the subject for parents and children. These I listed with a brief introduction, a short description of each pamphlet or book to enable people to make an intelligent choice, and the price and place of publication.

The whole, known as our "Sex Education" booklet, has been of great help to many parents, churches, study groups, and institutions.

Baron Sardi, Fair Commissioner, Guest of Italian Society

A Century of Progress dinner and reception for Baron Alexander Sardi di Revisondoli, Italian commissioner to the World's Fair, was given last night in the Belden-Stratford hotel by the Dante Alighieri society, composed of Italians and Americans interested in promoting Italian culture. The guest was introduced by Dr. Italo Volini, president of the society. Other guests were Mr. and Mrs. Rufus Dawes, Giuseppe Castruccio, Italian consul; Vice Consul Antonio Ferme and Mrs. Ferme, Mrs. Mario Adrogna, vice president of the society; Mrs. Edward Leight, and Augustus Peabody.

A site for the official Irish Free State exhibit at A Century of Progress will be selected this afternoon by Daniel J. McGrath, consul for the Irish Free State, following a noon luncheon in the trustees' room in the Administration building.

Fabric Contrast Seen in Smartest Spring Dresses

GIRL'S DRESS.

Two different fabrics are used on grownups' dresses, and on the young girls' also, and the effect is charming. .. yellow and brown plaided lightweight wool or cotton combined with plain brown will make a smart spring dress for school wear.

The pattern, No. 3421, comes in sizes 8, 10, 12, and 14 years. Size 8 requires 1¼ yards of 39 inch material with 1 yard of 35 inch contrasting and ⅝ yard of 2½ inch wide ribbon for the bow.

How to Order Clotilde Patterns.

Write your name and address plainly on dotted lines, giving number and size of such patterns as you want. Inclose 10 cents in stamps or coin [coin preferred; wrap it carefully] for each number, and address your order to Clotilde Patterns, Chicago Tribune, P. O. Box 537, Grand Central station, New York City.

Note—Clotilde patterns are made in New York exclusively for THE CHICAGO DAILY TRIBUNE. They are perfect in fit, up to date in style, and the easiest of all patterns to use.

Public Helps Pick Paintings for Fair Show

All-Illinois Society Holds Two Exhibitions.

BY ELEANOR JEWETT.

The All-Illinois Society of the Fine Arts has opened in the Stevens hotel its preview of the paintings which will make up its Century of Progress exhibition. The public will do a good part of the selecting. Each visitor is given a ballot with the titles of all the paintings followed by two columns, a yes column and a no column. The artists' names are purposely left out so that the chance of prejudice is lessened.

The "no's" will be rejected and the "yes" pictures will be retained. This conclusion will be finally determined after the action of a jury appointed by the painter members of the society, a jury of which two members are Adam Emory Albright and C. J. Bulliet.

There are many portraits in the exhibit, many flower studies, and many landscapes. The water color section is diversified and large. From a careful survey of the work it may be easily presaged that the surviving canvases will make an excellent showing.

Meanwhile the All-Illinois is sponsoring another exhibit in the Florentine parlor, Congress hotel. There has recently opened there an exhibition of paintings by Florence Furst. Mrs. Furst is a talented painter with a finely developed technique. Her work is among the most interesting and beautiful seen in some time. The portrait of a girl in white, "Waiting," is a superb canvas. Another effective portrait is the large, full length of the Spanish dancer, Paquita Diaz.

Turning to the still life arrangements, one is met by beauty and gorgeous texture. Mrs. Furst's sense of composition is a keen joy. The "In Conrad's Studio, Paris" is a canvas to be admired in any company. The "Young Autumn" and "Arrangement in Gold and White" are stunning. In the landscapes, too, one feels her unfailing flair for color They have atmosphere and charm and beauty.

Ralph Bellamy in City for Visit of One Day

(Picture on back page.)

Ralph Bellamy, one of Chicago's contributions to Hollywood, arrived here yesterday with Mrs. Bellamy, the former Catherine Willard of the stage. They will leave today for Cincinnati. The actor, a former Wilmette boy, is a son of Rexford Bellamy, an advertising executive. He was a student at New Trier High school and began his stage career with the North Shore Players.

Film Time Table

Feature pictures are scheduled as follows at first run houses today:

CHICAGO—A. M.: 10:40, P. M.: 12:55, 3:40, 5:35, 8, 10:30.

McVICKER'S—A. M.: 9:05, 11, P. M.: 12:55, 2:50, 4:55, 6:40, 8:35, 10:30.

ORIENTAL—A. M.: 9:15, 11:10. P. M.: 1:05, 3, 4:55, 6:50, 8:45, 10:40.

PALACE—A. M.: 11, P. M.: 2:04, 5:08, 8:12, 11:16.

PUNCH AND JUDY—P. M.: 12:36, 2:22, 4:08, 5:54, 7:40, 9:26.

ROOSEVELT—A. M.: 9:15, 11:05, P. M.: 1, 2:50, 4:40, 6:30, 8:20, 10:15.

Plan Your Own Color Scheme in New Clothes

Fashion Reporter Suggests Some Combinations.

BY RHEA SEEGER

After a few assorted fashion shows, it gradually dawns on the mind of even the most frenzied female, that checks have completely covered the fashion spotlight. Every good looking suit coat, frock, or collection of costume accessories, has been checked into circulation.

Tiny gingham printed checks line the knee length coat of navy, blue, brown and black thin wool two piece costumes.

Brief blouses also of gingham checked cotton are worn under dark toned street suits.

Checked dresses are legion, and the big black and white and other "white and" combinations of wool fashion some of the most spectacularly stunning swagger suits of the season.

However, there are a few shoppers who have in other years and in other ways, had a surfeit of checks . . . checks seem to give them the jitters and so they hunt for something equally diverting and eye filling, and gleefully discover the grand and merry game of contrast.

What a clever clothes collector can accomplish with colors is almost unbelievable . . . and it's certainly worth any one's time to start this fascinating shopping recreation.

For instance . . . find your frock, then use your ingenuity and watch the envious sister shoppers squirm until they find out where you "bought it all." One good start is with a ginger brown dress. Then, instead of being unoriginal and mating it to commonplace beige or deep brown, get your shoulders inside a jacket of burnt orange, tie an almond green ascot scarf around your neck, wear brown gloves, and orange hat, and listen for comments.

If you have a weakness for gray, indulge it with a glamorous trailing evening gown of smoky gray chiffon . . . the lower circular skirt section that extends to the hip line is of dark gray, the softly draped upper half is of pearly gray and the long, wide sash that ties around the waist is of a startling shade of vermilion.

Try deep imperial yellow with slashes of clear crimson, a yellow dance frock, caped with a roman striped silk cape, breezily eye catching with rows of jade green, crimson, royal blue and chartreuse. Or midnight blue, accented with slippers, and chiffon kerchief of grape green. Or try your yellow tweeds with a purple silk blouse, a purple hat and handbag . . . or a brown wool suit, that uses a lipstick red tunic blouse for a knockout contrast.

The new string color that is featured in so many of the knitted dresses is perfect with sleek black contrasts, or dark green the color of gardenia leaves. Try navy blue, with rose-pink lavender, one of the best French color combinations known to clever color enthusiasts. French blue, splashed against the right shade of scarlet is as arresting as it is military . . . and a vivid shade of royal blue combines with oyster white most effectively. All shades of blue can be contrasted with a watery green or mauve for something as different as it is distinctive.

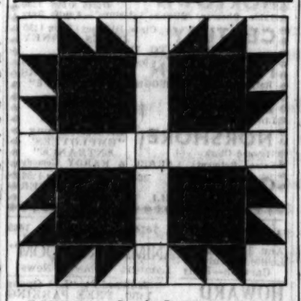
This is the spring you air your talents for color combining. Besides being a fascinating occupation, it will enable you to assemble a wardrobe that advertises your flair for distinctive clothes with color and contrast.

Rothschild Gives Noted Autographs to France

[Copyright: 1933: By the New York Times.]

PARIS, March 22.—Baron Henri de Rothschild today signed documents donating to the French National library his collection of autographs, which is the most important private collection relating to French history in existence. Consisting of more than 5,000 documents dating from the fourteenth century, the collection represents a work to which the baron has devoted much of his time for some fifty years.

A Romance of Early Kansas Named a Quilt



Bear's Paw.

BY NANCY CABOT.

Though this design originated as the "Hand of Friendship" among the Quakers in Pennsylvania, it came by its present name through a romantic episode of the Kansas prairies. During pioneer days in Kansas, so the story goes, a young man went to propose to a young woman, having sent word of his mission in advance. Thinking of nothing but his intended, he left his rifle at home. On the way he was attacked by a black bear and was forced to take refuge in a tree until nightfall. The young woman was so upset over his absence that he found her in tears when he arrived. So the quilt she was making at the time of the incident was renamed "Bear's Paw."

For a quilt pattern of this design, send five cents in stamps or coin to Nancy Cabot, Chicago Tribune, printing your name and address clearly. Or call at the Tribune Public Service Office, One South Dearborn street.

Heads Benefit Ball

[De Dou Ceramic Photo.]

Mrs. Robert E. Cantwell Jr. is co-chairman with Mrs. Harold A. Davis of the committee arranging a charity ball for April 21 to benefit the Infant Welfare society. The Oak Park Juniors and the Junior Auxiliary of the Infant Welfare are giving the affair, which will be held at the Drake hotel.

Rounded Toes Feature Spring Shoes in Paris

Lower Heels Are Another Fashion Trend.

PARIS, March 22.—(AP)—Lower heels, more rounded toes, fitted insteps, and narrow lasts mark the shoes for wear with the new Easter ensembles featured in style shows here.

Dark blue, gray, and beige kid and antelope to match navy, gray, and beige costumes are the favorite materials.

Oxblood red is shown for the woman who wants something different, while black and brown are ready for the more conservative.

"Comfort and lightness are the rule," says one shoe designer who ships to many American houses.

Here are some of the outstanding points of the new shoes for 1933:

Throats are higher than last season, generally fitting well up over the instep.

Trims and pipings of contrasting colors and leather are widely used.

Heels are sometimes made of darker and different leather than the body of the shoe.

Pin tucks and perforations are smart trimming notes.

Fabric shoes promise to be popular for late spring and summer wear. Black, white, and gray linen shoes to accompany linen ensembles during hot days in town and cotton shoes to match cotton ensembles are shown. Many of them are trimmed with a touch of bright color to recall the accessories which accompany the costume.

For evening wear crêpe and satin slippers are supreme. They are less cut out at the sole and the heels are more slender than last season. Sometimes they match the color of the frock; again they reflect the hue of the wrap or accessories.

A white organdy dancing frock with a cluster of blue violets caught at the waistline is worn with slippers of blue violet crêpe, while a dinner gown of geranium red crêpe is completed by slippers of the same brilliant hue.

Northwestern Will Recruit New Class of Student Prodigies

Northwestern university will recruit a new class of prodigies for next fall as a result of the successful class work of six precocious students who enrolled in the freshman class last fall, it was announced yesterday by President Walter Dill Scott.

The four boys and two girls who entered the university last September ranged in age from 13 to 15 years, were high school graduates, and fulfilled all of the university's entrance requirements. They are under special supervision of a faculty committee.

"All members of the group are succeeding in their academic work," said Dr. Scott. "Their scholarship is considerably above the freshman average. They are taking part in many activities and are enjoying their college life immensely."

High school principals are being asked to recommend likely candidates.

Aid Maternity Center..

A fourth club working for the maintenance of the Chicago Maternity center, Maxwell street and Newberry avenue, has been organized among the Greek women of the city. Dr. A. Marantis is the temporary chairman.

Miss 1934

Ethel Hampton was chosen to represent the beauty trend of American women at the convention of beauty shop owners in New York. She is 20 years old, weighs 115 pounds, is 5 feet 5 inches tall, and has hazel eyes and auburn hair. Her bust measurement is 33 inches, the waist 25, and the hips 35 inches. [Acme Photo.]

Mussolini Will Appear in New Film About Italy

Hollywood, Cal., March 22.—(AP)—Plans were announced today for a motion picture depicting about 100 years of Italian history in which Premier Benito Mussolini will appear in some of the epochal events of Italian life under his leadership.

WHERE TO BUY IT

You can find out where to purchase wearing apparel, home furnishings, and other new things described in the women's feature pages of THE CHICAGO TRIBUNE—if mentioned as being on sale in Chicago—by calling the

or writing to the Shopping Adviser at One South Dearborn street.

Ruth Sherrill to Be Bride of Arthur Hellyer

Wedding to Be Saturday at Paducah.

BY JUDITH CASS.

A VERY quiet wedding of interest to Chicagoans that will take place in Paducah on Saturday will be that of Miss Ruth Sherrill of the Kentucky city and Arthur Bidwell Hellyer, son of Mr. and Mrs. Arthur Tirrell Hellyer of Riverside. No announcement of the engagement had been made and it was only yesterday that announcement of the forthcoming marriage was made by the sister of the bride-to-be, Mrs. Gordon Gould of Riverside.

Mrs. Gould and the bridegroom-to-be left yesterday for Paducah and Mr. and Mrs. Hellyer and their youngest son, Jack, and Mr. Hellyer's brother and his wife, Mr. and Mrs. Walter Hellyer, and Mr. and Mrs. George M. Silverthorne will go south today to be present at the ceremony. Mrs. Silverthorne is the former Edith Hellyer and is an aunt of Saturday's bridegroom.

Walter Hellyer will sail early next month to spend four months in Japan, where the family has its vast tea plantations. The Frederick Hellyers [he is another son of the Arthur Hellyers and she is the daughter of Mrs. Louis Louer of Chicago], who live for half of each year in Japan, are on their way there now after having spent the winter in Nice.

Mr. and Mrs. Arthur B. Hellyer are to live in Chicago, at the Whitehall, upon their return from a wedding journey.

Pons Concert to Aid Clinic.

Members of the Women's Faculty club of Northwestern university medical school are determined that every box in the Auditorium theater on the night of April 3 will be filled, for it is from the sale of boxes for the Lily Pons concert on that night that the club hopes to raise enough money to make a substantial contribution to the budget of the Northwestern university medical clinic.

The club will receive something from the sale of the tickets it disposes of, too, but it is from the sale of the boxes that it anticipates the most revenue. Plans for the benefit were discussed yesterday at a delightful luncheon given at the Drake hotel by some of the women in charge, and, although there was much conversation about plans for disposing of the boxes and other seats, there was much, too, of the glamorous coloratura, who is to give the program that night.

"Will she bring Ita?" asked one inquiring reporter. "Who is Ita?" queried another and some one answered both by saying, "Yes, she always travels with her pet jaguar, Ita." "Will she wear her 'Lakme' costume?" questioned some one else, and that reply was negative, although it was suggested that there would be no trouble in selling every seat, including the top row of the gallery, if it were advertised that the lovely creature would sing the Bell song from "Lakme" in the scanty costume she wears when she sings the leading rôle of that opera.

One hundred and twenty thousand patients visited the clinic, which is the only unendowed one in Chicago, last year, and unless financial help is forthcoming the clinic will not be able to care for so many this year. Mrs. Loyal Davis is president of the Women's Faculty club, Mrs. Alexander A. Day is vice president, Mrs. Gilbert H. Marquardt recording secretary, and Mrs. J. Roscoe Miller corresponding secretary. They were all at the luncheon yesterday and also Mrs. Harry Richter, Mrs. William Stuart

The Changeling Bride

By Martha Ostenso

SYNOPSIS.

The Hendersons, Meryl and Margaret, sisters; Flint, their older brother, and Andrew, the father, have lived for twelve years in poverty in a fishing settlement on the shores of Lake Superior, after losing their fortune in Chicago. Andrew went to pieces after the death of his wife. Great-Aunt Letitia, formerly dean of a girls' school in Ohio, is the liaison between the Hendersons and a cultured past. Flint and his friend Ned Bremser, hope to build up a great export business. Ned is in love with Meryl, but she dreams of a better future. A forest fire brings Blake Lawrence, injured and lost, to the Henderson cottage. There were two great names in nearby Agate Bay and its environs—Lawrence and Greer. Blake is in love with Greer's wife, Christina, and is glad to have two weeks in seclusion with the Hendersons while his broken ankle mends. Meryl falls in love with Blake, who is fond of her, though still enamored of Christine.

INSTALLMENT X.

A MEANS OF ESCAPE.

Blake did not see Meryl slip out of the house as soon as they rose from the table. He seemed only to know suddenly that she was gone, and that his perplexing uneasiness remained with him.

Meryl walked along the southern shore of the point where it curved inward to make a sheltered cove. But even here the wind, which was increasing in violence, swooped down and clawed at the water, and flung spray like white pebbles against the blackened rocks. Gulls wheeled and screamed in fury. Above the shore, the naked branches of an ancient oak scraped together with a sound infinitely bleak.

Blake Lawrence was going away. Why had he come, to bring her this turbulent discontent which had been only a dim stirring within her before, a dim waiting for bright destiny to catch her up and carry her away? It was not only that his going would take away from her the breath of that benevolent world of light she longed for. She realised that now. What was hardest to bear was the fact that he would no longer be here!

She thought of him now as she had seen him, asleep on that pathetic couch, his fine, strong hands inert on the patchwork quilt. She remembered the silk pajamas he wore, which had been among the garments Dr. Trevor

Her white gloved hands flew toward him, her dark eyes burned up at him.

had brought out, and the rich velvet robe that always lay across the back of the chair beside the bed. She recalled how he looked upon wakening—and how he smiled at her when she went to bid him good night. She thought of him as he appeared later at the table, his deep voice taking up the conversation with her father and Aunt Letty. She would never forget a certain little nervous shrugging of his shoulders which always came when he thought deeply about anything. And now he was going.

Above the clamor of the wind and the gulls, a voice called from behind her. Her heart seemed to stop suddenly at the sound of that voice. She turned slowly and saw Blake in the blowing dusk.

"What are you doing out here by yourself?" he demanded.

He stood leaning on his cane and looking down at her.

"I like the wind," she said simply.

"Let's walk up to the road," he suggested.

In complete silence they reached the angle of the shore where the point met the mainland. It was here that Meryl had found him on the night of the fire. Blake seated himself on a fallen log at the side of the road, Meryl taking her place a few feet from him. They sat in silence for a while, each feeling strangely that there was nothing to be said. Then at last Meryl got up abruptly, and offered Blake her hands to help him to his feet.

When he had raised himself he smiled down at her, still clinging to her hands. "It's good I'm leaving, Meryl," he said lightly, "or this would become a habit with me."

She looked at him with a startled expression. Then her hands fluttered impulsively up toward him, and in the dusk he could see her lips parted as though she were about to utter some cry. At that moment the sound of an automobile swinging around the bend came to them, and Meryl, with a wildly confused look, turned from him and fled up the path to the point.

An exclamation died on Blake's lips. For across the road from him, not fifteen feet away, a long, pale gray roadster had come to a standstill. Blake, seeing the car, drew himself erect and narrowed his eyes. A woman in a flame colored motor coat, luxuriously furred, was getting out of the automobile.

Her hands, gloved in white suede, flew out toward him in the gray light. Her dark eyes burned through the dimness up at him.

"Christine," Blake said calmly. "I'm surprised!"

"Surprised?" She seemed taken aback. "Is that all, Blake?"

"Well—I had scarcely expected to see you—here," he told her.

"Too bad, Blake," she offered in mock commiseration. "I interrupted something, didn't I? Who's the little Amaryllis I caught a glimpse of just now?"

"Her name is Meryl Henderson," Blake informed her, his cheeks burning suddenly.

Christine stepped close to him and shook an accusing finger. "My naughty Blake hasn't been unfaithful to me, has he?" she asked.

"As a matter of fact, Christine, I'm going to marry her." Blake replied. Christine's breast rose and fell with her agitated and incredulous breath.

"Blake! Whatever do you mean?"

A desolating coldness passed over Blake as he looked steadily down at her. His passion for her had been something quite beyond reason or control—and would be still, he knew with sickening certitude, if he relented for a moment. He made his eyes a blank lie as he returned her burning gaze.

"I mean just what I have said," he replied quietly. "I am going to marry Meryl Henderson."

There was cruelty in that, he knew. Her eyes became suddenly filled with hurt—those dark, insatiable eyes of Christine, insatiable of love, but also of money and of power.

"Blake—have you lost your senses?" she demanded huskily.

For only a moment he wavered. "Rather the contrary, I think," he replied. "I'm sorry if our unfortunate—interval has hurt you, Christine. But it simply couldn't go on—except disastrously for both of us. You will forget me—as you would have forgotten me, anyhow. And you'll meet some one——"

She lifted a hand toward him. Her face had gone whiter than he had ever known it.

"You have accused me of avarice, Blake," she said with deadly quiet. "Avarice, at any rate, is honest. You have yet to prove to me that what you are doing now is honest."

"The less either of us says about honesty, the better, I think, Christine."

"That," she replied, "is scarcely worthy of you, Blake."

She turned away and walked back to her car, a small rigid figure in her expensive clothes. Blake stood where she had left him, leaning heavily on his cane, until she turned the car about in the highway. Then he lifted an arm in friendly salute, but she made no response.

He made his way slowly back toward the Henderson house. Christine's words had bitten deeply. Honesty! But what was honesty? He was honestly fond of Meryl, and she loved him. He had known that for days, he realized now. He would cherish her and give her all those things her soul had been longing for. Was he dishonest because he had forsworn the violence he had felt toward Christine, the wife of another man? Blake set his jaws grimly and lifted his head.

I'M FROM THE OFFICE OF THE BUILDING, MR. MAYBEE. WE WERE JUST WONDERING IF YOU WERE READY TO PAY LAST MONTH'S RENT.
I'VE BEEN EXPECTING A CHECK FROM THE FACTORY, OLD MAN. SUPPOSING YOU COME BACK IN A DAY OR TWO.

Cake Decides Its Own Baking Temperature

Chocolate Variety Takes Lower Heat.

Economical tips for week-end food shoppers—a Saturday morning radio feature—will be presented Saturday by Mary Meade over station W-G-N. Tune in at 9:45 Saturday for Miss Meade's market chat.

BY MARY MEADE.

From the many questions on cakes that reach my desk, I have a feeling that a booklet giving the whys and wherefores of cake failures—why they fall, crack, are tough, sticky, crumbly, dry, and a score of other troubles—together with the best standard recipes for cakes, cookies and frostings and some of their happy variations, would be a real friend to a lot of people. What do you think? Would you like to have such a booklet prepared for you? Just state your opinion on a card or in a telephone call.

Mrs. L. P. writes: "Usually the baking temperature for a butter cake is between 300 and 350 degrees F. as given in the recipe. Which is better, and should the cake be put in at 350 degrees and left till done, or should it be placed in a lower temperature and allowed to rise with the rising of the oven temperature to a specified degree?"

No, the method you suggest has not been found as satisfactory as the one-temperature method. Put the cake in at the indicated temperature and bake it at such. As for what this temperature should be, that depends a little on the cake and the pan. Chocolate cakes are baked at somewhat lower heats than other butter cakes. Also, if the baking pan is inclined to be deep, making the depth of the cake batter considerable, it should be baked at a somewhat lower temperature than otherwise, since the center of the cake must be given time to heat through and expand before the outside forms a firm wall. If not, the internal expansion will finally force its gas and steam out through the weakest part of the top—the middle—and we'll get one of those disagreeable volcanos we don't like a little bit.

Next for a question from Miss D. R.: "Why does my fondant sirup crystallize on the surface while it is cooling? If I remove the surface of the sirup after cooling, the fondant is free from large sugar grains."

This crystallization, Miss R., may come from a number of things. But always it means that in some way a few crystals have been allowed to form during the cooking or as the sirup was being cooled and that these have spread and will eventually "grain" the whole mass. These crystals form when concentrated sugar sirup [such as we have when we have cooked down water and sugar nearly to the fondant stage] is cooled and then stirred or disturbed. This may happen if we have splashed the sirup on the pan sides, if undissolved sugar crystals have clung there and not been washed down with steam, if we have stirred the no-longer-boiling sirup in turning it out to cool, or have let the thermometer swing around and stir it as it cools.

To avoid this, cover the candy pan for the first five minutes of cooking to wash down sugar crystals. Always stir gently [and only if the sirup is boiling], wiping off splashes from the pan sides with a bit of wet cheesecloth. As soon as the boiling stops, cool quickly with no stirring or jarring until the whole mass has reached room temperature. If the sirup is poured out to cool, do it quickly, and do not scrape the pan into the main batch of candy. Scrape it out and use it for sweetening elsewhere. This, I believe, ought to solve your difficulties. Remember, one little grain of crystalline sugar is quite able to turn the whole batch to graininess.

Lastly, two questions from Mrs. K. L. D.: "Are the food colorings that are sold in paste and liquid form harmful in any way? And what is meant by 'puffed raisins'?"

First about the food colorings. No, those which you will find on the market are perfectly safe. They're prepared from vegetable and other color extracts and to some are added dyes—but only ones approved by the government.

Then those "puffed raisins." Raisins called by this name are really seeded raisins which have been prepared by a patented process and are not sticky, but can be shaken out of the package and used as one would seedless raisins.

A FRIEND IN NEED

If you are in need, perhaps I can help you. If you have household articles or clothing you can no longer use, please tell me. I can place such things with needy families. Address Sally Joy Brown, The Tribune, Chicago.

Clothes Needed for Boy, 2.

"My 2 year old son needs clothing badly and I wonder if you could help us get it. He wears size 7 in shoes and size 4 in other clothing. It is absolutely impossible for me to buy him a thing. Mrs. E. L."

At this age little boys outgrow their things so quickly they often leave in their wake perfectly good garments which must be discarded. If you have any you wish to dispose of here's a little fellow who could put them to excellent use.

Offers Child's Desk.

"I have a child's desk to give away. Do you know of some one who would like to have it? Mrs. J. N."

Any child would be delighted to fall heir to a desk, I know. If you'd like to have it for your small son or daughter, write me about it immediately; please do not telephone.

Ruth Sherrill to Be Bride of Arthur Hellyer

Wedding to Be Saturday at Paducah.

[Continued from page 13, column 8.]

and Mrs. Philip H. Kreuscher, also active in arrangements for the concert.

We were very much interested in the story Mrs. Day told apropos of a critical remark about most social service workers' becoming "hard boiled"—about two social service workers whom she knows who became so interested in the plight of two little fatherless children whose mother had to work that they bought with their own money [because welfare money cannot be used for mattresses, only for bed covers] a nice new mattress to replace the old thing on which the children were sleeping. They thought it would be a pleasant surprise for the mother, so they installed it one day when she was working [a welfare worker cooked luncheon for the children every day] and hygienically burned the old one.

Imagine their dismay and disgust when the mother had hysterics upon her return and finally acknowledged that she had nine thousand dollars hidden in the old one, which by that time "had gone up in smoke." As Mrs. Day explained, this was one case in many thousands, but it does account for the skeptical attitude of some seasoned social workers.

Junior League Holds Sale Today.

Through an error, Miss Isabel Gordon, the Junior league's press representative for the second hand clothes sale to be held today, told us that the store address was 169 North Wabash avenue, but it really is 164. There is no great damage done, however, for those who saw yesterday's notice and go to 169 will discover that the sale is just across the street from there.

Although the doors will not be unlocked until 8 o'clock the provisional members who are in charge will be on hand much earlier than that, just as the shoppers will be, undoubtedly, if we may judge by previous sales. And the amateur salesgirls, wrappers, and cashiers will be so worn out by the time the stock is sold they won't want to do anything but go home and crawl into their beds, and even their best beaux won't be able to get them out for dancing or movies or any of the things that the young people of society enjoy when there isn't a party on the program of social events.

Cards were received yesterday for the talk that Malvina Hoffman will give before the American Friends of China on April 3 at the Arts club. The talk, which will be on "A Sculptor's Impressions of the Orient," will start at 4:30 o'clock and will be illustrated with slides and motion pictures. Tea will be served before the talk at 4 o'clock.

Admission to the lecture will be by membership card; nonmembers, $1; tea, 50 cents. Mrs. Howell B. Ermlinger Jr. is in charge of reservations. Miss Hoffman and her husband, Samuel B. Grimson, will arrive the day before the lecture from New York and will be the guests of the Charles Garfield Kings during their stay in Chicago.

Spinster Dinner of Florence Carr.

No doubt the girls who will be the guests at her spinster dinner tonight will be treated to a preview of Miss Florence Carr's trousseau, which we hear is the most complete and lavish that has been bought in this city in some time.

Before the dinner, which is to be at the Lake Shore drive residence of Miss Carr's father, Robert F. Carr, the girls will have cocktails with Miss Janet Ayer at the residence of her parents, the Walter Ayers, in East Walton place.

While the bride-to-be and her attendants and the others she has invited to tonight's party are having their "dove" party the bridegroom-to-be, Edgar L. Marston II., will be the host at his stag dinner at the Racquet club.

The thirty friends whom Robert Hall McCormick has invited to a buffet dinner he is giving in his apartment atop the McCormick building tonight for Col. Wellington Furlong will be entertained after dinner by moving pictures and lantern slides illustrating Col. Furlong's travels in equatorial Africa.

Vassar alumnæ who come to Chicago this summer for A Century of Progress will find a warm welcome awaiting them. Yesterday Mrs. Hascil Howells, president of the Chicago Vassar club, announced the members of the social activities committee which is to meet trains and entertain prominent alumnæ from June until November.

Today at the Drake hotel the members of the Madonna center dinner dance committee will meet for luncheon to discuss plans for the center's tenth annual dinner dance, which will be held again this year at the Bal Tabarin of the Hotel Sherman on Saturday evening, April 29. On the committee are Mrs. Lester Armour, Mrs. Julius Thompson Benedict, Mrs. David F. Bremner Jr., Mrs. James S. Clare, Mrs. Thomas J. Condon, Mrs. Joseph W. Cremin, Mrs. George F. Dousaire Jr., Mrs. Frank M. Gordon, Mrs. Edward N. Hurley Jr., Mrs. Stuyvesant Peabody, Mrs. Allen B. Ripley, Mrs. J. Donald Scott, Miss Mary Agnes Amberg and Miss Marie Plamondon.

Mrs. Oliver Picher, Mrs. Walter G. Smith, Mrs. Max Epstein, Mrs. Clifford Caldwell, Miss Joanna Fortune, Miss Agnes Foreman, Mrs. Eames MacVeagh, Mrs. Sidney S. Gorham, Mrs. Frank R. Wheeler, Mrs. Edward A. Leight and Dr. Julia Strawn will entertain at luncheon today at the Arts club, in addition to Alfred E. Hamill, who will give a party for the lecturer, Julia Peterkin. Mrs. Peterkin's talk will start at 11:30 o'clock and will be on "The Art of Living."

Alliance Holds Causerie Today.

Mrs. Jefferson Jackson will be a hostess at today's weekly causerie at the Alliance Française, assisted by Mrs. Welch Dickinson, Mme. Jean Morel, and Mrs. Harold G. Sperling. Mrs. I. C. Elston Jr. will pour at the tea that will follow Mme. Elmina Blais' French reading during the sewing.

Mrs. Louis Skidmore will discuss "The Century of Progress—and Its Architecture" this afternoon following luncheon at the Little Traveler in Geneva and, as usual for these Thursday "short talks by clever people," there will be many carloads of people from Chicago and the north shore driving west to the little Fox river valley town to enjoy Mrs. Edmond Raftery's hospitality.

There will be gayety in the spirit of Heidelberg the evening of April 29 when the members of the Southern Woman's Education Alliance hold their annual dinner dance in the German inn down at A Century of Progress. Though plans for the party have just been announced, Mrs. George Wilkerson says that most of the reservations have already been spoken for. Assisting Mrs. Wilkerson as general chairmen are Mrs. Harold M. Pulsifer and Mrs. Hubert Burnham.

Chicagoans wintering in Virginia are focusing their attention on the horse show the members of the Edge Hill Hunt are to hold Saturday at Aylett in King William county. The morning will be devoted to breeding classes and the afternoon to hunters, hunter hacks, riding contests, and jumping, with a number of children's contests.

The importance of the show is borne out in the list of judges, which includes no lesser lights in equestrian circles than Dick Guitar of Warrenton, Va., and Miss Elsie Oakley of Tuxedo Park, N. Y.

Near Aylett in the "northern neck" is the lovely old estate of the Mark Willings as well as that of Mrs. Tom Peete Cross. Although fox hunting has long been a tradition in Virginia the Edge Hill Hunt is the only one in King William, Essex, and King and Queen counties organized under the United States Master of Fox Hounds association.

Talented Mrs. Stanislaus Szukalski said yesterday that she had given up all idea of having an exhibit of her paintings while she is in Chicago this time. Though she has been spending many hours with her paint brush and canvases, she isn't sure but what she will up and leave any day for the west coast.

A fortnight ago she moved from the Whitehall, where she had been making her residence, to Mrs. Howard Van Doren Shaw's apartment at 2450 Lake View avenue. Mrs. Shaw, with her daughter, Miss Theodora Shaw, and the Charles T. Atkinsons of Lake Forest, is enjoying a trip to the orient. She will be home about May 1.

Mrs. Szukalski's sister-in-law, Mrs. Samuel J. Walker, is recuperating from several bad cuts sustained recently when thrown from her horse in Lake Forest. Yesterday she reported that she expected to be out by the end of this week.

James R. Offield left last week-end to spend two or three weeks deep sea fishing in Florida with his son, Wrigley, who is on vacation from school, and "Bob" Becker. If Mrs. Offield and Miss Betty Offield carry out the plans they made before they went to Phoenix a month ago they will join Mr. Offield in Florida.

Mrs. A. G. Cable Returns Home.

Mrs. Arthur G. Cable and her young son and daughter, Peter and Susan, arrived home on Sunday from some weeks spent in their Santa Fé home. Mr. Cable preceded his family home by several days.

Mrs. Carroll H. Sudler Jr. will leave soon for Baltimore to visit her family, the William Frank Robertses. She will be away about a month.

Mrs. Robert L. De Goyler of Winnetka, chairman of the committee of management at the Central branch of the Y. W. C. A., will have a front row seat tonight for the program, "A Century of Standards," which girls working in the industries are to present at 59 East Monroe street. For Mrs. De Goyler is one of several women who have been helping these workers plan the five dramatic episodes on the program. There will be a scene in a cotton spinning mill at Lowell, Mass., in 1839, another in a garment factory in 1900, a glance at a board of arbitration in the garment making industry in 1925, a view of an actual hat factory in Chicago today, and an imaginary scene in a Chicago household in 1950. During the intermissions dance pantomimes and songs will further portray the growth of industrial standards.

Take This One Lying Down

a. Lie on the back, hands by sides, palms down. Raise the body from the floor, supporting its weight by the heels, elbows and back of the head.

b. Return to the floor and relax. Repeat not more than two or three times at the start, gradually increasing.

Let the Children Join in West Point Exercise Series

BY ANTOINETTE DONNELLY.

Just as a little lesson in posture behavior for yourself, today when you are on the street notice how every one you meet carries him and herself. Count how many there are about whom it may be said: "How well that person carries himself!" Or, "How beautifully that woman carries herself!"

You'll find slouchy gait and awkward body handling are pretty common. But you'll observe this, too, that the alert, well set up one is noticed. You'll notice him or her. And you yourself will be noticed or not noticed according to your own setup.

And there's more to this posture habit than greets the eye! No one likes to be thought without personality. Yet, there is no physical feature that indicates personality like a smart, poised set up. The upright bearing usually connotes mentality, health, self-command, and leadership. Of course there are exceptions to all rules, but rarely do you find men or women who walks erect, but gains in self-respect and somehow imparts confidence in his abilities. The timid, self-conscious, unhealthy person rarely stands up full height.

Parents have a serious responsibility in shaping the physcal as well as the spiritual destines of their children. "As the trees is bent, so shall it grown." Frequently the only posture correction children get at home is done in brief spasms of nagging and scolding, and that usually at table when their manners offend.

The fact that their spines need exercise to straighten them, that their neck muscles need strengthening, is overlooked. This is why we urge you parents to get the young boy and girl in on this series of exercises emanating from that most excellent of physical training schools, the United States Military academy at West Point.

Give the lad and the girl a well coördinated mechanism, the habit of good posture, the muscular tone to meet competition in school work and later in business and social advancement. Much of the lowered vitality, the fatigue, the backwardness in study of school children may be traced directly to posture faults.

WEDDINGS

Mrs. Clarence Wehrman of Indianapolis, Ind., announces the marriage of her daughter, Miss Margaret Sells of 5430 Cornell avenue, to Thomas Andrew Madden of Winnetka.

Mr. and Mrs. William De Boer announce the marriage of their daughter, Catherine Mae, to Edward Baughn of Chicago on March 18.

Lyolene Combines Corduroy, Pique in Sports Outfit

BY BETTINA BEDWELL.

PARIS.—[Special.]—Poor girl and rich girl materials are teamed together to make some of the sports outfits that are issuing from Paris this spring—velvet and cotton are often used together. There is a serious attempt to popularize cotton velvet, and even silk velvet, for summer wear. Cotton corduroy is going over, particularly in combination with cotton piqué, as Lyolene does this union. She makes the coat of one and the frock of the other.

The sports ensemble, shown in our sketch today, unites a cotton corduroy coat with a white piqué frock, and does it with such success as to help the style to immediate success.

The dark blue corduroy coat pictured here is plain, and straight, with a dark blue belt at the waistline. It has no collar. A bib of white piqué is buttoned on in front at the neckline, and white piqué is also buttoned over the patch pockets on the hips. They may be removed and washed as frequently as necessary.

The white piqué frock of this ensemble is shown in the background. It has a straight skirt with two box plaits at the front, and the blouse has short cap sleeves and a slightly draped, round neckline.

[Copyright: 1933: By The Chicago Tribune.]

Dedicate Hospital Shop; Helps Crippled Children

Crippled children unable to furnish their own braces have found a friend in the Chicago Club for Crippled Children. Yesterday a shop to furnish this and other necessities for needy crippled children was dedicated in the nurses' residence of Michael Reese hospital. The shop has been established through a fund raised by the club, which was organized a year ago. Rabbi Louis L. Mann of Sinai temple delivered the dedicatory address and Alfred C. Meyer, president of the hospital, accepted the shop. Mrs. J. J. Luster is president of the club.

Girl Asks What Couples Can Do on Little Money

They're Tired of Playing Cards.

BY DORIS BLAKE.

How shall the boy be entertained when there is little or no money for the round of entertainment usually enjoyed by a young couple? A common enough problem of the moment, isn't it?

Let's take "Joan's" case. She's 18; the boy 21. He comes two or three times a week. Once in a while they manage to go somewhere, inexpensively.

"We have the same ideas about necking," "Joan" confides. "It is taboo, but we can't just sit and talk all evening, or have one of the family suggest every time that we play cards. We are both getting sick of cards.

"Can't you suggest something? Know of any inexpensive places we can go? We don't want our friendship broken for lack of money."

One would think the very ingenuity of youth might rise to this problem with suggestions of its own. But, of course, in a large city there are limitations on group entertainment, which would be our first suggestion. Boys and girls getting together, arranging plays, let's say. Or parties at each other's houses. In this latter event we know that there are certain difficulties to contend with unless parents are in sympathy, and there is more space than in the average crowded apartment.

Then, we know of another little difficulty of young people's own making. We might call it "hoarding the girl or boy friend." Afraid to let boy or girl out of hand sufficiently to encourage foursomes, and eightsomes, and so on. We think this too bad, with a disadvantageous reaction to the young couple themselves when finances run low and friends must be depended upon to relieve the monotony.

True, a young couple in the late 'teens or just out of it, is not content to sit and talk, or sit and play cards night after night. It's not written into the records that youngsters should be passive fireside fixtures. But we know no way out unless youth itself is willing to widen its own social sphere, build up group activity so that it may enjoy dancing, games, sports, and so on.

We would recommend, too, a bit of reading worked into the evenings on hand, maybe a little studying for future aid. One evening a week, anyway, could be given over to some form of cultural development, one to group partying, and one to sports' interests.

Saturday afternoons and Sundays offer an interesting field of entertainment, roaming around the town discovering art, let's say, or museum of natural history records, or jaunts up and down interesting, out of the way streets.

* *

Prairie Club Invites Public to Three Hikes

Three walking trips will be made by the Prairie club this week-end. The public has been invited. On Saturday the club will take a circle hike through the Palos Park region, leaving the Dearborn Street station at 1:30 p. m. The junior department of the club will walk through the west side hospital district, making a visit to the county hospital. On Sunday the club will take a 12 mile all day hike along Thorn creek at Matteson, leaving the Illinois Central Randolph street station at 9:15 a. m.

* *

Child Haven.

The Child Haven association at 6323 Yale avenue will hold its annual luncheon at 12:30 Saturday at Mandel Brothers' tearoom. Mrs. Charles S. Clark will be one of the speakers, and Miss Annette Thorne will give a musical program. Mrs. Frank Specht is president.

* *

Woman's G. O. P. Club.

The Woman's Republican Club of Illinois will hold a board meeting at 11 o'clock tomorrow morning at the Hamilton club. Mrs. Jacob Baur will speak.

MINUTE MYSTERY CAN YOU SOLVE IT?

BY H. A. RIDLEY

[Copyright: 1933: By The Chicago Tribune.]

FORDNEY FINDS THE KILLER.

Young Deputy Joe Fordney was in charge of the greatest man hunt the Powder River country had ever seen. The night before Sheriff Colahan and two deputies had surprised a party of cattle rustlers in Dead Man's cañon, a deep ravine, the entrance to which was closely hidden by a natural formation. The sheriff had been slain. Both deputies escaped injury, but the rustlers, "Beef" Riley, Bad Jack Rooker, and Rolly Courtner, got away.

Fordney had been successful in eliciting only the following information concerning the rustlers:

[a] One of the three was an old, experienced hand at changing brands and had recently been released from penitentiary. He had agreed to handle the branding end of the business for a one-third share in the profits.

[b] "Beef" Riley knew little of branding, but he did know the Powder River country and how to get those cattle out. He was handling that end of it for a third of the profits.

[c] The killer of Colahan had told the leader the day before that he himself didn't trust Courtner.

[d] That same day Fordney learned the brander had had an argument with the slayer of Colahan in which the leader took the killer's part.

Fordney called his posse together and acquainted them with the above information.

"We want all three of those coyotes," he growled, "but we MUST get the killer of Sheriff Colahan. So I want you men to concentrate on HIM!"

"Yeah," drawled "Mutsie" Johannes, "but who in hell IS the killer?"

WHO WAS HE?

[See solution on page 27.]

Evelyn Copley Gets Praise in Youth Series

Columbia School Chorus Gives Concert.

BY EDWARD MOORE.

Evelyn Copley, soprano, appeared in a recital at Curtiss hall last night as one of the singers in the Young American Artists' series of the present season. She is considerably farther advanced in the art of singing than a good many who have appeared under these auspices, possessing the range and technical ability to approach the enormously high and difficult "Queen of the Night" aria from Mozart's "The Magic Flute" and the musicianship to do excellent things with the old music of Handel and Scarlatti. Two excerpts from Bellini's "La Sonnambula," a group of lieder by Franz, and another group of songs in English completed her program.

The Columbia School chorus, a melodious group of well trained young women, took the stage at Kimball hall under the direction of Louise St. John Westervelt, singing partsongs, choral arrangements of solo songs, folk songs, and a group of old sacred music with excellent spirit and fine tone.

The program was diversified by several solo appearances. Genevieve Davison, pianist, gave a first rate performance of a group by Schubert-Godowsky and Rachmaninoff. Lavon Graham Holden disclosed a contralto voice of unusual power and quality, showing a good chance of becoming a notable of the lyric stage as soon as she frees herself from a certain tightness of production.

Marie Briel, who served as accompanist for the chorus, also played a group of organ solos by Seder, De Mereaux, and Hyde.

Dear Betty:
Thanks for helping me get rid of rough, red dishpan hands! I used to be ashamed to show mine.
Now that I'm using LUX for washing dishes, my hands are smooth and white again.
LUX is wonderful—it costs me less than 1¢ a day . . .

Avoid dishpan hands

use LUX for Dishes

Lovely women use Cuticura Soap

For the Daily Toilet

Used regularly, this pure, fragrant, delicately medicated soap keeps the skin fresh, clear and glowing with health.

Price 25c.

Proprietors: Potter Drug & Chemical Corporation, Malden, Mass.

You can't hide TOILET STAINS AND odors

PEOPLE notice a dirty toilet bowl. Ugly film and stains breed odors. Germs thrive there. You can scrub and scrub and never get toilets spotless. But Sani-Flush does all the work for you.

Try Sani-Flush. Sprinkle a little in the bowl. (Follow directions on the can.) Then flush the toilet and see it glisten. Sani-Flush even cleans that hidden trap that scrubbing won't reach. It can't harm plumbing.

At grocery, drug and hardware stores, 25c. *(Another use for Sani-Flush—cleaning automobile radiators. See directions on can.)*

SANI-FLUSH

cleans closet bowls without scouring

Emotions Respond to this tea—richer in theol

EXPERIENCE has taught Oriental races the beneficial effects of *tea.* They choose it because it stirs the senses . . . enriches emotional life . . . with no later, unfavorable reaction.

To get *all* the benefits of tea, it is important that you choose a tea rich in theol. This oil is the very essence—it carries the flavor and fragrance.

Chase & Sanborn's *Tender Leaf* Tea contains more of the precious theol than any but the most expensive blends. Picked during the dry season, the tender leaves which compose it are at the peak of flavor—and effectiveness.

Your grocer has this tea in quarter-pound and half-pound screw-top canisters.

Chase & Sanborn's *Tender Leaf* Tea

1,000 FAMILIES DRIVEN OUT OF HOMES BY FLOOD

Relief Agencies Are Busy in Indiana.

Indianapolis, Ind., March 22.—[Special.]—More than 1,000 families in southern Indiana have been driven from their homes by flood waters of rivers which still are rising on their lower courses. Relief agencies, including the Red Cross, American Legion, Salvation Army, and local organizations, are busy caring for several thousand persons forced to obtain temporary lodgings. Freezing weather made relief work more imperative. Property damage has been the heaviest since 1913.

Estimates of the number of families driven from homes include 500 in the "pocket" district, that part of the state bounded on two sides by the turbulent Ohio and Wabash rivers. Posey county and part of Vandenburg county are in this district.

Flood Crests Due Soon.

Weather bureau officials predict the Ohio will reach at least the 45 foot stage at Evansville, three feet under the level established in the disastrous flood of 1913. Both the Ohio and Wabash are expected to reach their crests in southern Indiana soon. Cities along the upper reaches of the streams reported the crest passed and water receding slowly.

New Albany's emergency flood relief committee, with scores of trucks, moved families in inundated districts to buildings on higher ground.

From Pike county came reports that lowlands were all flooded and that the water was reaching much higher ground. All streams in the county were at flood stage.

Menace Moves Downstream.

Cincinnati, O., March 22.—(AP)—The flood menace of the Ohio river moved downstream from here tonight, while authorities in localities up the river took steps to combat the hazards that follow in the wake of high waters.

As the floods retreated the Ohio and its tributaries snatched two more lives today. Near Portsmouth, O., Louis Mitchell, 15, was electrocuted when he seized a dangling wire. At Zanesville, O., Mrs. Caroline Heinle, 65, was found drowned in a backwater.

Mississippi New Threat.

Louisville, Ky., March 22.—(AP)—A new flood threat, the rapidly rising waters of the mighty Mississippi, tonight alarmed Kentucky's western border cities, as residents along the northern boundary took cheer from reports that the Ohio, which has spread destruction all along its course, had almost reached its crest.

STRUCK BY AUTO; DIES.

Marion, Ill., March 22.—(AP)—Milo Bernard, 25, was killed last night when struck by an automobile on state highway 13 near the Williamson county fair grounds. The car was driven by Pete Kelsey, 20.

Hungry School Children Fund

There are 15,000 children who go to public school hungry every morning. A dime a day will furnish a substantial noonday meal for each of them.

I will contribute $.....weekly.....monthly, or the enclosed donation.

Fill out and address to The Hungry Children's Fund.
CHICAGO TRIBUNE

HOME MOVIE SHOW ADDS $4.10 TO FUND FOR HUNGRY PUPILS

Three youngsters who live at 1651 West 100th street gave the Hungry School Children's fund a helping hand yesterday. With their $4.10 contribution came this letter:

"Saturday we had a moving picture show in our basement. We had it because we wanted to help the Hungry School Children's fund. We put up four big signs, and children from the next street came, and some came from the street on the other side of us, and they came from the street that ended in our block. We made $4.10, which we are going to send you to buy food for hungry children."

The letter was signed by Darrel Spencer Carls, 11 years old, and his sister, Betty, 8, and brother, Jimmy, who is 6.

The total of the day's gifts was $22.40, which won't go very far toward feeding 5,000 needy children. The contributions:

$5—Mrs. Lina Florsus.
$4.10—A moving picture show.
$3—In memory of Emanuel Goldstein.
$2—A. F. Bowren, Edgar Ginsberg.
$1.30—Harriette Link Rhythm club.
$1.10—Fees.
$1—John R., Mrs. J. E. D., R. M., stenographic department, Illinois inspection bureau.

Total	$ 22.40
Previously acknowledged	22,495.87
Grand total	$22,518.27

BROKER'S WIFE GIVEN CUSTODY OF DAUGHTER, 8

Mrs. Elise Rice Linn of New York was awarded temporary custody of her daughter, Elise, 8 years old, yesterday by Circuit Judge Frank Bicek in the divorce action brought on the ground of desertion by Winfred Scott Linn, investment broker, 399 Fullerton parkway. She was also allowed $90 a month alimony until April 18, when the case is to be decided. The Linns were married March 17, 1923 and separated Jan. 2, 1932. He brought suit on a charge of desertion. Mrs. Linn said she had received $2,399 from the estate of her father at the first of this year, but needed money from her husband until July 1, when she is to receive another installment from the estate. The judge allowed her $90.

$600 PAINTING IS STOLEN AND SOLD BY THIEF FOR $1

How a thief valued a $600 painting at only $1 was revealed yesterday when Florence White Williams, 4533 Greenwood avenue, the artist, recovered her canvas which had been sold to a newsboy. A second painting valued at $85 was not found.

The paintings were in an automobile which was stolen from Miss Williams last Friday while she made a call at 6801 Crandon avenue. She had taken the canvases to the Bryn Mawr Woman's club, where her work is on exhibit, but finding the gallery dark returned them to her car.

Police found the automobile abandoned at Wilson avenue and Malden street Saturday morning, but the paintings were gone. Through a newspaper story Joseph Maloney, 6710 Merrill avenue, learned that the $600 painting was missing. He called Miss Williams and offered it to her for $1, the price he paid for it to a peddler. Maloney sells papers at 67th street and Stony Island avenue.

The second painting, "Rough Weather Outside," is about 18 by 22 inches, Miss Williams said, and shows boats waiting in a harbor for the weather to clear.

INHERITANCE TAX PAID.

Milwaukee, Wis., March 22.—[Special.]—Payment of a $11,316 inheritance tax on the $196,895 estate of Carl Weisel, sausage manufacturer, was made today to the county treasurer. The manufacturer, who died May 19, left the entire estate to his widow, Mrs. Augusta Weisel, 2320 North Humboldt boulevard.

GOVERNOR FAILS TO ACT ON PLEAS TO PARDON PALM

Life for Pint Victim Is Still in Prison.

Lansing, Mich., March 22.—[Special.]—Although scores of letters are being received at the executive office in behalf of Fred Palm, Michigan's erstwhile victim of the "life for a pint" law, Gov. William A. Comstock is giving no serious consideration at this time to releasing Palm from the Jackson penitentiery, where he is serving an indeterminate sentence commuted to 7½ to 15 years. This was learned at the state capitol today.

While congress has voted repeal of the 18th amendment and passed a beer bill and while the Michigan legislature is expected next month to provide a constitutional convention to ratify repeal, it sems probable that Palm, a victim of the most notorious prohibition case in the state, will have to serve another two years. He was sentenced to life imprisonment in 1929 as a fourth offender for possession of a pint of gin.

Compares Case of Rapist.

W. Alfred Debo, parole commissioner, whose recommendation the governor would probably follow, said today there is no comparison between Palm's case and that of Arthur Rich, wealthy Battle Creek youth, who was sentenced to life imprisonment in 1928 for raping a Battle Creek college co-ed, and was paroled in January.

Rich, the parole commissioner stated, was a first offender, who had been given "a most extreme sentence," and who had apparently done everything possible to expiate his crime. The "expiration" to which the commissioner apparently referred was the payment by the youth's father last November of a $25,000 judgment which the rape victim had obtained against the son several years ago.

Palm Fourth Offender.

In contrast to the rapist, the commissioner pointed out, Palm was a frequent offender against the liquor laws. Conceding the fact that possession of a pint of gin was the offense which brought him a life sentence, the commissioner pointed out that he had previously served three terms for "more serious offense," and had been arrested many times.

Palm's life sentence was commuted to 7½ to 15 years when the legislature modified the original habitual criminal law to provide lesser sentences in cases where the fourth felony was not a major crime. Parole department records show that Palm will be eligible for parole without further executive elemency on March 28, 1935.

Admits Plan to Steal Car for Money to Pay Lawyer

AUTOMOBILE THEFTS.

Automobiles stolen, 67; recovered, 79; stripped, 14 (from police records for the 24 hour period ending at midnight Tuesday). There were no court cases.

Dominick Galasso, 17 years old, 1900 Ohio street, was standing beside a new automobile at Superior and Orleans streets yesterday when Policemen Thomas Ryan and John Schuten drove alongside in a squad car. Galasso admitted he was about to steal the car. "I'm going to court on a burglary rap tomorrow," he said. "I need money to hire a lawyer." He was taken to the East Chicago avenue station and charged with disorderly conduct.

U.S. Drys Pose as Students; Seize Two on Rum Charge

Los Angeles, Cal., March 22.—[Special.]—Federal prohibition agents posed as students of Manual Arts High school today in order to arrest L. W. Gallup and Niles F. Burnard, owners of a confectionery shop beside the school grounds. Complaints that liquor was being sold to pupils had been lodged with the prohibition authorities by school officials and parents of the pupils.

MRS. WALKER IS ASSURED DIVORCE BY MIAMI COURT

Final Disposition of Case Up to Judge.

Miami, Fla., March 22.—(AP)—Dissolution by divorce of the marriage of Janet Allen Walker and James J. [Jimmy] Walker, former mayor of New York city, was recommended to Circuit court here today by T. J. Dowdell, master in chancery. Yesterday the master heard testimony of Mrs. Walker and other witnesses in the suit she filed.

His recommendation now goes to Judge Worth W. Trammell, before whom the suit was filed. Usually in Florida the court compiles with the master's recommendations in divorce proceedings. The master acts as the court's agent in hearing testimony.

Master Dowdell told the court Mrs. Walker "has stated in her bill of complaint and has maintained by her proof that defendant [Walker] has been guilty of willful, obstinate and continued desertion of complainant for a period of more than one year immediately prior to the institution of this suit."

Therefore, she "is entitled to the relief prayed for in her said bill." Mrs. Walker declined to make any comment on the master's report.

Three Spanish Civil Guards Killed in Canary Isle Riot

MADRID, March 22.—(AP)—The minister of the interior, Santiago Casares Quiroga, announced tonight that three civil guards had been killed during rioting by striking shoe factory workers in Hermigua, on Gomera island. Gomera is one of the Canary islands.

ROSS HAMMERS OUT DECISION OVER PETROLLE

CUBS GET 6 RUNS IN EIGHTH; BEAT MISSIONS, 6 TO 5

Henshaw Allows Only 2 Singles.

BY EDWARD BURNS.
[Chicago Tribune Press Service.]

San Francisco, Cal., March 22.—The Chicago Cubs got busy in the eighth inning of their game with the San Francisco Missions this afternoon, making all of their runs and seven of their nine hits in this round to accomplish a 6 to 5 victory.

ROY HENSHAW.

Until one was out in the eighth the Cubs were being licked 5 to 0, with a skimp showing of two widely separated singles.

All the enemy runs were made off Leroy Herrmann. Roy Henshaw, the tiny lefty, pitched the last four innings and did not allow a runner to reach second. The young man fanned four and allowed only two hits, both singles, one of which was of the infield scratch variety.

The Cubs tackle the Missions again tomorrow.

Cole Stops Cubs.

At the end of the first five innings the tenure of Pitchers Herrmann and Cole, the Cubs were startled to find their only hits were a single by Demaree in the second and one by Herrmann in the third. The Missions made nine hits during this five inning span.

They leaned on Herrmann for three hits and two runs in the second inning. Dahlgren doubled to left and Hafey walked, then Walter singled to left, Dahlgren scoring and Hafey stopping at second. Coscarart bunted and forced Hafey, Hendrick to Hack, but Duggan singled to center, scoring Walters. A force out and an infield out halted further progress in this inning.

In the fourth inning the Missions broke loose again. Hafey led off with a single to center. Walters followed with a single to left, and Coscarart and Duggan beat out infield hits. These events, with an infield out and a long fly, enabled Hafey, Walters and Coscarart to score.

The Fireworks Start.

Osborne and Henshaw took over the pitching in the sixth. The Cubs didn't get a hit off Osborne in the sixth and seventh innings, but busted through in the eighth in the following manner: With one out, Bill Herman singled to right, Hack singled to left, and when Hafey punted the ball, Bill Herman scored and Hack reached second. English ran for Hack and scored on Cuyler's single to center.

Babe Herman singled to center, putting Cuyler on third. Then Demaree tripled to right center, scoring Cuyler and Babe Herman. Osborne surrendered and Lieber went into pitch. Sever threw out Hendrick, Demaree holding third. Demaree scored the tying run on a passed ball, after which Z. Taylor tripled—a homer if Zack's charley horse hadn't started kicking during the course of the trip. Zack scored on Jurges' infield single. Henshaw, up the second time in the inning, flied to Eckhardt.

The box score:

CHICAGO.	Ab	R	H	P	A
W.Herm'n,2b	5	1	1	0	4
Hack,3b	4	0	1	1	0
English,3b	0	1	0	0	0

BABE RUTH SIGNS FOR ONE SEASON; WILL GET $52,000

Ruppert Tired of Arguing; Raises First Offer.

(Picture on back page.)

St. Petersburg, Fla., March 22.—[Special.]—Babe Ruth today scored a minor victory in his long holdout battle against Col. Jacob Ruppert, owner of the New York Yankees, when he signed a one year contract for $52,000. The agreement came at the third conference between Ruppert and Ruth and is a compromise between the $55,000 the Babe offered to accept and the $50,000 which the Yankee owner said was absolutely all he would pay.

Ruth, however, is taking a cut of $23,000 from the $75,000 he received last year.

Joins Team Friday.

Ruth will not play with the Yankees in their next few exhibition games. He said he wanted more batting practice and will make his first appearance here in Friday's game with the Braves. The contract will be officially signed before Sunday, when Col. Ruppert plans to return to New York.

The end of the long drawn out salary controversy between the Yankee star and his employer came in Ruth's apartment shortly before the start of the Yankees' exhibition game with the Cardinals.

Ruth called up Ruppert this morning and suggested the colonel stop at his apartment before he went to the game. Ruppert agreed, but said rather decidedly: "This time Ruth must mean business. I am getting tired of these conferences. This thing is becoming childish."

"Colonel, I would like to sign for $52,000," said Ruth. "That was my salary for five years with your club when I was in my prime."

"Getting Tired of Controversy."

Ruppert promptly agreed, and the newspaper men were called in.

"While I had said Ruth would not get more than $50,000, I was impressed with his sincerity," Ruppert said. "He wants to play ball, and I know he will give us his best.

"Furthermore, I know the public was getting sick and tired of this controversy. Maybe I did yield a bit, but I am satisfied."

Ruth helped save his pride by getting something over $50,000. He had insisted that no matter what his salary was, it had to be more than $50,000.

Plans to Fool Gloomy Fans.

"I am glad to have this thing off my mind," the Babe said. "I am a ball player and want to play ball. I also know there is a depression and I am satisfied to get a cut. Also I intend to fool a lot of people who say I am going back."

Ruth drew $20,000 in 1920, his first season in New York. In 1921 he had his pay raised to $30,000. Then came a five year contract at $52,000, the sum he accepted today. That ran from 1922 to 1926, inclusive. Then came a three year contract at $70,000. In 1930 and 1931 Ruth drew his top figure, $80,000. Last winter he took his first cut. He was offered $70,000 but induced Ruppert to compromise for $75,000.

BRADLEY'S PLACE THRIVES DESPITE ALL HIS ADVICE

"You Can't Win," He Tells Suckers, but They Keep Coming.

BY WESTBROOK PEGLER.
[Chicago Tribune Press Service.]

Palm Beach, Fla., March 22.—Peering out the window of a room in a high hotel over the roof of the demure, white, New England meeting-house in which Col. E. R. Bradley runs his little games of chance for the amusement of the idle rich, your correspondent is reminded of the colonel's oft repeated assurance to his patrons or clients that they cannot beat him at these games.

Col. Bradley has been telling them this for many years, but he has not convinced them yet, for they keep coming at him, season after season, with money in their pockets and fire in their eyes. And when they have died they still come at him in their grownup sons and daughters.

This is a strange situation indeed in which a man can blandly warn the customers that the best they can expect is the worst of it, but still can count on a factor of greed or human weakness to draw them to the quiet green tables in the white clapboard meetinghouse among the hibiscus and the palms. If you were to ask him about it he would tell you candidly that you must lose if you play against him and his games. For a particular evening's play you might show a profit but, given time and enough action, his wheels would grind your bones, as the phrase goes in this business, because the percentage runs against you.

It is very discouraging to discuss chances with a professional operator, for you will be shown in the most convincing way that you cannot beat the games or the horses either. It just leaves a party without any game to turn to except, perhaps, three handed penny matching, which is dull and monotonous.

You cannot beat the horses because even in the mutuels, which offer the most advantageous sort of gamble available to the customers at the track, the rakeoff of 10 per cent or thereabouts, the amount varying according to local conditions, eventually must consume your money.

Yet Col. Bradley bets on his own horses almost every time they run and dealers from the right side of the table, when they are through work at night, have a habit of hunting up some faro bank and trying to tie a true lover's knot in the tiger's tail from the wrong side of the table. Faro is the professional gambler's favorite ball game. For one reason, it is a game in which the dealer's percentage against the player is lowest.

This is not to say that the customers have been coming at Col. Bradley and his percentage this year with the same abandon and as much money as in years gone by. There may never be another season like the last winter of the Florida real estate boom, before the funny little stucco banks with their massive tin Spanish grilles and high sounding names began to pop with a sound as of bursting balloons at a New Year's eve party. But the white meetinghouse has been open according to it. old schedule and all the old ceremonial forms have been scrupulously observed and the wheels have ground at a rate in keeping with the times, if not more so.

Passing the old white house amid the palms and flowers where mysterious men stand about quietly vigilant at all hours, you almost expect to see the parson come out on the front stoop and there is an impulse to say "Good afternoon, reverend" to the man on the door. It is an old Florida institution.

It may be a good thing, after all, that the customers do not learn the lesson of the percentage and keep away from games of chance and keep their money in their pockets. The percentage in these games is much less than that which overrates against them in the stock market because, whatever may be said of the general morality of vulgar gambling on games of chance at Bradley's, they are honest, anyway.

But suppose the customers did not gamble at all. Money is like apples or strawberries or any other perishable crop. Keep it too long and it spoils by the processes of investment or inflation. When you get it you must move it and raise another crop. But keep it and it rots.

(Copyright: 1933: By The Chicago Tribune.)

N. Y. FIGHT TEAM TO ARRIVE TODAY; CHICAGO READY

Golden Gloves Boxers Are Near Peak of Condition.

BY WILFRID SMITH.

Chicago's eight Golden Gloves champions are ready to step into the ring for the inter-city fights with New York. This was the information the coaches passed out yesterday after the workouts at the Illinois Athletic club and which will greet the squad of easterners when they arrive at 11 o'clock this morning at Union station The New York team will travel on a special train running as a section of the Pennsylvania Broadway Limited.

Baltzer, Ginter, Rodak, Ward, Rothler, Caserio, Marek, and Pacek, will form the first line of defenders for Chicago at the stadium next Wednesday night. These boys are in condition, but it doesn't follow that continuation of drills will cause them to go stale. Making weight is easy. Ginter is the only one of the eight who has any reason to watch his poundage and this is not at all serious.

Climax of Ring Work.

The peak period of boxing will be reached today and tomorrow. From then until Monday afternoon, after which none will box, the boys will taper off, confining their workouts to a minimum of boxing with plenty of exercise in the mornings and general loosening up in the afternoons.

The problem for Chicago now is to select the second eight boys who will fight against New York. There is a feeling that the Chicago champions will win a majority of their fights. The series may be determined, however, on the results in the secondary division.

May Shift Goldstein.

In addition to the spar boys, who have visited the I. A. C. each afternoon to help out, three others have been invited to take up residence. Whether they will be considered for positions on the team depends on their showing. Lynn Thompson, an aggressive bantamweight from Trafton's gymnasium, may join Bob Iverson and Jack Smith in this class. Irving Goldstein, who weighed out yesterday at 120 pounds, also is a possibility.

Goldstein is a featherweight in the group which boasts of Leo Rodak and George Van Der Heyden. If he can get down to 119 pounds on Wednesday afternoon he'll be a mighty asset to the team, for New York's flyweights and featherweights are tough.

New Chance for Miller.

Billy Miller of Milwaukee, a welterweight, will join the Golden Gloves team today. Billy was ruled out of the Tournament of Champions in the quarter-finals because of a bad cut over his eye. This will give another strong candidate to the list which already comprises William Celebron, Rothler, and King Wyatt. Rothler is in condition, although there is the possibility of recurrence of boils. Should this happen or should Rothler fail to get over his mild attack of spring fever Celebron will fight New York's champion.

Ario Soldati of Depue, Ill., the Rockford heavyweight champion who reached the semi-finals of the tournament, is expected to report at the I. A. C. today or tomorrow. Soldati weighs 180 pounds and if he can take off three pounds he will vie with Jack Kranz [who is a heavyweight but probably can make 175 pounds] and Harvey Diesch for the right to meet New York's second light heavyweight.

Diamond Rings to Winners.

There is more than enough talent in the flyweight class, the featherweight, lightweight, middleweight, and heavyweight groups. If the other classes were as well balanced there would be no doubt but that New York would take a licking.

Gold Golden Gloves rings, each set with a diamond, will be the first place prizes in all sixteen bouts Wednesday night. The losers will receive the same ring, except that they do not have a diamond setting.

Chicago's boys are confident they will whip New York. The series now is tied after five years, each team having won two times and tied in 1928, the first year the tournament was held. There have been 80 inter-city fights and the score here also is evenly divided.

Tickets are on sale at The Tribune

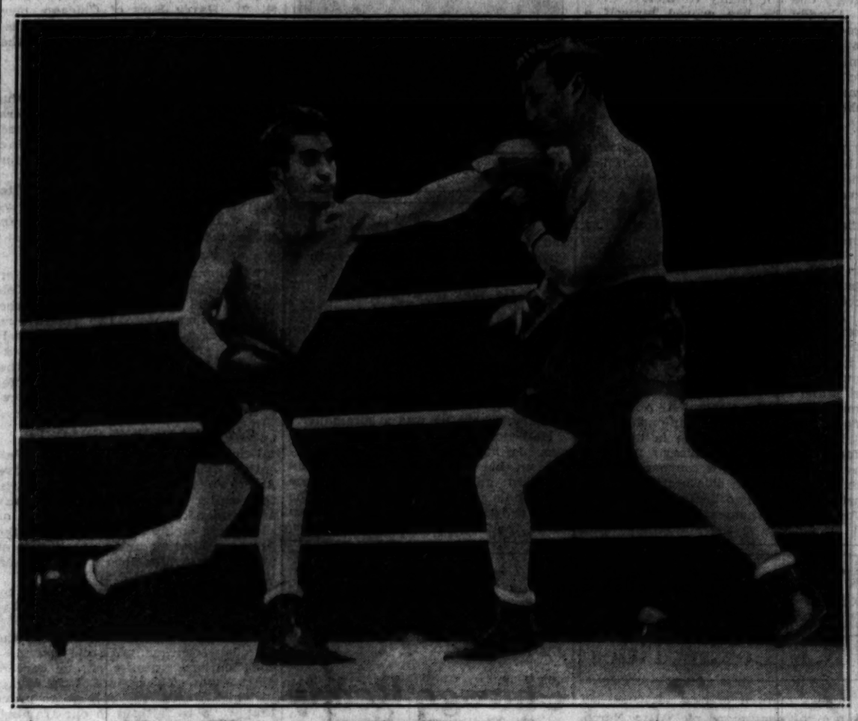
THAT'S PITCHING ONE, BARNEY!



Barney Ross (left), Chicago's challenger for the lightweight boxing title, sticks his bothersome left hand into the face of Billy Petrolle, who used to be known as the "Fargo Express," last night at the Stadium. Ross, a former Golden Gloves champion, won the decision. [TRIBUNE Photo.]

St. Patrick's Beats Gibault, 20 to 23, in Loyola Opener

BY HOWARD BARRY.

St. Patrick's academy of Chicago beat Gibault High school of Vincennes, Ind., 30 to 23, last night in the first game of the tenth annual national Catholic basketball championship tournament at Loyola gymnasium. St. Patrick's is the defending titleholder.

In the other two games of the evening St. Xavier High school of Louisville, Ky., eliminated St. Thomas Military academy of St. Paul, Minn., 38 to 14, and St. Mary's High school of Huntington, Ind., defeated St. Joseph High school of Cairo, Ill., 17 to 12.

Chicagoans Play Today.

Two other representatives of the Chicago Catholic league, St. Rita and De Paul, will play their first round games this morning and evening, respectively. St. George of Evanston will make its first appearance tomorrow morning in the last of the first round games. Play will continue until Sunday night, when a champion will emerge from the field of thirty-two teams entered from widely separated sections of the country.

St. Patrick's started its drive for another title by taking the lead three minutes after the opening whistle when Walter McCauley scored from the field. Almost immediately Lenahan of Gibault flashed down the floor to even the score with a running shot.

St. Patrick's was leading 8 to 5 at the end of the first quarter. Early in the second period the west side boys began drawing away, with Earl Rogers setting the pace. By scoring a free throw and three field goals in quick succession he gave his team a commanding lead, which was never surrendered. The Chicagoans finished the half 17 to 7. The second half was fairly even, although Gibault ended the game with a flurry of shots which earned it a total of 23 points.

Coach Is Missing.

The boys from St. Thomas Military academy were a fast and game outfit, but they were no match for the tall, heavy St. Xavier quintet. The Kentuckians had scored 11 points and six minutes of play had elapsed before St. Thomas tallied. St. Xavier had clinched the game by the intermission, leading 22 to 6, and for the remainder of the encounter it just breezed along in anticipation of its second round contest with St. Patrick's.

St. Xavier was playing without its coach, Bob Schuhmann, who has been suffering from influenza since Friday. Schuhmann played on the Loyola university team last year and upon the St. Xavier team, which won the national Catholic championship in 1926.

The game between St. Mary's and St. Joseph was marked by close guarding, the score standing 8 to 5 at the half. St. Mary's did not pull away to a commanding lead until the last minute or two of play. Summaries:

Golden Gloves Stars Hail Ross, 1930 Champion

BY ARCH WARD.

The first to congratulate Barney Ross after his brilliant victory over Billy Petrolle at Chicago Stadium last night were Fred Caserio and Leo Rodak, co-captains of the Chicago Golden Gloves squad. Ross, who demonstrated to the satisfaction of 14,196 that he is ready for a world championship fight with Tony Canzoneri, got his start in Golden Gloves. He was featherweight champion and intercity winner in 1930.

Two other Golden Gloves boys were awarded draws on last night's card. Billy Gladstone, who was in the tournament three years ago, went six rounds on even terms with Don Messina. Kid Irish, who was a Springfield, Ill., Golden Gloves champion the same year, stepped six rounds with Petey Hayes of New York.

Frank Corr attended his first boxing show since becoming acting mayor He was accompanied by Coroner Frank Walsh and Judge Lyle.

Business was brisk in the upper reaches of the Stadium. The 7,100 seats in the first and second balconies were filled half an hour before the first pair of boxers entered the ring. These sold at $1.10. There were yawning sections in the ringside and mezzanine.

Tony Canzoneri, after being introduced from the ring, took a seat with the Chicago Golden Gloves squad in the east side of the building. He scanned them closely to see if there were any Rosses among them.

Lou Comiskey, owner of the White Sox, liked Ross' punch. That's what his ball club has been needing these many years. He says Simmons and Haas have it.

As an expert Tuffy Griffith is a great fighter. He predicted Petrolle would knock the daylights out of Ross. He said he didn't think Ross could take it around the body and that was where Petrolle liked to land. Griffith was not around the press rows after the show.

For the first time in four years the fighters put on their gloves in the ring. Joe Triner, chairman of the Illinois athletic commission, ordered the change in the belief that it added color to the show.

Ringsiders marveled at Ross' willingness to stand up and slug with Petrolle in the tenth round. He had the fight won beyond question. The average professional would have been willing to take it easy in an effort to avoid a k. o.

14,196 CHEER CHICAGO BOY'S DECISIVE WIN

Billy Has Edge in Only Two Rounds.

BY FRENCH LANE.

Barney Ross, The Tribune Golden Gloves graduate, brought joy and happiness to all his friends and neighbors in Chicago's ghetto last night when he pounded out a most decisive victory over Billy Petrolle, the old Fargo Express, at the Chicago Stadium.

The battle went the limit of 10 rounds. It was witnessed by 14,196 spectators who paid $26,000 to see it.

Barney lambasted Petrolle with everything he had. He hit him in the mid-section and he hit him on the jaw and on the head. Yet the old Express from the Dakotas lumbered on until the final bell ended it.

Rumors about the fight were heard everywhere during the afternoon and up until the boys crawled through the ropes.

"It's in the bag for Ross," was the whisper which went around.

If it was, Petrolle submitted to a lot of punishment and was hit so hard all through the engagement it appeared that his head might be knocked off at any instant. One thing's sure: Petrolle did not pull any punches. He handed out the most punishment Ross had ever encountered. He had his old short right punch to the body working to perfection. It landed on Ross' midsection and it caused Barney to gasp now and then, but that was all. Ross tore at his rival and knocked him back on his heels every time it seemed that Petrolle might be ready to start a rally.

In Line for Title Bout.

The victory put Ross in line for a championship battle with Tony Canzoneri, the king of the lightweights. The struggle more than likely will take place during the summer and the World's Fair at Soldiers' field. Canzoneri was at the ringside last night. He hopped up through the ropes to be introduced before Ross and Petrolle squared away.

"I'll be very glad to meet the winner of this fight with my title at stake," Canzoneri shouted out through the loud speaker.

He already has whipped Petrolle. But this Ross youngster is something else again.

There was no question about the first two rounds. Ross hit the apparently helpless Petrolle 20 times to 1 and piled up a big lead. Every time anybody looked up there was a right or a left slamming into Petrolle's chin or against his eye.

Petrolle Wins Third, Fourth.

The Express got up some steam in the third and fourth rounds. These were the only two sessions in which he had an advantage. His margin was slender in the third. It was quite wide in the fourth. He smashed five vicious lefts into Ross' body, some of them right below the heart. That was Petrolle's best round, the last desperate stand the old Express made to stay on the track and ramble on. Ross fought back in the fifth and the round was pretty close to even.

The folks from around Maxwell street picked up new courage when Barney won the sixth round. He was scoring fast with both hands. The seventh turned out to be Ross' best round. He rocked Petrolle with lefts and rights to the chin and the crowd began to yell for a knockout.

Barney Keeps Going.

All through the eighth, ninth and tenth rounds Ross continued to pile up a lead. He polished off his night's work by giving Petrolle an unmerciful pummelling in the tenth.

There was no doubt about who had won. But what will Ross do against Canzoneri?

Ross, should he become the champion, will be more of a boxer than a fighter. He can't have much power behind his blows or he would have put Petrolle to sleep. He's of the Sammy Mandell type. He knows everything there is to know about boxing, but the old steam isn't there when he starts to sock. But maybe Ross will eventually prove that he can punch like Nelson, Gans, McGovern or Leonard.

Retzlaff Wins by K. O.

Billy Gladstone, 135½ pounds, Chicago, and Don Messina, 137 pounds, Chicago, fought six rounds to a draw.

Petey Hayes, 126 pounds, New York, and Kid Irish, 125 pounds, Chicago, fought six rounds to a draw.

Charley Retzlaff, 193 pounds, Duluth, knocked out Walter Cobb, 226 pounds, New York, in the first round of a scheduled ten round bout.

Varias Milling, 124½ pounds, Philippine Islands, and Johnny Pena, 125½ pounds, New York, fought ten rounds to a draw.

Ferrell Signs Browns Contract; Joins Squad

West Palm Beach, Fla., March 22.—(AP)—Catcher Rick Ferrell, last of the St. Louis Browns' holdouts, signed his 1933 contract tonight. Terms of the contract were not evealed, but it was believed Ferrell accepted a $7,000 salary.

Parille Gets Decision Over Griselle in 10 Rounds

PARIS, March 22.—(AP)—The Argentine heavyweight, Vincent Parille, outpointed Maurice Griselle, French heavyweight champion, in a ten round bout tonight.

PREP FIVES OPEN FIGHT FOR STATE CROWN TODAY

Hutsonville, Springfield to Meet in First Game.

Champaign, Ill., March 22.—[Special.]—Eight high school basketball teams, sectional champions and survivors of a field that originally numbered 794, will open the battle for the state championship in the annual tournament of the Illinois State High School Athletic association at the University of Illinois tomorrow.

The schedule of the first round follows:

3 p. m.—Hutsonville vs. Springfield.
4 p. m.—Gillespie vs. Lake View.
7:30 p. m.—Mahomet vs. Thornton, Harvey.
8:30 p. m.—Benton vs. Canton.

Benton, coached by Hap Tabor, former Illinois football and basketball player, is regarded as one of the strongest contenders on the strength of its record of 34 victories and no defeats this season. Benton has won 93 out of the last 100 games played. Last year Benton was eliminated in the first round.

Thornton Quintet Arrives.

Thornton was an early arrival, Coach Jack Lipe, another former Illinois player, bringing the Harvey squad here today. Thornton won the sectional at Joliet, defeating Waukegan, Downers Grove, and Sycamore.

Springfield, coached by Mark Peterman who is bringing his seventh team in 11 years to the finals, is regarded highly and Lake View, coached by Guy Dickerson, Chicago champion and victor in the sectional at Freeport, also is considered a threat.

Canton was runner up to Morton, state champion last year, but Coach Archie Chadd will bring an entirely new team this year. Gillespie, coached by G. W. Grauel, has won 58 of its last 61 games.

Mahomet is Smallest School.

Mahomet of Champaign county, represents the smallest school in the tournament. Mahomet's players gave state fans a shock by defeating Streator in the sectional tournament. The team is coached by Roy Johnson, an Illinois graduate.

Cochran Wins Block; Hoppe Still Leads

BY GEORGIA VEATCH.
[Women's Pocket Billiard Champion of Chicago.]

Although Welker Cochran, three cushion billiard champion of the world, won the sixth block of a 600 point match, 58 to 50, in 55 innings last night, twenty-one points still stood between him and Willie Hoppe when play ended. Hoppe now leads, 300 to 279 in 280 innings.

Hoppe ran away from Cochran yesterday afternoon when he won the fifth block, 50 to 26. Cochran lacked only one point of tying Willie in the fourth and seventh innings of that block.

The match will continue today at the 131 South Wabash avenue room beginning at 3 and 8:30 o'clock.

Cochran executed a cushion first massé in the 28th inning of the evening session which had appeared to be impossible. Hoppe surpassed his own high run record for the match when he added another point to his unfinished run of 8 in the first inning of the evening block. Cochran, however, still retains the high run laurels, having run 13 and 13, respectively, in the second and third blocks.

Score by innings:

```
HOPPE — 1 0 0 0 0 2 1 0 2 0 0 0
         2 1 0 2 1 1 0 6 0 0 1 1 0 2 0
         0 4 1 0 0 4 0 0 2 0 0 0 0 1 0
         0 0 2 2 0 0 5 1 0 0 0 3 — 50.
High run, 6. Innings, 55. Total score, 300. Total innings, 280 unfinished.
COCHRAN — 1 1 1 1 2 0 1 2 1 1 0
           1 0 1 0 2 1 1 2 0 0 0 1 0 2 0
           0 4 0 4 0 1 0 1 3 2 0 5 1 1 2
           1 0 0 1 2 0 0 0 0 0 0 1 1 0 —
58. High run, 6. Innings, 55. Total score, 279. Total innings, 280.

METCALFE TIES WORLD RECORD FOR 60 YARDS

HAMILTON, Ont., March 22.—(AP)—Ralph Metcalfe, Marquette university's Negro sprint flash, equaled the world's indoor record for the 60 yard dash he set this winter by running the distance in 6.1 in the Ninety-first Highlanders' indoor meet tonight.

Metcalfe nosed out his season's rival, Emmett Toppino, in a close finish, with Bert Pearson of Hamilton, Canadian Olympic runner, third. It was Metcalfe's second victory over Toppino and Pearson in two nights.

The Marquette ace ran the 60 yards in 6.1 for the first time at South Bend, Ind., March 11.

Dr. W. H. Einz of Cincinnati won the 1,000 yard run in 2:18.8, leading E. Kubash of Marquette and Percy Pickard of Hamilton to the finish.

Sullivan Hints He'll Quit Sox to Practice Law

Notre Dame, Ind., March 22.—[Special.]—Billy Sullivan, leading White Sox hitter last season, today intimated that he will not play baseball this year.

He announced that he has passed the Indiana law examinations and will be admitted to the bar April 3. In addition he has made a connection with a financial firm. He will be graduated from the Notre Dame law school in June.

He has returned his contract to the White Sox unsigned.

"I played baseball because I like it and because it pays good money," he said today, "but Manager Lew Fonseca wants me to catch and I don't like to catch. They also want to cut my salary from $10,000 to $6,000. I think I can make more in law and finance. I returned my contract, asking for a clause saying I will not have to catch."

SMITTY—THE PROBLEM

When Celebron Hits Them, Referees Have to Count

Billy Celebron, welterweight runner-up of the Chicago Golden Gloves squad, acts in a carefree lackadaisical way until he pulls a pair of boxing gloves over his powerful fists. Then he means business and proves it with punches.

For the last two years he has hammered his way to the finals of the Golden Gloves tournament, only to find his path to the title blocked in each case by one of the best amateur fighters in the 147 pound division. Last year he was able to lick every one but Johnny Phagan, and this year every one but Henry Rothier.

Already he has proved himself a good fighter, but Wednesday night he will get a chance to add still more merit to his impressive record. That opportunity will come in the intercity matches with the New York team at the Stadium.

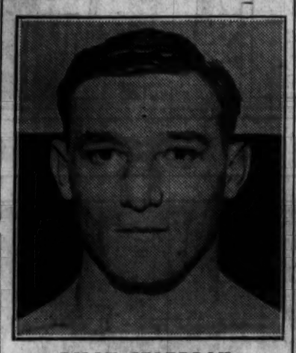
And Can He Punch!

Billy goes through his training with all the thoroughness of a conscientious workman. He skips the rope, spars and shadow boxes with a certain vision before his mind's eye. In that vision he sees himself standing in the Stadium ring while the referee tolls the count over a prostrate fighter in a New York uniform. So far it's just a dream, but Billy is a boy with the ability to make dreams come true.

He has a mighty punch which has sent many an opponent to the floor. In 43 of his 76 bouts he has scored either knockouts or technical knockouts. He has won 27 more by decision and has lost only six. Last summer he won the Central A. A. U. outdoor welterweight championship.

Although Billy's home is in Rockford, he came to Chicago for this year's Golden Gloves tournament and entered the north side sectional meet, where he won two bouts and qualified for the Tournament of Champions. In the fights at the Stadium he won one by forfeit, another by a decision and a third by a technical knockout. Then he lost the decision to Rothier in the finals.

A PUNCHER



BILLY CELEBRON.

He Was Born in Italy.

Billy was born at Carre, in the northern part of Italy, 23 years ago. At the age of three his family brought him to Rockford, and he has been living there ever since. After finishing grammar school he went to work in a paper mill and subsequently in a foundry, where he was a coremaker.

He began fighting about three years ago. In his first Golden Gloves tournament he won the Rockford championship and reached the Chicago semi-finals. Last year he won the Rockford title again and was runner-up in the Tournament of Champions.

Three Football Players Capture N. U. Boxing Titles

Three football players were among the eight champions picked in Northwestern university's first annual boxing tournament at Patten gymnasium last night. The winners will meet Wisconsin at Madison next Tuesday night in the first intercollegiate boxing meet ever staged between Big Ten schools.

Roy Babich, freshman star, won the championship belt in the heavyweight division when he knocked out Fred Thorne in the second round. Babich competed in THE TRIBUNE Golden Gloves, but was eliminated in the north side trials.

Al Kawal, sophomore football and basketball star, pounded out a three round decision over John Sinco, also a football player. Both boys landed freely with rights and lefts, but Kawal outlasted his opponent and in the third round had Sinco in distress with a flurry of blows to the head.

Freddy Lind was the third football player to capture a title. He outpunched Wally Rossborough in three rounds. Rossborough, Evanston middleweight champion, was the pre-bout favorite. Summaries:

112 Pounds—Bob Friedman beat Ken Jamison [3].
118 Pounds—Will Angilotti beat Jerry Katz [3].
128 Pounds—Henry Gimilliat beat Fred Berly [3].
135 Pounds—George Silning beat Herb Ginsburg [3].
147 Pounds—Bill Nott stopped Ed Podrebarac [2].
160 Pounds—Fred Lind beat Wally Rossborough [3].
175 Pounds—Al Kawal beat John Sinco [3].
Heavyweight—Roy Babich knocked out Fred Thorne [2].

An intercity match between amateur boxers from Aurora and Chicago will be held tonight at the Midwest Athletic club. John Mirabal, featherweight, and his brother, Frank, bantamweight, CHICAGO TRIBUNE Novice champion, will head the card, Frank meeting Dave Schimmel and Joe facing Johnny Farrell. Joe Triner, Illinois athletic commission chairman, will attend.

K. OF C. QUINTETS WILL OPEN TITLE ROUND TONIGHT

Four games, involving two teams from each division, will open the championship round of the Knights of Columbus Basketball league tonight at the 132d regiment armory, Madison and Rockwell streets. The title games will be continued Sunday afternoon with the quarter-finals. Semi-finals are scheduled for next Thursday night and the championship games on Sunday, April 2.

TONIGHT'S SCHEDULES.

Garcia Mareno, south end, vs. Lafayette, north.
Setters, west, vs. Englewood, south.
Peres, south, vs. Carroll, west.
O'Connell, north, vs. Santa Maria, south end.

Dempsey to Confer with Sharkey on September Foe

New York, March 22.—[Special.]—Jack Dempsey announced today that he has arranged for a conference with Jack Sharkey, world's heavyweight champion, and Johnny Buckley, to be held in Boston on April 11, for the purpose of finding a September opponent for Sharkey if the latter is victorious in his battle with Primo Carnera.

N. Y. Fighters Arrive Today; Chicago Ready

[Continued from first sport page.]

Public Service office, 1 South Dearborn street, and at the office of the Ticket Manager, Room 530 Tribune Tower. Prices are $1.10, $2.20, and $3.30.

34 ON NEW YORK TEAM

Aboard Golden Gloves Section, Broadway Limited, March 22.—[Special.]—New York's Golden Glovers, 34 strong, are rolling on to Chicago tonight gay, excited but with all intent on one thing to climax their adventure with a decisive victory over the best of Chicago's Golden Gloves boxers at the Stadium next Wednesday night.

When the boys boarded their train at Pennsylvania station this afternoon there was a wild rush to the much discussed "recreation car," which houses a moving picture auditorium and gymnasium in addition to lounging space.

Musicians on Hand.

Several of the team's musicians brought their instruments and quartets and trios have sprung up all over the train. Leonard Del Genio, the smashing 126 pound subnovice champion who scored seven straight knockouts, six of them in the first round, has been the center of attraction ever since the train pulled out of Pennsylvania station.

Charley Weise, German-American A. C. middleweight, who packs a lethal wallop in either hand, is another musician, plinking away at a banjo-mandolin, while Henry Balsamo sings. Sedgwick Harvey, Charley Greene, Pat Robertson, Frank William, and Richard Cabello, colored members of the squad, have supplied that Harlem hi-de-touch.

Stop for Road Work.

Tonight just before reaching Lancaster, Pa., the train was pulled to a siding for half an hour while the lads did their road work. Tomorrow morning before breakfast another stop will be made.

The team tomorrow will establish its Chicago headquarters at the Medinah A. C., where it also will train.

N. U. PLAYERS TO RECEIVE GOLD WATCH CHARMS

Members of Northwestern's basketball team, co-champions of the Big Ten, will be awarded gold basketballs by the Northwestern club of Chicago at a luncheon tomorrow noon at the Chicago Bar association, 160 North La Salle street.

Ponzi Cuts Caras' Lead, but Trails, 625 to 483

New York, March 22.—(AP)—Andrew Ponzi of Philadelphia today cut into the lead held by young Jimmy Caras of Wilmington, Del., in their pocket billiard match, winning the fifth block, 158 to 125, in 14 innings. The Philadelphian still trailed, however, 625 to 483.

SKATING UNION PROBES CONDUCT OF FIVE STARS

Five American skaters, who competed in the winter tournaments in Norway and Finland, yesterday faced suspension from the Amateur Skating Union of the United States on charges of misconduct.

The skaters are Eddie Schroeder, Chicago; Eddie Wedge, Detroit; Bert Taylor, New York; Carl Springer, New York, and Valentine Bailis, Utica, N. Y. Harry Berz of Chicago, new chairman of the skating union's registration committee, is in charge of the investigation.

Kalteaux Prefers Charges.

Frank W. Kalteaux, president of the union, who accompanied the skaters abroad, made the charges. He said several of the players broke training and also threatened to strike for larger expense accounts.

Bers said he also would investigate charges of excessive expenses by several skaters in the North American indoor meet at St. Louis.

Face Life Suspension.

"I intend to question each skater on the charges made by Mr. Kalteaux," said Berz. "According to the charges, there were two ringleaders among the five, who caused a bad feeling by asking for exhorbitant expenses. If the charges are proved the ringleaders will be suspended for life. The others will be suspended for several months or a year."

CAPTAIN DENIES CHARGES.

Utica, N. Y., March 22.—(AP)—Valentine Bialas, captain of the five American skaters who competed in the winter tournaments in Norway and Finland, today denied that he or the others facing suspension from the Amateur Skating union on charges of misconduct while abroad had broken training.

Informed of the charges brought by Frank M. Kalteaux, president of the union, Bailas said:

"We did not break training as the president charged. We did the most conscientious training of our careers on this trip. The results of the events in which we entered only go to prove that we were faithful in our training. Every one bettered every personal record that we had. That in itself should dispel any doubts about our breaking training."

Bialas, who has held three Olympic captaincies, indicated that he and the others later would issue a joint denial of the charges.

STAGG DIRECTS PACIFIC SQUAD IN FIRST DRILL

Stockton, Cal., March 22.—[Special.] With all the vigor and enthusiasm of a young coach starting on his first job, Amos Alonzo Stagg, who was retired as the University of Chicago coach after 41 years of service, began spring practice with the College of the Pacific football team today.

Stagg arrived last night from Chicago. Hundreds of students greeted the veteran coach. More than 40 players welcomed him on the gridiron today. Practice will continue for five weeks.

SAVOLDI SIGNED TO MEET LONDOS ON STADIUM MAT

Joe Savoldi will be Jim Londos' opponent in the heavyweight wrestling show at the Chicago Stadium Friday night, April 7.

Promoter Joe Coffey yesterday signed the former Notre Dame football player to oppose Londos. Londos defeated Joe Stecher at the Stadium March 3. Savoldi was on the last Stadium card, beating Joe Cox of Cleveland. He has been aiming for a chance at Londos for nearly a year.

Donie	11	106	No boy	20-1
Redivivus	13	104	No boy	30-1

LIST ROSENWALD ESTATE CLAIMS OF $23,018,227

StockAccountGuarantees Run Into Millions.

Fifty-two claims totaling $23,018,227 have been allowed in the Probate court against the estate of Julius Rosenwald, philanthropist and capitalist, who died on Jan. 6, 1932. This was disclosed yesterday when Oscar S. Caplan, assistant to the probate judge, allowed forty-one claims which have been filed in the last six months.

The claims consist of friendly actions brought for the remainder of the philanthropic bequests made by Mr. Rosenwald during his life and liabilities assumed by him in guaranteeing stock accounts of employés, friends, business associates, and relatives.

$6,000,000 for Employés.

For the accounts of employés alone Mr. Rosenwald assumed liabilities of six million dollars. Other large claims were made on personal notes of the capitalist.

It was revealed that the estate was at one time technically insolvent, on the basis of market quotations of securities. At the time of Mr. Rosenwald's death his estate was estimated at 45 million dollars. On June 24, 1932, when the inventory of the estate was filed, it had depreciated to $12,225,889, which sum would have sufficed to pay the claims at about 50 cents on the dollar.

The estate was appraised at $32,000,000 for inheritance tax purposes last summer. The present value of the estate is problematical because of the fluctuation in prices of securities. It contains 739,000 shares of Sears-Roebuck stock and blocks of securities of several other companies.

Major Claims Are Listed.

The principal claims allowed against the estate on notes and assumed obligations are as follows:

Chase National bank of New York	$7,825,000
Continental-Illinois Bank and Trust company	4,165,000
Central-Republic Bank and Trust company	100,000
Dr. Joseph Capps	77,752
Harry S. New	38,462
Sangamon corporation	788,788
Stein, Alstrin & Co.	334,047

The principal charitable claims are as follows:

Museum of Science and Industry	$5,059,000
Hull house	95,000
Woman Garment Workers of New York	50,000
Provident hospital of Chicago	250,000
University of Chicago	962,000
Social Service Workers' Country club	24,395
University of Chicago settlement	8,577
Y. M. C. A. of New York	25,000
Spelman college	33,333
American Society for Promotion of Jewish Farm Settlement in Russia	2,188,000
Chicago Historical society	40,000
Social Science Research bureau	25,000
Wellesley college	25,000
Hampton - Tuskegee endowment fund	37,500
A Century of Progress	100,000
Carl Schurz Memorial association	32,500
Illinois Joint Emergency Relief	150,000
Kobe college	25,000
Joint Distribution committee	19,336
Graduate School for Jewish Social Workers	20,000

A claim of $2,360,000 filed by the First National bank on notes has not yet been allowed. None of the claims were contested. All were endorsed by executors of the estate and are thus directly chargeable against the estate.

EDW. J. HANLEY, HAYMARKET RIOT SURVIVOR, DIES

Edward J. Hanley, 82 years old, one of the few surviving members of the Haymarket Riot Veterans' association, died Tuesday at New Richmond, Mich., where he had gone on a visit. Death was due to an intestinal disorder and complications.

Mr. Hanley, who resided at 2506 North Kedzie avenue, retired after serving as a Chicago patrolman for forty-one years. He had been in fairly good health during the winter and was one of the six Haymarket riot veterans who attended a meeting on Jan. 30. On that day only eleven of the 176 policemen who fought the rioters on April 4, 1886, were alive.

Surviving Mr. Hanley are two sons and a daughter. Funeral services will be held at St. Viator's church tomorrow at 10 a. m.

Dr. Emanuel Benson Dies of Heart Attack at 62

Dr. Emanuel O. Benson, former assistant professor of pediatrics at the University of Illinois medical school, died suddenly last night in his home at 1472 Winona avenue. Heart disease was the cause. Dr. Benson was born in Chicago in 1871 and graduated from Rush Medical college. He took post-graduate work in Berlin and Vienna. He was a Mason. Surviving him are his widow, Carrie, and three children, Margaret, John, and Edward.

Everett Lee Millard Funeral Services Today

Funeral services for Attorney Everett Lee Millard, for many years leader of the campaign to prevent defacing of Chicago streets by billboards, will be held today at 3 p. m. in the home on Sycamore place, Highland Park. Mr. Millard died on Tuesday of pneumonia. He was 55 years old. The Rev. Duncan Browne, rector of St. James' Episcopal church, Chicago, will officiate at the services. Burial will be in the Lake Forest cemetery.

Princess of Samos Dies at 79; Widow of Last Prince

VIENNA, March 22.—(AP)—Princess Helene Kopassis, 79, widow of the last reigning price of Samos, died today of heart disease.

Samos, native land of Pythagoras, is a Greek island in the Aegean sea about 27 miles long and 14 miles wide. It is separated from Asia Minor by a straight approximately a mile wide.

Miss Marie Kane Dies After Collapse in Street

Miss Marie Kane, 50 years old, 1422 East 67th place, who collapsed Tuesday night at 71st street and Stony Island avenue, died of heart disease yesterday at the Jackson Park hospital. She was a sister of Mrs. Bernard W. Snow, whose husband, a grain statistician, formerly was chief bailiff of the Municipal court.

LITTLE ORPHAN ANNIE: Great Day!

DICK TRACY—The Stickup

HOLD FUNERAL FOR DE ANGELIS, VETERAN ACTOR

New York, March 22.—[Special.]—Funeral services were held for Jefferson De Angelis, veteran comedian, this noon in the funeral church with many actors and actresses of musical comedy and legitimate troupes of years ago attending. The actor, who was 73, died Monday in the Orange, N. J., Memorial hospital.

The Protestant Episcopal service was conducted by the Rev. Dr. W. Harold Weigle, pastor of St. Paul's church, Mount Vernon. The Masonic service was conducted by members of St. Cecile lodge, 568, A. F. & A. M., of which Mr. De Angelis was a life member.

The pallbearers, representing the Lambs' club, were De Wolf Hopper, Frank Crumit, Hansford Wilson, Roger Pryor, R. H. Burnside, Percy Moore, Edwin Milton Royle, and Joseph Santley.

Among those who attended the services were Julia Sanderson, Charles A. Stoneham, Frank Hatch, Walter Vincent, Tom Findlay, Milton Berle, Al Heaton, Harry Cooper, William T. Phillips, who represented the New York lodge of Elks; Loney Haskell, Robert Campbell, George Coxey, Frank Monroe, Theodore Mitchell, Al Spink, and George Barnum.

ADMITS 'DOUG. JR.' DIDN'T PLAN TO WED HER IN PARIS

COPENHAGEN, Denmark, March 22.—(AP)—Officials of the newspaper Berlingske Tidende said today that Mrs. Lulu Dietz had admitted the incorrectness of a statement she made to them a few days ago to the effect that Douglas Fairbanks Jr. planned to go to Paris this summer, obtain a divorce from Joan Crawford, and marry her.

Mrs. Dietz is the former wife of Jorgen Dietz, who has sued Fairbanks, alleging alienation of affections.

"I had no idea about my ex-husband's suit against Mr. Fairbanks, and my first knowledge was gained through Danish papers," Mrs. Dietz was quoted as saying. "I left Hollywood in July after I had obtained my divorce, and this insane lawsuit thus started long after my departure. Mr. Fairbanks is a wonderful and fine character, and I feel very sorry for him."

ITALY OBSERVES 14TH BIRTHDAY OF FASCIST PARTY

ROME, March 22.—(AP)—Blackshirts throughout Italy will meet in local headquarters tomorrow to hear Premier Mussolini's report that on the fourteenth anniversary of the party all goes well with fascism.

Group leaders will read a brief message from Mussolini emphasizing the success the movement has had in a decade of power. At the same time the necessity for renewed efforts to attain goals not yet reached will be stressed.

Less than 100 of the party's founders now are alive. They are the survivors of a band of men determined to wipe out communism in Italy who met in San Sepolcro square, Milan, 14 years ago. These men are held today in high esteem by their chief and the millions who have sprung up to swell the blackshirt ranks. On the 13th anniversary last year the Duce gave them signed certificates recalling the historic meeting.

Rear Admiral B. C. Decker, Retired, Is Dead in West

Riverside, Cal., March 22.—(AP)—Rear Admiral Benton Clark Decker, retired United States naval officer, died at a hospital today after a brief illness. Born in Lima, N. Y., Dec. 25, 1867, the officer was graduated from the Annapolis Naval academy in 1887. He was retired Dec. 28, 1923.

Lafayette S. Berry, 72, Furrier, Dies Suddenly

Lafayette S. Berry, 72 years old, a furrier in Chicago for the last forty years, died suddenly of a heart attack yesterday in his office, room 904 of the Stevens building, 17 North State street. Mr. Berry lived at 7 Crescent place, Wilmette. The widow and two daughters survive.

SOME WOMEN ALWAYS ATTRACT

You want to be beautiful. You want the tireless energy, fresh complexion and pep of youth. Then let Dr. Edwards Olive Tablets help free your system of the poisons caused by clogged bowels and torpid liver.

For 20 years, men and women suffering from stomach troubles, pimples, listlessness and headaches have taken Dr. Edwards Olive Tablets, a successful substitute for calomel, a compound of vegetable ingredients, known by their olive color. They act easily upon the bowels without griping. They help cleanse the system and tone up the liver.

If you value youth and its many gifts take Dr. Edwards Olive Tablets nightly. How much better you will feel and look. 15c, 30c, 60c.

A NEIGHBORHOOD BULLY KILLS HIS BOYHOOD FRIEND

Stanley Szewczyk, 21 years old, 686 Fay street, was shot and killed last night in front of 1015 West Division street. The slayer, identified as Frank Strzynski, 1137 Branch street, fled after the shooting and is being sought by the police.

Szewczyk was walking along the street with a friend, Walter Kott of 2433 Cortez street, when Strzynski, who appeared to be intoxicated, met them. Strzynski took offense at a fancied insult in their greeting, Kott said, and pulled a pistol. He fired three bullets, one of which struck Szewczyk in the head.

According to Kott, Strzynski was known as a neighborhood bully. The three men had known each other since boyhood.

Oklahoma Learns About Kegs from Tall Stranger

Purcell, Okla., March 22.—(AP)—A "tall dark stranger" sold several five gallon kegs of liquid here at $5 each. The bargain hunting customers learned on opening the kegs that they contained quart jars of liquor sealed neatly inside against the bung holes. Water filled the remaining space. The purchasers' only solace came in news from Pauls Valley that residents had paid $7.50 for the same thing.

Day Old Baby Is Found Abandoned in Doorway

While waiting for a street car yesterday at Grand and Racine avenues, Joseph Spina, 1118 West Grand avenue, heard the cries of a baby. He found the infant, wrapped in a blanket, in the doorway at 1158 West Grand avenue. Police took the baby, a boy about a day old, to St. Vincent's orphanage.

Newfoundland Ex-Premier Defeated in By-Election

[Chicago Tribune Press Service.]

ST. JOHN'S, N. F., March 22.—Former Premier Richard Cramm Squires, opposition candidate in yesterday's by-election at Port de Grace, was defeated by Ernest Gear, government entry, by 357 votes.

PREPARE HALL AT PIER FOR OPENING OF FLOWER SHOW

Three-fourths of the work for the seventh annual flower show of the Garden Club of Illinois, to be opened for nine days, beginning March 31, was completed by yesterday afternoon, according to estimates of leaders of the 73 garden clubs placing exhibits in the three acre north hall of Navy pier.

Although none of the blooms for the show has been set in place, carpenters, masons, and laborers have mingled with the exhibitors as house fronts, back porches, and garden areas have been outlined with hedges, evergreens, rock, peat moss, and soil.

Mrs. O. W. Dynes, president of the garden club and show chairman, said that the 73 clubs and other organizations participating constituted the largest number of entries in the history of the organization.

SAMUEL M. STEIN WILL DISTRIBUTES $1,500,000 ESTATE

The will of the late Samuel M. Stein, manufacturer of Paris garters, listing an estate of $1,500,000, was filed yesterday with Probate Court Clerk Mitchell C. Robin. Mr. Stein died March 8 at the age of 67.

The will leaves $20,000 to Chicago Jewish Charities, $10,000 to the Children's Memorial hospital, and $1,000 each to the Improvement Association for the Blind, the Home for Destitute Crippled Children, and the Chicago Home for the Friendless. Two-thirds of the balance of the estate is to be shared equally by his widow, Mrs. Minette Stein, and two children, Mrs. Katherine S. Schamber and Albert Stein. The remaining third is to be divided by the children.

S. T. Hubbard Dies; Former Head N. Y. Cotton Exch.

New York, March 22.—(AP)—Samuel T. Hubbard, president of the New York Cotton exchange from 1900 to 1902, died of heart disease today at the age of 77. He was an honorary member of the New Orleans Cotton exchange, a member of the Chicago Board of Trade, and a director of several insurance companies.

CHILE JAILS REDS FOR PROPAGANDA ON BRITISH SHIPS

[Chicago Tribune Press Service.]

SANTIAGO, Chile, March 22.—Valparaiso police today arrested a number of communist agents on charges of making subversive attempts among British sailors aboard the cruiser Durban, which has been in Chilean waters for a fortnight on an unofficial visit.

Red propaganda printed in the English language was smuggled aboard, but the endeavors of the communists, it was said, found no response among the Britishers.

HURSEN Funerals and Chapels

Hursen Funerals are famous for unmatched elegance, superb automobile equipment, unusual fineness of service and the most spacious and beautiful Organ Chapels of America. Ten gov. issues	92.70	—.16	+.50 +1.91

[Chicago Tribune Press Service.]

New York, March 23.—[Special.]—Federal government securities recuperated impressively today from the decline of the previous session. Lower prices were the rule in the domestic corporation bond market, with sales converging on public utility issues.

Recoveries of almost a full point were not uncommon among government bonds, the rise pushing some issues to the neighborhood of their 1933 highs. More than any other factor, the rally in the treasury section was attributed to a reversal in sentiment toward a long term bond issue to refund the Fourth Liberty 4¼s. Whereas such an operation was considered a probability yesterday, it was the general belief of traders today that it is not to be expected in the near future.

Corporation Bonds Weak.

Corporation bonds appeared to be still on the slide from the crest of the post-holiday rally. A contributing cause of the slump was said to be uncertainty over railroad legislation and farm relief. The market is still taking its cues from Washington.

Selling of utility bonds was laid to nervousness over Gov. Lehman's proposals for closer regulation of utility holding companies, a plan which might bring sympathetic federal action.

Manifold uncertainties affecting bonds were translated into minor losses for such speculative rail bonds as Baltimore & Ohio refundings 5s, Canadian National Railways 4½s, and Southern Pacific 4½s. A decline of note for proportion, however, occurred in Louisiana & Arkansas 5s, due 1969, which slumped 5 points on heavy sales.

Utility Issues Recede.

Lower prices for utilities were registered by high grade as well as speculative issues. Bonds of American Telephone and Consolidated Gas of New York were included. International Telephone bonds, however, took little cognizance of a poor 1932 earnings report.

The war threat continued to dominate foreign bonds. German issues continued their downward swing, while declines were the rule in such issues as Belgium 6s, French 7s and 7½s, Italian 7s and Norwegian 5s.

INVESTORS' GUIDE

If you wish information about investments or insurance write to The Tribune Investors' Guide. Enclose stamped, self-addressed envelope for reply. Answers of public interest are published, but inquirers' names are never revealed. Beyond care in securing information The Tribune assumes no responsibility.

United States Gypsum.

We would be pleased to receive any information you care to submit on United States Gypsum—N. I.

United States Gypsum company is one of the leading manufacturers of building materials which have gypsum as a base. It controls extensive gypsum deposits in the United States and Canada.

In January, 1933, a leading reporting agency reported that the company's pay point [lowest point at which it could operate at a profit] was 14 per cent of capacity. Operations in 1932 were at 23 per cent of capacity.

Net income in 1932 was $1,599,000, or 86 cents per common share, against net of $3,563,000, or $2.48 per common share, for 1931. Net for 1930 was $5,469,000, against $5,102,000 for 1929 and $6,032,000 for 1928.

Continuing the improvement in current position evidenced since 1928, current assets on Dec. 31, 1932, were $19,557,000. United States government securities were $10,605,000 and municipal bonds were $1,250,000. Working capital was $18,096,000, against $17,449,000 the year before.

on Dec. 31, 1930.

There is no funded debt. There are outstanding 78,822 shares of 7 per cent $100 par preferred and 1,218,349 shares of $20 par common. The common pays 25 cents a quarter.

Profitable operations during 1932, a year of inactivity in the building industry, indicates able management. Strong current position should enable the company to continue getting its share of available business when activity in the industry increases.

The preferred is high grade. The common deserves a fairly good rating.

Consolidated Gas Electric Light and Power.

I would appreciate your comments on Consolidated Gas Electric Light and Power of Baltimore first 4½s, due 1970.—P. O. I.

Consolidated Gas Electric Light and Power company of Baltimore furnishes gas and electricity to Baltimore and an area covering 1,950 square miles in the vicinity. In 1931 about 65 per cent of gross was from sale of electricity and about 32 per cent from gas.

Gross for 1932 was $27,507,000, against $28,499,000 for 1931, $28,582,000 for 1930, and $28,018,000 for 1929. Fixed charges were earned 3.12 times in 1932, 3.37 times in 1931, 3.61 times in 1930, and 3.76 times in 1929.

On Dec. 31, 1932, currents assets were $14,021,000, and current liabilities were $4,418,000. Cash assets alone were almost $4,800,000.

Stability of earnings, wide margin of coverage of fixed charges, and strong current position entitle the company's first mortgage bonds to a sound rating.

DECRIES NAMING FIRMS' HEADS AS RECEIVERS

Judge Gives Views in Studebaker Case.

The appointment of officers of a corporation as its equity receivers was attacked yesterday by Federal Judge James H. Wilkerson when he was asked to approve ancillary receivers in the Studebaker corporation case to care for local assets of that company and its subsidiary, the Rockne Motor corporation.

Judge Wilkerson approved as ancillary receivers the same three officials appointed general receivers by Federal Judge Thomas Slick at South Bend, but stated that his appointments are only temporary, pending a full hearing on April 10.

"I have had a lot of experience in the last two years with receivers in equity in suits instituted by creditors," said Judge Wilkerson. "and I have learned much that I did not know before. I have come to appreciate the difficulties of the courts and of the receivers because of special interests, and because of receivers who are not disinterested.

"It is hard to lay down new rules, but I have reached the conclusion that such receiverships are not on hard ground. A receiver should not have an interest in the company and should not be dominated by the company. I will continue this to April 10, and at that time every one interested can be heard. Interested receivers are almost always obliged to drop out eventually."

Studebaker Plants Reopen.

[Chicago Tribune Press Service.]

South Bend, Ind., March 22.—Six hundred men returned to work today at the shops of the Studebaker corporation here, marking the reopening of the manufacturing plants under the direction of three receivers appointed last Saturday night. The men were called in for work in the body and press shops. It was said the employment rolls would probably be increased gradually as production of automobiles and trucks progressed.

New York Property Attached.

[Chicago Tribune Press Service.]

New York, March 22.—An attachment for $754,403 against the New York property of the Studebaker corporation was served today. It resulted from a suit brought by Albert J. Carey of Brooklyn as assignee of the Marine Midland Trust company of one note of $676,000 payable in thirty days, on which $499,564 is due, and of the Commercial National bank and Trust company on another note for $504,000 on which $254,838 is due.

REPORTS $8,279,805 LOSS

Operations of the Studebaker corporation in 1932 resulted in a net loss of $8,279,805, compared with net profit of $859,805 the year before, according to the annual report, which was released last night. This was the first time in the twenty-seven years of the corporation's history that a loss from operations had been incurred.

In his annual letter to stockholders President A. R. Erskine particularly emphasized the point that despite the great drop in sales the Studebaker corporation more than maintained its share of the total available business.

Of the year's net loss $3,859,267, or 47 per cent, was sustained in the final quarter. In the final 1931 quarter net loss was $1,636,321. Seventy-one per cent of the year's losses were sustained during the last half year.

The consolidated balance sheet as of Dec. 31, 1932, including figures of the White Motor company, shows total current assets of $33,233,836 and current liabilities of $11,452,593, leaving a working capital of $21,781,243.

THREE CONCERNS RAISE RATES ON LIFE INSURANCE

[Chicago Tribune Press Service.]

Hartford, Conn., March 22.—Based on increasingly unfavorable experience in the middle age brackets, increases in rates ranging from 2 to 5 per cent on ordinary life insurance were announced today by the three Hartford stock life companies—the Travelers, the Aetna, and the Connecticut General—effective on April 1.

Changes are greatest for the middle age group, there being little or none for those below 35 and for those at 65. Taking the ordinary life plan as an example, the increase is approximately 2 per cent at age 35, and 5 per cent at ages 45 and 55. The changes effect only the so-called guaranteed cost or nonparticipating rates.

How Tax Load Blocks Path to Recovery

BY SCRUTATOR.

A supposedly fortunate young man at the age of 30 comes into control of a business valued at a million dollars and yielding an annual return of $100,000 before the payment of any taxes. Naturally, it is organized as a corporation to secure limited liability.

What an envious position to be in—with $100,000 a year to spend as he wishes. But he does not have quite $100,000 at his disposal because of several taxes that must be paid. Let's see just how much he does have:

Net income of the business, after all deductions and costs	$100,000
Less general property tax on the business, 37% of full value at $7.35 per $100, the average Chicago rate	27,195
Balance on which to calculate federal tax	$ 72,805
Less federal corporation tax 13¾%	10,011
The sum which could be paid to our fortunate young man, taking all the profits of the business the government had not seized, is	$ 62,794
On this his federal income tax is	12,908
Leaving him supposedly to dispose of as he sees fit	$ 49,886

But the young man is confronted with the fact that governments do not recognize the business is his to be passed on to his son as he may see fit o to his legal heirs. Out of a million dollars left by an Illinois father to his son, the state demands a share of $93,040. And the federal government demands as its stake $84,300. In other words, in the federal estate and state inheritance taxes there must be paid out of our suppositious million dollar estate by the son and heir of our fortunate young man if the property is to be kept intact the sum of $182,340. To prevent the disintegration of the business, $182,340 must be available to pay the government upon the death of our fortunate young man. And, therefore, as a considerate father, he must have accumulated $182,340 by the time of his death. He must set aside $10,000 or more per year to accumulate a fund to pay the taxes that will enable his son to inherit the business. That will leave our fortunate young man $39,891 per year.

Governments Take Lion's Share.

Thus governments take over 60 per cent of the earned income of successful enterprises, leaving less than 40 per cent to compensate for the risks of capital losses.

Our young man would be better off by far if his million dollars were invested in tax exempt securities deposited in a trust for his benefit during his lifetime and his son's benefit thereafter. By so doing much income would be secured without the risk of loss of income and principal, which is present in any business enterprise.

It is this iniquitous system of taxation that has intensified and prolonged the business depression. An individual with means has been discouraged from venturing into business with governments demanding most of his income in his lifetime and a substantial portion of his property after death.

Result Is Depression.

Depression results from the acts of governments in taking away the rewards of individual initiative. If business suffers a loss the individual bears it. If it makes a profit the governments take the bulk of it. The result is that those who have their funds free and can avoid the risks of business do so.

The hope for a revival in business lies in making it attractive to own property and operate businesses. We shall have a recovery if and when those in authority recognize that business men must have incentives before they will undertake risks with their fortunes. We shall have prosperity when those who assume the risks of business success are permitted to receive the profits and to dispose of what they receive as they see fit. Governments, in confiscating the income and property of the rich, have confiscated the prosperity of the country.

U. S. INCOME IS 921 MILLIONS IN EIGHT MONTHS

February Revenue Above Last Year.

[Chicago Tribune Press Service.]

Washington, D. C., March 22.—Internal revenue collections for the first eight months of the fiscal year 1933 amounted to $921,957,621.84, a decrease of $81,732,552.33, as compared with the corresponding period of 1932, the internal revenue bureau announced today.

February income was more than in January this year or February a year ago, but the new nuisance taxes imposed last year did a nose dive to the lowest level in recent months. Collections for February amounted to $96,715,108, an increase of $3,900,000 over the collections of last month and of $31,100,000 over those of a year ago. Yet 38 out of 53 sources of revenue showed declines as compared with January. The three big revenue producers among the new taxes, the levies on gasoline, electrical energy, and bank checks, all brought in less in February than in January.

Gift Tax Chief Gain.

The increase in February collections over those of January was due almost entirely to $3,619,088 gift tax yield, of which more than 3 million dollars is reported to have come from one of the Guggenheims. Increased income and tobacco taxes contributed to the February rise.

Compared with the collections for the same month a year ago, the increase of 31 million dollars last month was due almost entirely to the new nuisance taxes. The cigaret tax, however, showed its first increase in more than a year, bringing in $520,887 more last month than a year ago.

Income tax yields also were heavier in February than a year before, because of the new and higher rates of the last tax bill. February income tax collections were $12,545,582, an increase of $420,910 over February, 1932.

Other Taxes Fall Off.

Corporation taxes for the 8 months amounted to $255,216,420, a decrease of $168,599,537, and individual income taxes amounted to $153,553,270, a drop of $103,388,904. Total income taxes amounted to $388,769,690, a decrease of $271,988,241.

The decrease in income taxes was partially offset by miscellaneous taxes, which amounted to $533,187,831, an increase of $190,255,639, for the eight months.

Tobacco taxes made up nearly half of the miscellaneous receipts during the eight months ending Feb. 28, 1933, totaling $253,482,750, a decrease of $13,899,180. Cigar taxes in this period totaled $7,766,583, a drop of $2,303,079; cigarette taxes $204,717,899, a drop of $7,049,897 and manufactured tobacco taxes $36,031,236, a decrease of $3,021,602.

Miscellaneous taxes for the eight months included those on telephone, telegraph and other messages, $8,387,751; transportation of oil by pipe line, $4,331,969; admission to theaters and other places of amusement, $11,181,589; leases of safety deposit boxes $1,421,488, and on other checks and drafts, $26,378,209, net gains in each case.

Preferred Stock of Fehr Brewery Offered Today

Public offering is being made today of 500,000 shares of participating preference stock of the Frank Fehr Brewing company of Louisville, Ky., by Thompson, Ross & Co., of Chicago. The stock is convertible into common share for share in the event of call for redemption. The company has been in the Fehr family for sixty-two years.

U. S. Treasury Invites Bids on New 100 Million Issue

Washington, D. C., March 22.—(AP)—The treasury today invited bids on an issue of 100 million dollars of 91 day bills, dated March 29, 1933, to be sold on a discount basis to the highest bidders. The proceeds of the sale will be used to retire a similar obligation.

MARKET SUMMARY

NEW YORK STOCKS — Heavy. Rails weaker.

CHICAGO STOCKS—Slow. Prices sag.

NEW YORK BONDS—Federal issues rally.

FOREIGN EXCHANGES — Firm. European money higher.

WHEAT — Lower on liquidation. Farm bill speeds flour buying.

CORN—Lower. Fair support on decline.

CATTLE—Steady to 25c lower; top on steers $7.10; bulk $4.50 to $6.25; averages, $5.35.

HOGS—10c to 20c lower; tops, $4.15; bulk, $3.85 to $4.10; average, $3.95.

COTTON—Slightly higher.

SUGAR—Barely steady. Producers selling.

COFFEE—Easier spot market.

PRODUCE—Butter and eggs lower.

21 More State Banks Given O.K. to Reopen

Twenty-one more state banks were granted licenses last night by State Auditor Barrett to resume business today. This brings the total of state banks permitted to operate on an unrestricted basis to 263 out of a total of 704. The banks to reopen today are:

CARROLLTON—The Carrollton bank.
MOWEAQUA—Ayars State bank.
TOLEDO—Farmers State bank of Toledo.
JEWETT—Jewett State bank.
ARTHUR—State Bank of Arthur.
DEERFIELD—Deerfield State bank.
GRAYMONT—State Bank of Graymont.
BLUE MOUND—The State Bank of Blue Mound.
HIGHLAND—Farmers and Merchants bank of Highland.
HIGHLAND—State and Trust bank.
TOLONO—The Bank of Tolono.
TOLONO—Citizens Bank of Tolono.
GERMANTOWN — Germantown Savings bank.
NEW BERLIN—Warren-Boynton State bank.
ST. JACOB—State Bank of St. Jacob.
SIMPSON—First State bank of Simpson.
NEW BERLIN—First State bank.
STRASBURG—Strasburg State bank.
WINCHESTER—Farmers State bank of Winchester.
DALTON CITY—The Hight State bank.
PETERSBURG—The Schirding State bank.

Reorganization of the Aetna State bank, with $200,000 in new capital, is reported to be progressing satisfactorily by James Maltman, president. He said the plan has the approval of State Auditor Barrett.

Twelve state banks reopened in Illinois yesterday. At the same time the Chicago reserve bank announced that licenses had been issued to 3 Seventh district banks to resume business.

The reserve banks granted licenses are:
Dale, Wis.—First National.
Sparta, Wis.—Farmers' National.
Morris, Ill.—First National.

The Litchfield National Bank of Litchfield, Ill., was granted a federal license to reopen yesterday by the eighth district federal reserve bank at St. Louis.

W. L. Douglas Shoe Co. to Advertise 1897 Prices

The W. L. Douglas Shoe company announced yesterday that it is starting an extensive campaign of newspaper advertising in the Chicago district. Shoes priced now at the same amount as when the company opened its first store here in 1897 will be emphasized. "We are forgetting the world's troubles and are going ahead tending to our own business and making an aggressive bid for sales," W. L. Young, Chicago district manager, stated.

BLACKSTONE HOTEL LIKELY TO OPEN IN MAY

Metropolitan Life Gets Deed from Drake.

The Blackstone hotel probably will throw open its doors again about the middle of May. This was disclosed yesterday when title to the property at the southwest corner of Michigan avenue and 7th street was conveyed by quitclaim deed by the Drake Hotel company, the owner, to the Metropolitan Life Insurance company for an indicated $1,659,500.

This transfer brings about the cancellation of the $1,700,000 first mortgage held by the life insurance company. In addition to including the unpaid balance of the mortgage it takes care of $44,000 interest and also the general taxes for 1929 and 1930.

Expect Lease to Be Signed.

Edwin L. Brashears, vice president and treasurer of the National Realty and Investment company, of which Benjamin H. Marshall is president, is now in New York and it is understood contemplates signing a lease with the Metropolitan Life Insurance company for the hotel.

According to Nathaniel Rubinkam, of Hoyne, O'Connor & Rubinkam, attorneys for the National Realty and Investment company, as soon as title is completed, following yesterday's conveyance by quitclaim deed, various court proceedings against the hotel are to be dismissed, and receivers are to be discharged.

Ends Foreclosure Suit.

A foreclosure suit brought by the Metropolitan Life against the hotel before Judge Wilkerson is to be dismissed. An equity suit brought by Saber, Coe & Dregg also is to be dismissed and a pending bankruptcy suit is to be dropped.

The receivers to be discharged are Paul G. Evans, receiver for the Drake Hotel company, named in the equity suit, and Mr. Brashears, receiver in the foreclosure suit brought by the risk company.

Enyart, Van Camp & Feil Double Office Space

Enyart, Van Camp & Feil, tax warrant specialists, have doubled their office space at 39 South La Salle street, Charles E. Enyart, president, announced yesterday.

ABANDON HUGE DEERING PLANT ON NORTH SIDE

Taxes, Obsolescence Cause Action.

BY AL CHASE.

Taps are now being sounded for one of Chicago's oldest industrial plants and the world's second largest farm implement establishment—the huge Deering works of the International Harvester company, founded by William Deering in 1879, which originally covered seventy-six acres, with half a mile of frontage on the north branch of the Chicago river, between Diversey and Fullerton. It was learned yesterday from an official of the harvester company that from a peak of 3,000 employes the Deering works pay roll has gradually slid to about 350.

Within a few weeks these 350 will have been retired on a pension, shifted to other units of the Harvester company or discharged. The enormous plant, at present comprising 59½ acres, will not be wrecked, according to present plans, but probably will be put on the market for light manufacturing, through lease or sale.

High Taxes Are Factor.

According to an official of the company, high taxes was one of the factors which led to the decision to close the Deering works. Additional reasons were labor costs and various restrictions—political, union and otherwise. But the main factor was obsolescence. The plant, much of it built in the seventies, and with only a few units of modern construction, has been outgrown and outlived.

Farm implements of 1933 are huge tractor drawn affairs which require large, modern, heavily constructed manufacturing plants. The old structures at the Deering works were made for the manufacture of small one horse reapers and and binders. They can't accommodate the necessary great cranes and heavy machinery and so the construction of that type of farm implements gradually has been moved to more modern units. The Deering plant lately has been making only small stationary engines and other moderate sized implements.

Gradually Moving Out.

"It's merely been a case of growing away from the plant," said an official. "The Deering works are mostly old structures which have not been modernized, as was done at the McCormick works. Therefore, for economic reasons we find it advisable to close up permanently. No definite date has been set for the closing; it's a gradual move, which has been under way from week to week for some time."

The McCormick works, comprising 140 acres on the southwest side, which employed about 6,000 at the peak and which now has about 2,000 men and women on the pay rolls, is the world's largest farm implement manufacturing plant.

The International Harvester company was formed three decades ago as a combine of several leading farm implement concerns, the two largest being the Deering Harvester company, as it was then called, and the McCormick Harvesting Machine company. The first president was Cyrus Hall McCormick, son of Cyrus H. McCormick, who died in 1884. Mr. McCormick is now chairman of the board of directors. Alexander Legge is president and Harold F. McCormick is chairman of the executive committee.

At its peak production International Harvester company employed approximately 60,000 at its various plants throughout the world.

STOCK EXCHANGE HOUSE CLEANING BRINGS APPROVAL

BY HOWARD WOOD.

Decision of the governors of the Chicago Stock exchange to clean house by imposing new and stringent regulations on the listing of stock and filing of corporation reports was hailed in the financial district yesterday as a highly constructive move.

Members of the exchange reported that the new rules met with the unanimous approval of their customers. At the office of the exchange itself congratulatory messages poured in all day.

Particularly pleasing to Chicagoans was the manner in which the Chicago Stock exchange broke all precedents by beating its own path instead of waiting to follow in the footsteps of the New York Stock exchange. The consensus of opinion along La Salle street was that the requirements of the Chicago exchange are now more exacting than the requirements of the New York exchange.

Blue Sky Office Back Up Stiffer Existing Requirements.

Secretary of State Edward J. Hughes already has backed up the stock exchange in its move to clean up the securities business, Leonard D. Karcher, his Chicago blue sky representative, said yesterday.

"The Chicago Stock exchange has taken the right step," Mr. Karcher said. "The new rule barring the listing of any stock issue that has not already been marketed will mean much more work for the state blue sky officers, but we're glad to do it.

"Under the law stocks listed on the Chicago exchange are automatically qualified for sale in Illinois, and we have no voice in qualifying them. In the future, instead of being immediately listed on the exchange, stocks must first have distribution; that is, they must already have been sold to the general public before listing. That means that the state blue sky office will have to pass on the qualifications of stocks directly.

Look to Other Exchanges to Take Similar Action.

"We are already tightening up on our qualifications. Where there is any doubt in our minds as to the reputability of the applicant, the soundness of the proposition or the value of assets the security commissioner will require an independent audit by a recognized certified public accountant. This, of course, will be at the applicant's expense."

With both the Chicago Stock exchange and the state blue sky office demanding audits by independent accountants the purchaser of stocks still is not fully protected against unaudited statements and loose listing requirements until the Chicago curb and the Boston Stock exchange follow the housecleaning precedent set by the Chicago Stock exchange.

Under the present Illinois blue sky law the listing of stocks on the Chicago curb or the Boston Stock exchange automatically qualifies them for sale just as does listing on the New York and Chicago stock exchanges. Listing on the New York curb, however, does not constitute a legal qualification, and New York curb stocks must meet the approval of the blue sky office before they may be legally sold.

Ice Machinery Firm Gets Rush Orders from Brewers

[Chicago Tribune Press Service.]

York, Pa., March 22.—The York Ice Machinery corporation has received orders from breweries in various parts of the country for over $100,000 of refrigeration equipment. In addition, the company has had inquiries for and has quoted on brewery refrigeration totaling $1,155,000. In each instance the orders call for immediate delivery.

J. R. THOMPSON WINS CONTROL OF MEAL CHAIN

Chosen President in Proxy Battle.

BY THOMAS FURLONG.

John R. Thompson yesterday won his fight to regain control of the 16 million dollar restaurant chain founded by his father.

JOHN R. THOMPSON JR.

By a slim margin of 6,730 shares Thompson was enabled to elect five of the company's nine directors, thereby giving him control of the board by one vote. At a meeting of the new board last night Thompson was elected president of the company, a position from which he was ousted last December. Sidney S. Gorham, attorney for the Thompson estate and spokesman for young Thompson, was made board chairman.

Thompson's victory came at the close of a seven hour stockholders' meeting last night. The meeting reconvened at 12:15 p. m. yesterday after a recess from Tuesday evening, and lasted until 7:30 last night.

Charges Enliven Meeting.

The meeting was enlivened by sharp verbal clashes between Attorney Gorham and William Collins, president, who was opposing Thompson. Collins was supported by Charles A. McCulloch, former chairman of the company, and a large stockholder.

Collins, who was reelected as a minority director, told stockholders that he had accepted the presidency last December at the urgent request of the directors.

"They urged me to take care of Johnny," he said. "The directors wanted to create the job of vice chairman for John and so hide him, I guess," Collins continued. "John wouldn't take the job, though, and Mr. Gorham, his attorney, insisted that he should be given 'a position of dignity' with the company. Gorham admitted that he didn't think Johnny was capable of running the company."

Gorham Denies Statement.

This brought a sharp reply from Gorham, who said that he had made no such statement.

"I said he needed a position of dignity, and that running the company was not a one man job," Mr. Gorham declared.

"Your memory is faulty," was Collins' rejoinder.

Mr. Gorham acted as spokesman for Thompson throughout the meeting. He told stockholders that the Collins management had attempted to make the Thompson restaurants "highbrow."

"Where," shouted Gorham with a wave of his hand, "are the one armed chairs upon which John R. Thompson Sr. built the success of the company? If the present management stays in, they will soon have mural paintings on the walls. The truck drivers and the taxi drivers will be ill at ease in our restaurants, and the business will suffer."

While the meeting was in session, a

DROP IN WHEAT LAID TO FARM RELIEF MEASURE

Traders Sell Futures; Flour in Demand.

WHEAT IN U. S. FUNDS

Wheat prices in world's markets, reduced to United States funds at rates of exchange when time they closed:

	Wed.	Tues.
Chicago, May	50⅜c	51⅜c
Winnepeg, May	40⅜c	41⅝c
Do No. 2 Manitoba	38⅛c	39c
Liverpool, March	42¼c	42¼c
Do May	47⅛c	47⅞c
Do No. 2 Manitoba	56¼c	56¼c
Do Argentine	50¼c	50¼c
Buenos Aires, May	35⅛c	35⅛c
Rotterdam, March	40½c	41c

BY CHARLES MICHAELS.

Proposed farm relief legislation, with the bill carrying the indorsement of President Roosevelt passed by the house of representatives late yesterday, is commencing to have a decided effect on the wheat market. Many operators on the Chicago Board of Trade admitted yesterday they are unable fully to understand the bill. Some construed the measure as favorable for a lower level of prices, while others took the opposite view.

A clause in the bill which exempts the average householder from the payment of a tax on any commodity which comes under the provisions of the act, is regarded as a dominating influence in greatly stimulating the demand for flour in the last few days.

Consumers Lay In Flour.

A rush of buying has been experienced by some mills, presumably on the part of consumers wishing to lay in supplies of flour in order to escape the processing tax. The latter, it is estimated, on the present level of wheat prices will be equal to around $2.25 per barrel.

Improvement in the flour demand has been reflected in larger takings of cash wheat by mills, and during the last three days it is estimated over 500,000 bushels have been sold by Chicago handlers. The bulk of the business is understood to have been in soft red winter grades.

Buyers of wheat futures who rushed into the market late last week with the reopening of the grain exchanges, in many instances went out of their holdings yesterday.

Wheat futures closed at the bottom, with buying against bids checking the decline. Net losses for the day were 1 to 1⅝ cents, with May at 50¼ to 50⅝ cents, or only ⅝ cent under the July, while the September was 51½ to 51⅝ cents at the last. Cash interests bought May and sold the July and September persistently.

Corn Receives Support.

Commission houses and local operators were fair buyers of corn and the market showed much better resistance to pressure than wheat. Closing trades were ¼ to ⅝ cent lower. May was 27⅝ to 27⅞ cents; July, 29½ to 29⅝ cents, and September, 31¼ cents, at the last. Purchases of 118,000 bushels of cash corn were reported made to arrive, but the bulk of the grain was understood to have been secured at other terminals.

Oats closed unchanged to ¼ cent lower, with May at 17⅝ cents, and July at 18¼ to 18¼ cents. Cash interests and shorts were the best buyers. Rye was quiet and ⅝ to ½ cent lower, with May and July at 36½ cents. Barley again felt the effect of the beer bill and closed unchanged to ⅛ cent lower, with May at 30⅝ cents, and July at 31⅝ cents.

WEAKNESS IN HOG PRICES REFLECTED IN LARD MART

Holders of lard were fair sellers due to the weakness in hogs and grain and to the liquidation by long interests which carried prices down with a finish of 12½ to 20c net lower on futures with cash lard down to $4.15 for regular, $3.60 for loose, and $3.52½ for leaf. Liverpool lard was 6d lower on spot and futures.

Exports from New York were 21,550 pounds, and it is said that interests who have been liberal exporters of late are looking for a falling off in the outward movement.

Bellies were 12½c lower for May and unchanged for July, with trading fair in futures and cash, the latter being $5.37½. Fresh pork loins were said to be easier at 7½ to 11c with apparently more offered. Prices follow:

STOCKS WEAKEN AS TRADE NEWS FAILS TO CHEER

Utilities and Rails Lose Early Gains.

[Chicago Tribune Press Service.]

New York, March 22.—The stock market leaned further toward reaction today. Nothing particularly new came out of the bearskin newsbag to depress trading spirits, but, with the standard business indices, such as steel operations, electric power output, and carloadings, still bumping their depression bottoms, the rank and file evidently could see little in the picture to warrant saying it with big buying orders.

Public utilities, which acted as such a drag on the list yesterday, looked promising for a while and the rails tried to get steamed up over unofficial "reassurances" that recommendations looking to a solution of their problems might be expected from the White House very shortly. But neither group was able to make much headway.

American Telephone Sags.

American Telephone, after touching 97½, sold off to 95⅛ and closed at 95¼, off 2¼ points. In the carrier division Delaware and Hudson, which usually has managed to preempt the spotlight lately, drove forward for about 2 points and then eased to a price under its low of yesterday. Union Pacific gave up more than 3 points, and losses of 1 to 2 points were chalked up elsewhere.

New York traction stocks splurged a bit in anticipation that unification and higher fares will be hastened by the city's growing financial difficulties. Brooklyn-Manhattan rose more than a point and Interborough did almost as well.

Gold Mining Issues Rise.

The gold mining issues also followed their natural bent to move against the easier trend. Alaska Juneau and Homestake, in particular, distinguished themselves.

Wide swings by a number of preferred stocks provided a minor feature of interest. A cluster of these rose 3 to 8 points, but a larger number dropped 2 to 4. Among the outstanding losers of the division were American Can, International Nickel, Loew's, Goodyear, Cudahy Packing, and Columbia Gas.

Most of the recognized group leaders kept close to yesterday's closing levels, thanks in part to the dull pace of trading. American Can, United States Steel, General Electric, and others of that standing were only fractionally changed at the close.

N. Y. Stock Exchange Seat Brings $111,000; Up $6,000

New York, March 22.—The New York Stock Exchange announced that arrangements have been made for the sale of a membership at $111,000, an increase of $6,000 over the last previous sale and the second highest price paid this year. The high was $115,000 on the first sale on Jan. 18 and the low was $90,000 on three successive sales from Feb. 24 to March 1.

RAILROAD CHIEFS HEAR CAR OWNER PLEAS FOR CUTS

2 Officers Are Promoted by Association.

Leading railroad presidents, members of the board of directors of the American Railway association, met with operators of private car lines at the Drake hotel yesterday to discuss a proposal of the railroads to reduce by one-fourth of a cent the mileage allowance given operators of such equipment. The car owners pay regular rates less an allowance for using their own rolling stock.

Railroad officials and spokesmen for owners of private equipment pointed out at the opening of the session that all desired to settle the differences existing among them as a result of the railroad request without resource to expensive and long drawn out proceedings before the interstate commerce commission.

Among the railroad presidents at the meeting were: J. E. Bernet, Chesapeake and Ohio; J. M. Davis, Lackawanna; Charles Donnelly, Northern Pacific; L. A. Downs, Illinois Central; J. E. Gorman, Rock Island; Carl R. Gray, Union Pacific; Hale Holden, chairman, Southern Pacific; L. F. Loree, Delaware and Hudson; J. J. Pelley, New Haven; R. B. White, Central of New Jersey; Daniel Willard, Baltimore and Ohio, and F. E. Williamson, New York Central.

Plea of Car Owners.

The testimony presented by Fayette B. Dow, representing the American Petroleum institute, was typical of that offered by practically all the other owners and users of private equipment. The points that Mr. Dow stressed included the following:

1. Owners of private equipment cannot make a profit and, in fact, cannot meet operating costs under the present allowances. The difference between profit and loss must be made up by the shippers.

2. By furnishing equipment for the hauling of commodities of all types, operators of private equipment relieve the railroads of certain expensive obligations as carriers.

3. Constant improvement in the equipment provided by the companies has served through the years to help reduce losses by the railroads on damage claims.

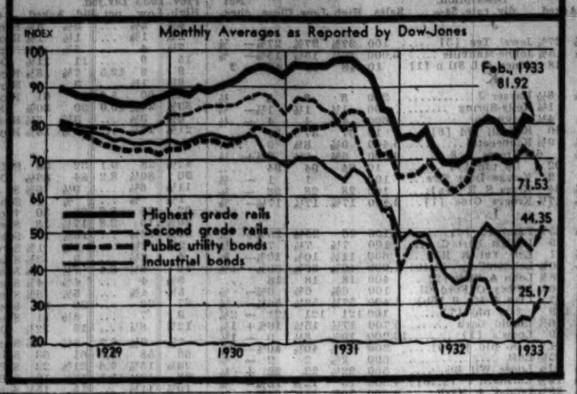
The railroad executives are not expected to announce their decision for several weeks.

Elevate Officers.

E. H. Aishton, who was elected chairman of the board of the American Railway association at a meeting of the board of directors yesterday morning, presided at the rate conference. M. J. Gormley, executive vice president of the association, was elected to fill Mr. Aishton's place.

Members of the executive committee of the Association of Railway Executives, are to meet today to discuss a number of railway problems. Included in these, it is stated, will be the proposal of President Roosevelt for a single department to have control over all forms of transportation.

How Prices of 4 Classes of Bonds Have Varied Since 1929



ELECTRIC OUTPUT SHOWS SMALLER DROP FROM 1932

Weather, Bank Holiday Cut Production.

Electricity output for the Chicago district for the week ended March 18 showed less decrease than the preceding week from the output for the respective periods of 1932.

The output for the Chicago district for the week ended March 18 was 87,553,000 kilowatt hours, compared with 97,516,000 kilowatt hours in the corresponding period last year, a decrease of 10.2 per cent. For the week ended March 11 the output totaled 88,213,000 kilowatt hours, as against 101,661,000 kilowatt hours for the like week of 1932, a decline of 13.2 per cent.

Warm Weather Hurts Output.

Warmer weather this year as compared with last year and probably continued effects of the bank holiday prevented the figure for the week ending March 18 from making a better showing.

For the nation the electric power output for the week ended March 18 totaled 1,375,207,000 kilowatt hours, or 10.6 per cent decrease from the output of the same week last year, according to the Edison Electric institute. In the week ended March 11 the electric power output was 1,390,607,000 kilowatt hours, representing a decline from 1932 of 9.6 per cent.

Decrease Follows Trend.

The decrease of last week from the preceding week is a continuation of a trend manifested since the first part of February.

Decreases by territorial divisions from last year, compared with those shown in the previous week are: Atlantic seaboard, 8.2 per cent, against 8 per cent; central industrial, 14.8 per cent, against 14.4 per cent; New England, 9.5 per cent, against 10.4; Pacific coast, 6.9 per cent, against 5.8 per cent.

N. Amer. Light & Power Lists Additional Shares

The board of governors of the Chicago Stock exchange yesterday approved the listing of an additional 1,000,000 shares of the no-par common stock of the North American Light and Power company. The common and class A stock of United American Utilities, Inc., were delisted because of the discontinuance of both the transfer agent and the registrar.

Am. Smelting & Refining Cuts Lead to 3.10 Cents

The American Smelting and Refining company today reduced the price of lead 15 points to 3.10 cents a pound, New York.

CORPORATION EARNINGS

UNION BAG AND PAPER.
Corporation's report for 1932 shows a net loss of $259,392 after all charges, as contrasted with net profit of $112,584 in the preceding year.

PORTO RICAN AMERICAN TOBACCO.
Company reported a net loss for last year of $102,737 after charges, as against loss of $238,300 before inventory adjustment in 1931.

NATIONAL DISTILLERS PRODUCTS.
Report of corporation and subsidiaries for 1932 shows net profit of $622,170 after interest, depreciation, and minority interest. A loss on the sale of marketable securities, including the company's common stock, of $209,671 and additional provision of $100,000 for loss on notes receivable, applicable to prior years, were charged against surplus account.

In 1931 there was a profit of $831,245 before proportion of profit applicable to American Medicinal Spirits company preferred stock, which has been exchanged for National Distillers preferred stock.

WESTON ELECTRICAL INSTRUMENT.
Corporation reported a net loss for 1932 of $143,353 after taxes and charges, as contrasted with net profit of $122,264 in the preceding year.

JEFFERSON ELECTRIC.
Company's 1932 report shows a net loss of $100,251 after all charges, including loss on securities sold. This compares with net profit of $238,810 in 1931.

CENTRAL INDIANA POWER.
Company and subsidiary, unit of the Middle West Utilities System, had net income for 1932 of $402,573, subject to the adequacy of the current amortization charge and to provision for accrued depreciation, according to the certification of audit by Arthur Anderson & Co.

Balance sheet as of last Dec. 31 shows current assets of $1,091,840, including cash of $55,848, as against current liabilities of $858,297.

BUNTE BROS.
For 1932 today reported net loss of $307,926, compared with net profit of $155,050 in 1931, equal after preferred dividends to $1.25 a share on common stock.

RUDD MANUFACTURING.
Company for the year ended Dec. 31 last has net loss of $290,084, against net loss of $111,482 in 1931. Cash and marketable securities, at cost, amounted to $1,767,805, current assets, $2,604,001, and current liabilities of $28,774.

WESTERN UNION.
Company reported for January a net loss of $540,304 after taxes and charges, as compared with $173,446 for the first month of 1932.

McWILLIAMS DREDGING.
Company for 1932 stated net income was $138,751 after all charges and taxes. This is equivalent to $1.46 a share and compares with earnings of $1.69 a share in 1931.

NICKEL PLATE.
New York, Chicago and St. Louis (Nickel Plate) railroad reports February net operating income $211,750, against $216,050 a year ago.

PUBLIC SERVICE OF NEW JERSEY.
Corporation and subsidiaries for February, 1933, reports gross earnings of $9,608,714, against $10,848,214 for February, 1932. Net income from operations totaled $3,410,072, against $3,777,945 in 1932. The balance available for dividends and surplus for February amounted to $2,175,111, against $2,564,279 in February, 1932. The balance available for dividends and surplus amounted to $27,089,298 for the twelve months ended February, 1933, against $30,673,652 for the same period last year.

GENERAL FOODS.
Corporation and subsidiaries report net earnings for 1932 of $16,848,000, or $1.97 a share on the common stock, compared with a profit in the previous year of $18,153,719, or $3.43 a share.

McKESSON & ROBBINS
Reports 1932 net loss of $921,641, against net profit of $1,845,739 in 1931.

FRIGIDAIRE PUTS OUT EQUIPMENT TO COOL BEER

[Chicago Tribune Press Service.]

Dayton, O., March 22.—The Frigidaire corporation, subsidiary of the General Motors' corporation, today announced complete refrigerating equipment for cooling draft beer. Production was started several months ago, and with the signing of the beer bill by President Roosevelt marketing has been launched.

"Frigidaire enters the beer cooling field at the request of thousands of restaurant and hotel owners who have asked us for suitable equipment," said H. W. Newell, vice president in charge of sales. "The equipment is unique in that it is of the double refrigerant type and permits cleaning with steam or other hot solutions with in a ten minute period and cool beer is available three minutes afterward.

The company that goes out after business in this time of commercial reconstruction can get it, J. J. Nance, manager of the sales planning and advertising division of the Frigidaire corporation, declared yesterday. He spoke before the annual sales convention for the Chicago area at the Knickerbocker hotel.

New 1933 Frigidaires were on display and dealers were told that an extensive newspaper advertising campaign would be launched immediately. Company officials asserted that the new sales drive will put thousands of persons back to work.

FARMERS' NATL. GRAIN LEASES BIG ELEVATOR

James A. Cole, in charge of warehousing facilities of the Farmers' National Grain corporation, said yesterday that the coöperative had increased its storage and handling facilities in the Kansas City area to 9,500,000 bushels by leasing the Chicago and Alton railroad's million bushel terminal grain elevator at Kansas City.

"This addition," Cole said, "to facilities for handling the heavy tonnage of grain originated by our coöperative units in the southwest is a welcome supplement to our previous equipment, consisting of the 2,500,000 bushel Burlington elevator and the newly rebuilt Kansas-Missouri elevator, with a capacity of over 6,000,000 bushels.

The Chicago and Alton elevator was formerly held by the Kansas Coöperative Wheat Marketing association, a stockholder of the Farmers' National Grain corporation, Cole said.

J. R. THOMPSON WINS CONTROL OF MEAL CHAIN

Chosen President in Close Proxy Battle.

[Continued from page 21, column 8.]

suit was filed in the United States District court against John R. Thompson Securities company on behalf of the John R. Thompson company, demanding an accounting of the transactions between the concerns.

The bill alleged that Thompson and two of his associates, as heads of the securities company, had sold $1,558,000 in securities to the restaurant company, which had netted them large personal profits. It further alleged that the securities firm and induced the restaurant company in 1929 to loan it $460,000, without authorization of directors. The securities company, it was charged, paid 8 per cent interest on the loan and turned around and loaned the money in the call money market at a substantially higher interest rate.

With Thompson again in control of the company, it is expected the suit will be abandoned.

Thompson Directors in Majority.

In addition to Thompson and Gorham, the other directors elected by the winning group are S. M. Goldenberg, H. M. Henricksen and W. W. Speer. The minority elected four directors, Collins, McCulloch, E. N. D'Ancona and Herman Waldeck.

The Thompson group voted 135,868 shares of stock against 128,838 by the Collins faction. Total shares voted were 264,406 out of 300,000 shares outstanding.

W. W. Walker, secretary of the company, was the only officer reelected at the meeting of the new board last night. Attorney Gorham fills the position of chairman vacated by the resignation last year of Mr. McCulloch, S. D. Goldenberg, formerly a vice president, and H. M. Henricksen were made vice presidents to succeed Warren Wright and Earl F. Swaim.

ILLINOIS RISK HEAD MODIFIES LIMIT ON LOANS

Springfield, Ill., March 22.—(AP)—Modified regulations issued today by Ernest Palmer, state superintendent of insurance, permits payment of loans on a policy or its cash surrender value for the purpose of meeting all taxes and interest and principal on mortgages on homesteads or farms belonging to the policyholder, it was explained tonight.

In addition, it was said, loans may be secured for payment of hospital, medical, and funeral expenses for immediate members of the assured's family. Such payments shall be made by the insurance company direct to the person entitled thereto, upon order of the policyholder. On industrial life policies, a cash surrender value to the amount of $100 may be paid in cases of emergency.

The balance of the cash surrender value of any policy not paid to the policyholder or used for insurance purposes shall be kept by the interest at the rate specified in the policy at termination of the department order. In cases where payments permitted under the regulations leave a net amount of only a few dollars, full payment may be made and the account closed.

LINCOLN LIFE WINS AWARD FOR REINSURANCE

Gets Northern States Company Business.

Lincoln National Life Insurance company of Fort Wayne, Ind., yesterday was awarded the reinsurance contract for Northern States Life Insurance company of Hammond, Ind. The award was made by Superior Court Judge Maurice E. Crites in the Lake county Superior court at East Chicago, Ind.

Under the terms of this contract the Lincoln National guarantees payment in full of death claims, according to John C. Kidd, Indiana insurance commissioner, who approved the award.

The Northern States Life Insurance company has approximately $45,000,000 of insurance in force. Under the contract $125,000 of death claims now pending against the Northern States company will be paid during the next sixty days.

Keep Office for Year.

During the remainder of 1933 the affairs of the company will be transacted from the Northern States home office in Hammond. After that the business will be handled from Fort Wayne. An aggregate of about $100,000 in premium payments held in trust will be turned over to the Lincoln National company.

Under the reinsurance contract the Lincoln National takes over all assets of the Northern States and holds them in trust for the policy holders of Northern States. Judge Crites indicated that he would in the near future appoint a trustee who will supervise the assets held in trust. This provision will remain in force for fifteen years.

The reinsurance contract places a lien of 60 per cent against the cash surrender value of all Northern States policies. This lien will remain in force until liquidation has proceeded to a point where a release is possible.

Ends Receivership Action.

John Morthland, receiver for Northern States, said that the action taken yesterday would close the receivership proceedings now pending in the federal court of Chicago.

The Northern States Life Insurance company was one of the M. J. Dorsey group of insurance companies. It was affiliated with the Security Life, whose business was reinsured several months ago by Central Life Insurance company of Illinois and Inter-Southern Life, reorganized several months ago as Kentucky Home Life.

BEER FIXTURE FIRM TO RECALL 1,500 WORKMEN

Legalization of beer by congress will make possible the immediate recall of 1,500 employés in the Muskegon, Mich., plant of the Brunswick-Balke-Collender company, engaged in the manufacture of fixtures and counters for dispensing beer and other liquors. This was announced yesterday by R. F. Bensinger, president of the company.

"The reëmployment of 1,500 of our workmen in the Muskegon plant," Mr. Bensinger stated, "will reduce the unemployment in that city some 20 per cent, based on the normal industrial employment of 14,000 and the present rate of full and part time employment."

Before prohibition, the company employed 2,000 men in its Muskegon plant for the manufacture of tavern fixtures. New designs for equipment have been completed, Mr. Bensinger said. Upwards of 400,000 square feet of factory floor space are being cleared at the plant, and orders for raw materials in anticipation of the demand for new fixtures have been placed.

GOODYEAR CUTS PRICES; TO MAKE ONLY TWO LINES

[Chicago Tribune Press Service.]

New York, March 22.—In line with action taken by other companies, the Goodyear Tire and Rubber company today announced price reductions and also the discontinuance of its third and fourth line of tires. The Goodyear reductions of 20 per cent follow those made by Seiberlin, Goodrich, and United States Rubber.

P. W. Litchfield, president of Goodyear, said:

"The Goodyear Tire and Rubber company is announcing to its dealers that the company's third and fourth line of tires are being discontinued and that a new schedule of prices becomes immediately effective.

"Goodyear will produce only two lines of tires. The first is designed for the quality market, while the second fits into what is known as the competitive price market.

"In adopting this new merchandising policy and price schedule we hope for a new harmony in the automobile tire industry which has, quite frankly, been fraught with discord."
